**16 Profitable Future Business Ideas you need to Know.**

**Best Industries to Start a Business in 2019**

*(NPCS Newsletter - Issue 012019)*

[www.entrepreneurindia.co](http://www.entrepreneurindia.co)

[www.niir.org](http://www.niir.org)

**Are you searching for manufacturing business ideas? If you have sizeable money to invest and a more risk-taking ability, starting a business is a good decision. Product manufacturers can generate new value, minimize costs, and increase operational stability by focusing and prioritizing on four broad areas: production, product design, value recovery, and supply-chain management. Thinking about stepping into manufacturing industry business, you need to consider the option of starting on a limited size production. Starting with the making of essential components of the various industries. Once you set up things well, you could choose to start an industry and gradually become the giant of the industry.**

**Get ready and quickly go through these top business ideas that are the best options available with high return on investment. Choose any of these high net profit margin ideas if you want to start a venture in the manufacturing industry:**

# Projects Covered in this Issue

- **WPC Profile for Building Materials like Door and Window Frame and Shutters**
- **Kraft Paper Core Pipe Used in Paper Mills for Paper Reel**
- **Baby & Adult Diaper and Sanitary Pads**
- **Disposable Plastic Syringes**
- **Moringaoleifera (Drumstick) Powder**
- **Surgical Hand Gloves and Mackintosh Sheets (Hospital Rubber Sheet)**
- **Bentonite Clay Granules**
- **IV Fluids (BFS Technology)**

# Projects Covered in this Issue

- **Sulphuric Acid**
- **WPC Board**
- **Coconut Oil from Copra**
- **LPG Cylinders**
- **Tea Blending and Packaging**
- **Methyl Methacrylate (MMA)**
- **Lithium Ion Battery (Battery Assembly)**
- **LPG Bottling Plant**

**Detailed Project Report On**  
**WPC Profile for Building Materials like Door and Window**  
**Frame and Shutters**

**WPCs are composites containing a wood component in particle form (wood particles/wood flour) and a polymer matrix. They are used in a variety of structural and non-structural applications ranging from component and product prototyping to outdoor decking. Wood plastic composites (WPCs) are roughly 50:50 mixtures of thermoplastic polymers and small wood particles. The wood and thermoplastics are usually compounded above the melting temperature of the thermoplastic polymers and then further processed to make various WPC products.**

**The wood-plastic composites market is projected to reach US\$ 2.6 bn in 2012. Analysts anticipate the market to expand at a CAGR of 10.80% during the period from 2013 to 2019 [Read more](#)**

# **Kraft Paper Core Pipe Used in Paper Mills for Paper Reel**

**Paper cores are strong cardboard tubes or cylinders which are used in fabric, adhesive, electrical, paper product and converting industries as a sturdy base around which to wind materials for storage or distribution. Depending on the intended use of the tubes, paper cores can be made from heavy-duty thick cardboard for industries such as fabric and electrical, whereas for toilet paper or paper towels, the cores can be made from thinner, less durable cardboard or paper.**

**Paper core market depends on packaging industry. It is used in many industries for winding a rewinding the product, such as aluminium foil packaging, polyester film, kraft paper, duplex paper, textiles and many more. [Read more](#)**

## Detailed Project Report On Baby & Adult Diaper and Sanitary Pads

**Modern disposable baby diapers and incontinence products have a layered construction, which allows the transfer and distribution of urine to an absorbent core structure where it is locked in. Adult diapers are thin, narrow in the center and wider at the ends and are therefore less evident under regular clothing. Their simple design gives them a fair amount of custom fit and is made out of multi-layered absorbent material. The Sanitary napkin industry is closely connected with the mode of life, which is in turn directly correlated to housing. Accordingly this industry has always grown by keeping pace with improvement in living and it is now indispensable for sanitary in modern housing. [Read more](#)**

## Detailed Project Report On Disposable Plastic Syringes

**Disposable Syringes are being used by doctors to inject medicines through intravenous or intramuscular ways for the treatment of diseases & also by research & development personnel. Disposable syringes are made of plastic material and are used in the field of medical and veterinary science. The manufacture of plastic syringes has been developed to such a degree that the products now satisfy the requirements and standards set by Hospital and physicians.**

**Disposable syringes are the dominating market with a CAGR of around 6% over the forecast period i.e. 2016-2024 because disposable syringes are used only once ensuring the safety of patients. [Read more](#)**

## Detailed Project Report On Moringaoleifera (Drumstick) Powder

**Moringa or drum sticks is among the well-known vegetables being used in our food during its availability. It is commonly known as “Sejana”. Drumstick is a tropical vegetable, which is very popular in South India and other parts of country. The powder prepared from drumstick can be used as a flavoring agent for various non-vegetarian dishes to enhance the flavour of chicken or meat and can also be used for drumstick soup preparation by adding spice powder and other ingredients.**

**India is the largest producer of moringa, with an annual production of 1.1 to 1.3 million tonnes of fruits from an area of 380 km<sup>2</sup>. Today, the moringa market globally is estimated at more than Rs 27,000 crore, which is expected to cross Rs 47, 250 crore by 2020, growing at a rate of nine per cent per year. [Read more](#)**

**Detailed Project Report On**  
**Surgical Hand Gloves and Mackintosh Sheets (Hospital Rubber Sheet)**

**Medical gloves are disposable gloves used during medical examinations and procedures to help prevent cross-contamination between caregivers and patients. Surgical gloves are generally sterile surgical gloves are made from natural rubber latex which provides excellent tactile sensitivity and comfort. Mackintosh sheeting that is also known as Hospital Rubber Cloth. These double faced sheets are available in the width of 90 cm.**

**Indian surgical glove market is growing at 15% while the demand for examination gloves has been rising by 20% per annum. The Global Rubber Gloves market is expected to grow at a CAGR of 8.5% between 2014 and 2022. As a whole any entrepreneur can venture in this project without risk and earn profit. [Read more](#)**

## Detailed Project Report On Bentonite Clay Granules

**Bentonite is a clay generated frequently from the alteration of volcanic ash, consisting predominantly of smectite minerals, usually montmorillonite. Other smectite group minerals include hectorite, saponite, beidelite and nontronite. Smectites are clay minerals. Bentonite is used in drilling fluids to lubricate and cool the cutting tools, to remove cuttings, and to help prevent blowouts etc.**

**Bentonite Market size was over USD 1.1 billion in 2017 and industry expects consumption above 25 million tons by 2024. Rising infrastructural growth in China, India, Japan and Malaysia owing to increased public expenditure is predicted to boost the construction industry and thereby accelerate bentonite market size. [Read more](#)**

## Detailed Project Report On IV Fluids (BFS Technology)

**Intravenous fluids are fluids which are intended to be administered to a patient intravenously, directly through the circulatory system. These fluids must be sterile to protect patients from injury, and there are a number of different types available for use. Intravenous fluids can also be used as a route of medication administration.**

**The market for Intravenous (IV) Solution is expected to reach USD 11,511.2 million by 2022 and is expected to grow at a CAGR of 7.69% during the forecast period 2016-2022. The factors which drive the growth of the market are the rising prevalence of chronic diseases, rising acceptance of vitamin C intravenous treatment therapy to treat colorectal cancer. Entrepreneurs who invest in this project will be successful. [Read more](#)**

## Detailed Project Report On Sulphuric Acid

**Sulfuric acid or sulphuric acid is a mineral acid with molecular formula  $H_2SO_4$ . It is a colorless, odorless, and syrupy liquid that is soluble in water, in a reaction that is highly exothermic. The most common use of sulfuric acid (60% of total) is for fertilizer manufacture. It is also a central substance in the chemical industry. Sulfuric acid is used in large quantities by the iron and steel making industry to remove oxidation, rust and scaling from rolled sheet and billets prior to sale to the automobile and major appliances industry.**

**The sulphuric acid market in India is projected to exhibit a CAGR of 3.35% during 2016-2025, on account of increasing fertilizer production in the country. [Read more](#)**

## Detailed Project Report On WPC Board

**Wood-plastic composites (WPCs) are a product class that has been developing over the last 40 years resulting in increased applications and expanded market share. More specifically, WPCs are composites containing a wood component in particle form (wood particles/wood flour) and a polymer matrix. They are used in a variety of structural and non-structural applications ranging from component and product prototyping to outdoor decking.**

**The wood-plastic composites market is projected to reach US\$2.6 bn in 2012. Analysts anticipate the market to expand at a CAGR of 10.80% during the period from 2013 to 2019 and attain a value USD 5.84 Billion by 2021, at a CAGR of 12.4% from 2016 to 2021. Market is poised to grow at a CAGR of around 13.2% over the next decade to reach approximately \$9.7 billion by 2025. Thus, due to demand it is best to invest in this project. [Read more](#)**

## Detailed Project Report On Coconut Oil from Copra

**Copra is the dried flesh of coconuts. Copra is the richest source of edible oil. On dry weight basis, copra contains 65-70 per cent oil. Coconut oil finds extensive use in the food industry due to its specific properties such as low melting point, resistance to oxidative rancidity, pleasing flavour and easy digestibility. Coconut oil is preferred as a source of fat in the preparations of infant milk powder, ice cream, confectionery and bakery products.**

**India's consumption is growing annually at 5% p.a. Within the industry, 40% of oils & fats are sold in packaged form and this segment is growing at 20-25% p.a. With this pace, the industry will get 75-80% packaged by 2018. [Read more](#)**

## Detailed Project Report On LPG Cylinders

**Liquefied petroleum gas (LPG) is a term describing a group of hydrocarbon-based gases derived from crude oil and or natural gas. LPG Cylinder is an essential item for filling liquefied petroleum gas used for cooling purpose. The body of LPG cylinder is deep drawn in two pieces then these are welded together to make a compact unit without any leak and defect etc. LPG cylinders are in use in 5 Kg., 12 Kg., 14.2 Kg. & 19 Kg. capacities.**

**The LPG cylinder market is segmented on the basis of product type and applications. There are various types of cylinder valves which include hand wheel valves, quick-on valves, forklift valves, safety valves, self-closing valves, and cut-off push & turn valves. [Read more](#)**

## Detailed Project Report On Tea Blending and Packaging

**The tea-plant, in its natural state, grows into a small or medium-sized tree, but in commercial plantations it is pruned and trained to form a many-branched low bush and is encouraged to produce vigorous vegetative growth by adopting an appropriate schedule of fertilizer applications. Blending is the process of mixing of high grade different type of teas.**

**Tea is the world's and India's beverage of choice, after water. The organised branded tea segment was at about Rs 12,970 crore in 2017, up from Rs 12,240 crore in 2016, according to market research firm Euromonitor International. India is the world's second largest producer of tea, after China. In 2017-18, it recorded the highest production, at 1,325 million kg, 6% higher than the previous year. [Read more](#)**

## Detailed Project Report On Methyl Methacrylate (MMA)

**Methyl methacrylate is key monomer for acrylic resins, coating materials, and polymers that meet the fast rising demand for light-guide panels in LCD assemblies. Methyl methacrylate, is known for its excellent transparency and weatherability, as well as its easy recyclability, this acrylic has attracted a great deal of attention for environmental considerations.**

**Methacrylate Monomers Market size was valued at USD 8.45 Billion in 2016 and is projected to reach USD 11.26 Billion by 2022, at a CAGR of 4.9% in terms of value. In this study, 2015 has been considered as the historic year, 2016 as the base year, and 2017 to 2022 as the forecast period for estimating the size of the methacrylate monomers market. As a whole any entrepreneur can venture in this project without risk and earn profit. [Read more](#)**

## Detailed Project Report On Lithium Ion Battery (Battery Assembly)

**Lithium batteries are now powering a wide range of electrical and electronical devices, including laptop computers, mobile phones, power tools, telecommunication systems and new generations of electric cars and vehicles. Lithium ion batteries are those that can be recharged. As an example, laptop or cell phone is likely to have a lithium ion battery.**

**The India lithium-ion battery market is expected to grow at a robust CAGR of 29.26% during the forecast period, 2018-2023. The Indian automobile sector is one of the most prominent sectors of the country, accounting for nearly 7.1% of the national GDP. The India lithium-ion battery market is expected to grow at a robust CAGR of 29.26% during the forecast period, 2018-2023. This facilitates the development of new technologies and ensures a high quality product. [Read more](#)**

## Detailed Project Report On LPG Bottling Plant

LPG cylinder filling plants vary considerably in size, complexity and layout. The type and size depends on such factors as maximum potential throughput requirements, size and type of cylinder filled and the number/ grades of products handled. Liquefied Petroleum Gas is a Propane/Butane mixture liquefied under normal ambient temperature and moderate pressures. It is a safe, clean burning, reliable, high calorific value fuel. In addition to its use as a domestic fuel, it is also widely used in industries, where there is a requirement of low sulphur content fuel and fine temperature controls.

The average growth rate in demand has settled down to around 10% from a high of 18% during early 1990s. Apart from commercial and industrial establishments, 94 mn households use LPG. [Read more](#)

## **Free Instant Online Project Identification & Selection Search Facility**

**Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects.**

**Here's we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website**

**[www.entrepreneurindia.co](http://www.entrepreneurindia.co) that is "Instant Online Project Identification and Selection"**

**NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.**

# Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

*We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.*

*We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.*

# What do we Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Industry Trends*
- *Market Research Reports*
- *Technology Books and Directory*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

## How are we Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

# Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

# Who do we Serve?

- *Public-sector Companies*
- *Corporates*
- *Government Undertakings*
- *Individual Entrepreneurs*
- *NRI's*
- *Foreign Investors*
- *Non-profit Organizations, NBFC's*
- *Educational Institutions*
- *Embassies & Consulates*
- *Consultancies*
- *Industry / trade associations*
