

Coverall (Boiler Suits).

Protective Coveralls

and

Boiler Suits for Industrial

Professional.

Workwear Industry

Introduction

Coveralls are used for a range of industrial purposes, ranging with treatments for anti-static, flame spread resistant properties, different colour options, and accessories. Historically, outside of the flight industry, coveralls were often used by men maintaining coal-powered boilers. These garment which is usually used as protective clothing when working.

Boilersuit is a one-piece garment with full-length sleeves and legs like a jumpsuit, but usually less tight-fitting. Its main feature is that it has no gap between jacket and trousers or between lapels, and no loose jacket tails. It often has a long thin pocket down the outside of the right thigh to hold long tools. It usually has a front fastening extending the whole length of the front of the body up to the throat, with no lapels.

It may be fastened with buttons, a zip, Velcro, or snap fasteners. Boilersuits with an attached hood are available. The word "boilersuit" may also refer to disposable garments. Boilersuits are so called because they were first worn by men maintaining coal-fired boilers. To check for steam leaks or to clean accumulated soot from inside the firebox of a steam locomotive, someone had to climb inside, through the firehole (where the coal is shovelled in). A one-piece suit avoids the potential problem of loosened soot entering the lower half of one's clothing through the gap in the middle. As the firehole opening is only just large enough for a fit individual to negotiate, a one-piece suit also avoids the problem of the waistband snagging on the firehole as one bends to wriggle through, or of jacket tails snagging if one has to come out backwards.

Market Outlook

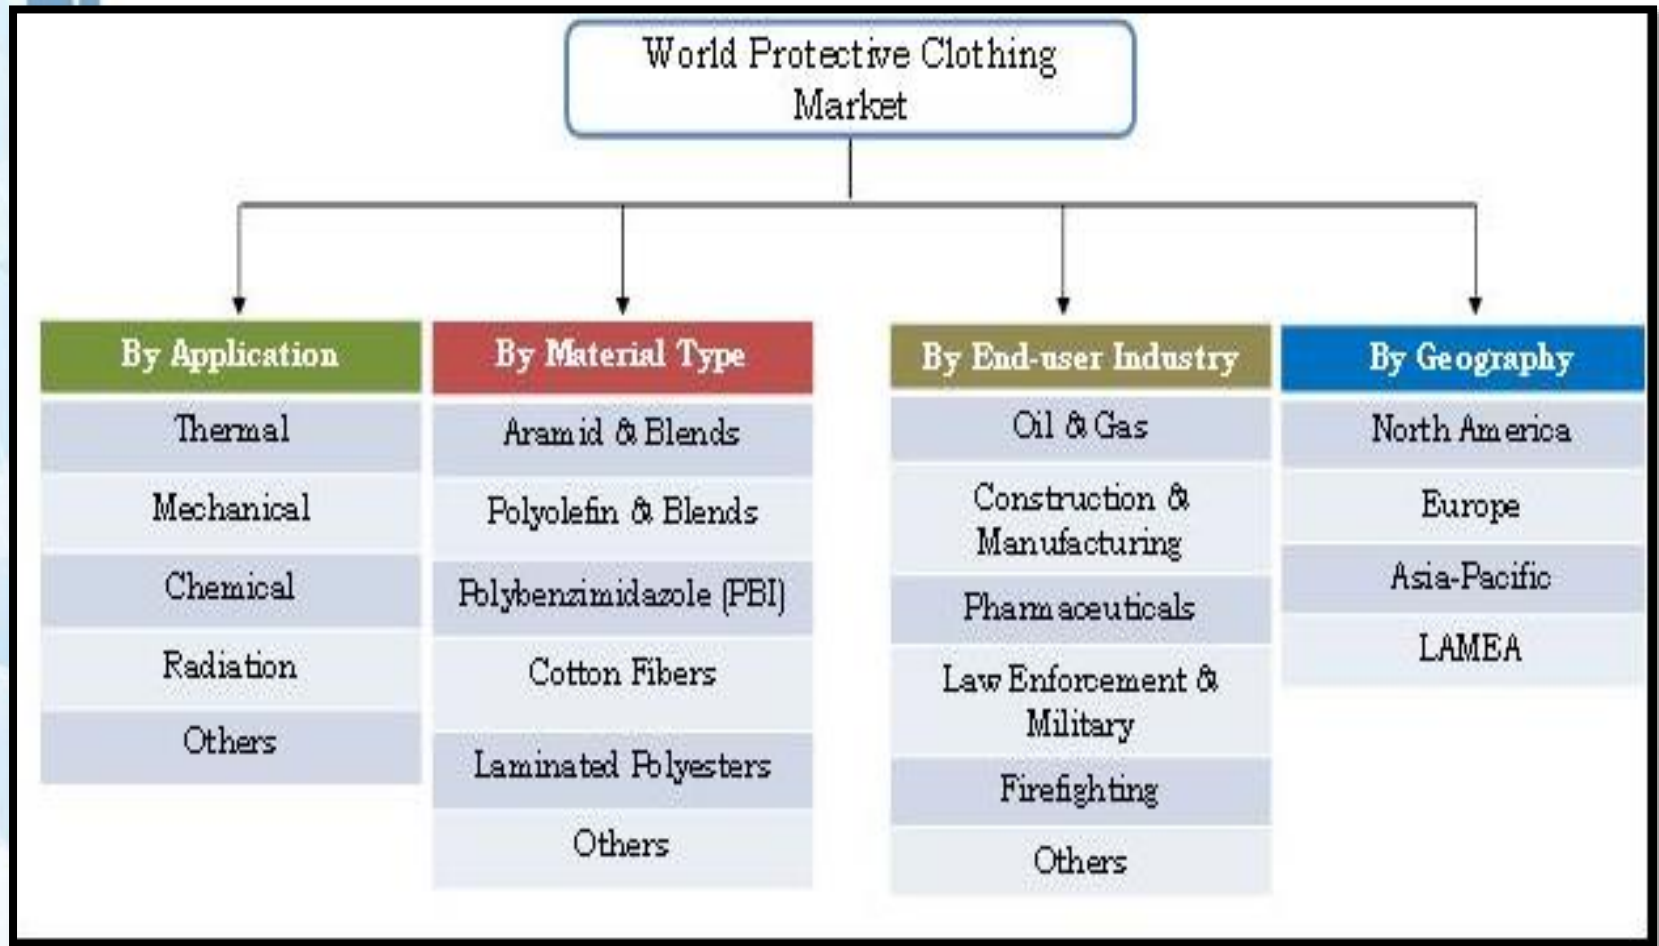

The global Coveralls market was million US\$ in 2018 and is expected to million US\$ by the end of 2025, growing at a CAGR of between 2019 and 2025. Most industrial sectors like mining, chemical, military, hospitals, and energy services involve hazardous work environments that can cause fatalities in the workplace. To prevent workplace injuries and fatalities, workers exposed to such hazardous conditions require protective clothing like coveralls.

Global protective clothing market was valued at \$8,003 million in 2015, and is expected to reach \$10,211 million by 2022, supported by a CAGR of 3.6% during the forecast period 2016 to 2022. All fabrics are protective to some extent but protective clothing are not only concerned to protect just from daily needs but also from situations where hazards or risks are present and that have the potential to be life threatening or pose considerable potential for injury or damage to the person working in and around the hazard.

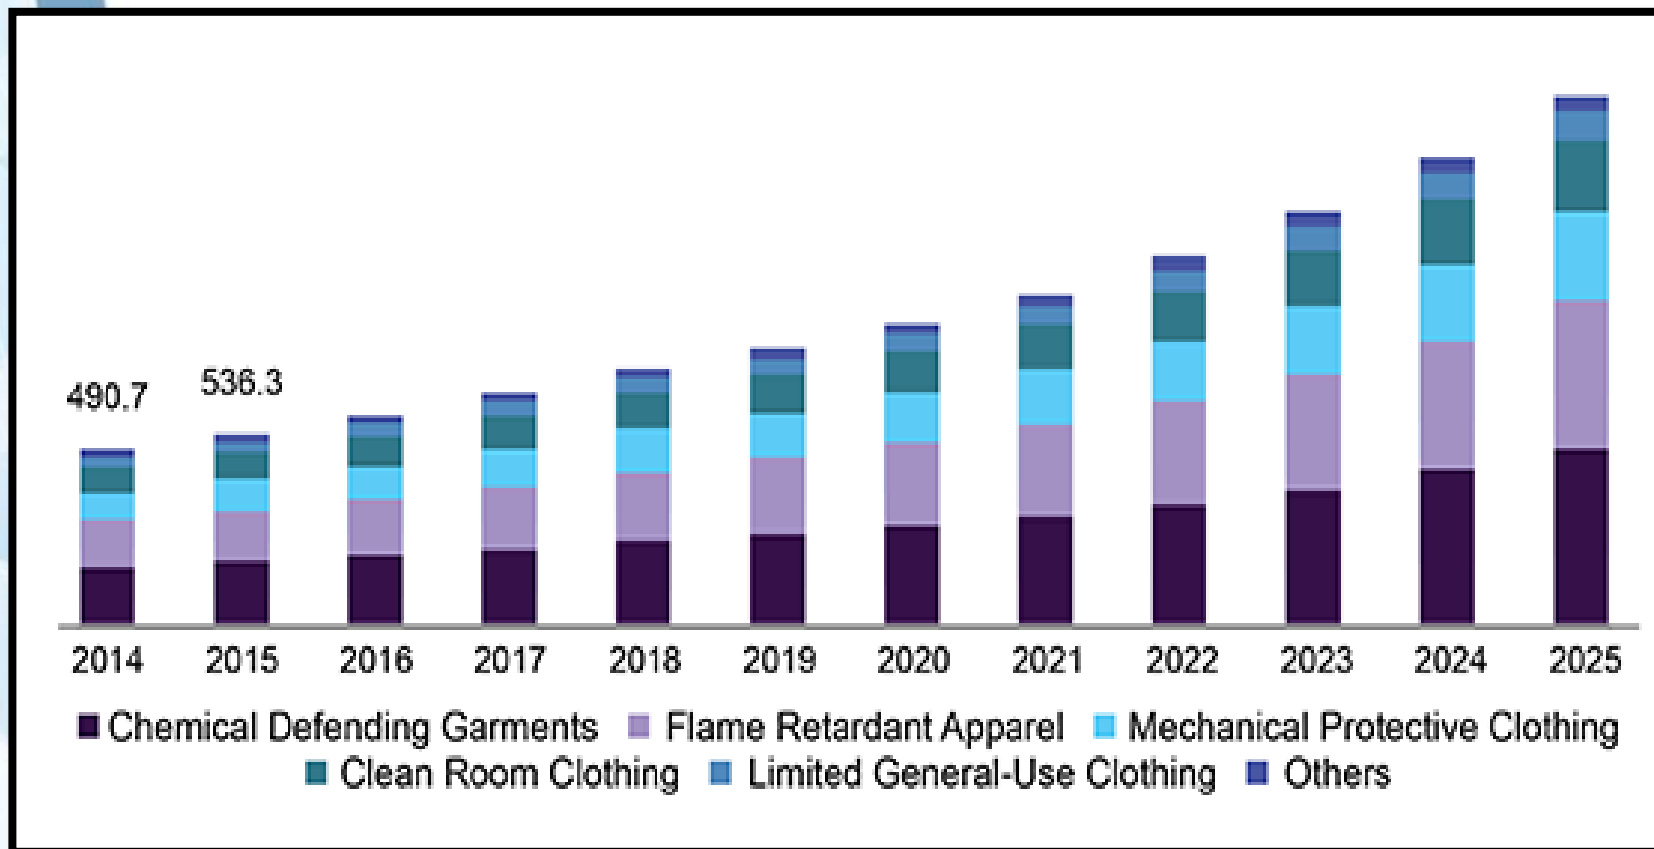

Global Protective Clothing Market Segmentation

Protective clothes are designed to prevent the person and/or product from coming in contact with adverse elements of the environment, thus providing protection, and/or reducing the risk of exposure. Based on the industry, protective clothing can be of fire & heat resistant, chemical resistant, cold resistant, ballistic & mechanical resistant, and UV resistant.

The demand for protective clothing is expected to witness significant growth owing to rising worker safety concerns in manufacturing, chemical, oil and gas, and construction sectors. Rising awareness to control industrial accidents and fatalities at workplace is expected to further propel the demand. Innovations by the industry players to improve chemical, cold, mechanical and ballistic, and fire resistance of these products is expected to have a positive impact on the market growth.

U.S. Industrial Protective Clothing Market Demand, By Application, 2014-2025 (Million Square Meter)

Rising health concerns owing to exposure to harmful emissions and smoke coupled with increasing mishaps, particularly in oil and gas and mining industry are likely to support the product demand. Increasing number blue-collar workforce in construction and manufacturing industries is further projected to propel the demand for protective clothes over the forecast period.

The rising concerns regarding the safety of workers coupled with the increasing stringency of government regulations are by far the leading factor driving the global protective clothing market. The booming demand for multifunctional protective clothing from end-user industries is also propelling the market.

Furthermore, the rapid industrialization along with improving economic conditions in emerging countries is providing a significant boost to the growth of the market. On the flip side, the research and development of protective fabrics require hefty funds, which adds to the overall price of protective clothing. Therefore, their high cost is hampering the growth of the market.

Major Queries/Questions Answered in the Report?

- 1. What is Coverall (Boiler Suits) Manufacturing industry ?**
- 2. How has the Coverall (Boiler Suits) Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Coverall (Boiler Suits) Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Coverall (Boiler Suits) Manufacturing plant ?**

- 5. What is the structure of the Coverall (Boiler Suits) Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Coverall (Boiler Suits) Manufacturing Business?**
- 7. What are the operating costs for setting up Coverall (Boiler Suits) Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Coverall (Boiler Suits) Manufacturing plant ?**

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Coverall (Boiler Suits) Manufacturing plant ?

10. What are the requirements of raw material for setting up Coverall (Boiler Suits) Manufacturing plant ?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Coverall (Boiler Suits) Manufacturing Business?

12. What is the Manufacturing Process of Coverall (Boiler Suits)?

- 13. What is the total size of land required for setting up Coverall (Boiler Suits) Manufacturing plant ?**
- 14. What will be the income and expenditures for Coverall (Boiler Suits) Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Coverall (Boiler Suits) Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Coverall (Boiler Suits) Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Coverall (Boiler Suits) Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Coverall (Boiler Suits) Manufacturing Business?

19. What are Statistics of Import & Export for Coverall (Boiler Suits)?

20. What is the time required to break-even of Coverall (Boiler Suits) Manufacturing Business?

21. What is the Break-Even Analysis of Coverall (Boiler Suits) Manufacturing plant?

22. What are the Project financials of Coverall (Boiler Suits) Manufacturing Business?

- 23. What are the Profitability Ratios of Coverall (Boiler Suits) Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Coverall (Boiler Suits) Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Coverall (Boiler Suits) Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Coverall (Boiler Suits) Manufacturing project?**

- 27. What are the Market Opportunities for setting up Coverall (Boiler Suits) Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Coverall (Boiler Suits) Manufacturing Business?**
- 29. What is the Plant Layout for setting up Coverall (Boiler Suits) Manufacturing Business?**

Table of Contents of the Project Report

Our Detailed Project Report contains

- **Introduction**
- **Properties**
- **Uses & Applications**
- **List of Plant & Machineries**
- **Miscellaneous Items and Accessories**
- **Instruments, Laboratory Equipments and Accessories**
- **Electrification, Electric Load and Water**
- **Maintenance, Suppliers/Manufacturers of Plant and Machineries**

- **Process of Manufacture**
- **Flow Sheet Diagram**
- **List of Raw Materials**
- **Availability of Raw Materials**
- **Requirement of Staff & Labour**
- **Skilled & Unskilled Labour**
- **Requirement of Land Area**
- **Built up Area**
- **Plant Layout**

Project Financials

• Project at a Glance	Annexure
• Assumptions for Profitability workings	1
• Plant Economics.....	2
• Production Schedule.....	3
• Land & Building.....	4
Factory Land & Building	
Site Development Expenses	

- **Plant & Machinery.....5**
 - Indigenous Machineries**
 - Other Machineries (Miscellaneous, Laboratory etc.)**

- **Other Fixed Assets.....6**
 - Furniture & Fixtures**
 - Pre-operative and Preliminary Expenses**
 - Technical Knowhow**
 - Provision of Contingencies**

- **Working Capital Requirement Per Month.....7**
 - Raw Material**
 - Packing Material**
 - Lab & ETP Chemical Cost**
 - Consumable Store**

- **Overheads Required Per Month and Per Annum.....8**
Utilities & Overheads (Power, Water and Fuel Expenses etc.)
Royalty and Other Charges
Selling and Distribution Expenses

- **Salary and Wages9**

- **Turnover Per Annum10**

- **Share Capital.....11**
Equity Capital
Preference Share Capital

- **Annexure 1 :: Cost of Project and Means of Finance**
- **Annexure 2 :: Profitability and Net Cash Accruals**
 - **Revenue/Income/Realisation**
 - **Expenses/Cost of Products/Services/Items**
 - **Gross Profit**
 - **Financial Charges**
 - **Total Cost of Sales**
 - **Net Profit After Taxes**
 - **Net Cash Accruals**

• **Annexure 3 :: Assessment of Working Capital requirements**

- **Current Assets**
- **Gross Working Capital**
- **Current Liabilities**
- **Net Working Capital**
- **Working Note for Calculation of Work-in-process**

• **Annexure 4 :: Sources and Disposition of Funds**

- **Annexure 5 :: Projected Balance Sheets**

- **ROI (Average of Fixed Assets)**
- **RONW (Average of Share Capital)**
- **ROI (Average of Total Assets)**

- **Annexure 6 :: Profitability Ratios**

- **D.S.C.R**
- **Earnings Per Share (EPS)**
- **Debt Equity Ratio**

• **Annexure 7 :: Break-Even Analysis**

- **Variable Cost & Expenses**
- **Semi-Variable/Semi-Fixed Expenses**
- **Profit Volume Ratio (PVR)**
- **Fixed Expenses / Cost**
- **B.E.P**

• **Annexure 8 to 11 :: Sensitivity Analysis-Price/Volume**

- **Resultant N.P.B.T**
- **Resultant D.S.C.R**
- **Resultant PV Ratio**
- **Resultant DER**
- **Resultant ROI**
- **Resultant BEP**

- **Annexure 12 :: Shareholding Pattern and Stake Status**

- **Equity Capital**

- **Preference Share Capital**

- **Annexure 13 :: Quantitative Details-Output/Sales/Stocks**

- **Determined Capacity P.A of Products/Services**

- **Achievable Efficiency/Yield % of Products/Services/Items**

- **Net Usable Load/Capacity of Products/Services/Items**

- **Expected Sales/ Revenue/ Income of Products/ Services/ Items**

- **Annexure 14** :: **Product wise Domestic Sales Realisation**
- **Annexure 15** :: **Total Raw Material Cost**
- **Annexure 16** :: **Raw Material Cost per unit**
- **Annexure 17** :: **Total Lab & ETP Chemical Cost**
- **Annexure 18** :: **Consumables, Store etc.**
- **Annexure 19** :: **Packing Material Cost**
- **Annexure 20** :: **Packing Material Cost Per Unit**

- **Annexure 21** :: **Employees Expenses**
- **Annexure 22** :: **Fuel Expenses**
- **Annexure 23** :: **Power/Electricity Expenses**
- **Annexure 24** :: **Royalty & Other Charges**
- **Annexure 25** :: **Repairs & Maintenance Expenses**
- **Annexure 26** :: **Other Manufacturing Expenses**
- **Annexure 27** :: **Administration Expenses**
- **Annexure 28** :: **Selling Expenses**

- **Annexure 29 :: Depreciation Charges – as per Books (Total)**
- **Annexure 30 :: Depreciation Charges – as per Books (P & M)**
- **Annexure 31 :: Depreciation Charges - as per IT Act WDV (Total)**
- **Annexure 32 :: Depreciation Charges - as per IT Act WDV (P & M)**
- **Annexure 33 :: Interest and Repayment - Term Loans**
- **Annexure 34 :: Tax on Profits**
- **Annexure 35 :: Projected Pay-Back Period and IRR**
