

# Top 12 Business Ideas & Opportunities for Startup.

Manufacturing  
Industries to start a  
Business

## ➤ **Mouth Freshener (Sounf, Supari, Elaichi Flavoured & Coloured in Pouch)**

**Mouth fresheners are available in different forms in market. When you are in India, you will see people chewing “pan or paan” after meal. Or you might also see roasted seeds in restaurants kept in a bowl.**

**While stepping out after heavy meal or snacks you will take a teaspoon of these roasted seeds and put in your mouth. Within an hour of eating these mouth fresheners you will start feeling better. They get rid of bad breath, heaviness in the system and helps in digestion.**

## ➤ Colour Cem (Snowcem)

**CEMCOLOR is an economy colour coating for exteriors. It is formulated for easy mixing and application. CEMCOLOR for lesser initial investment and good appearance. CEMCOLOR is based on white Portland cement and other ingredients which make it easy to apply and water repellent. It requires addition of water only in one stage. It contains pigment that are resistant to heat & light. CEMCOLOR is can be applied on the surfaces. To improve its adhesive properties, especially on smooth wall surfaces or bricks with sulphates, old cement paint surface, distempers, lime blocks & smooth nonabsorbent cement surfaces, CEMPROVER cement primer mixed with an equal measure of clean water should be applied as priming coat.**

## ➤ Zircon

**Zircon is ubiquitous in the crust of Earth. It occurs as a common accessory mineral in igneous rocks (as primary crystallization products), in metamorphic rocks and as detrital grains in sedimentary rocks. Large zircon crystals are rare. Their average size in granite rocks is about 0.1–0.3 mm, but they can also grow to sizes of several centimeters, especially in mafic pegmatites and carbonatites. Zircon is also very resistant to heat and corrosion. Zircon ( $ZrSiO_4$ ) is a common accessory mineral in nature, occurring in a wide variety of sedimentary, igneous, and metamorphic rocks.**

**Known to incorporate an assortment of minor and trace elements, zircon has the ability to retain substantial chemical and isotopic information, leading to its use in a wide range of geochemical investigations, including studies on the evolution of Earth's crust and mantle.**

**Demand data for zircon are available from TZMI, Roskill and Iluka Resources. Although there are significant differences in the figures for historic demand, the future demand estimates are similar until 2015. Only Iluka Resources and most recently TZMI have estimated zircon demand for the time interval between 2015 and 2020. Most demand estimates were calculated before the increase in zircon prices in 2011/12 which led to strong substitution in many applications.**

## ➤ **Staple Pin**

**Staple pins are most commonly used office stationery items. There is no official establishment where these products are not used. The demand is always growing with the increase in number of offices and industrial establishments. Currently there is no other substitute for these products. Staple pins are manufactured out of 0.5 mm thick long strips of Mild steel and Gem clips are made out of Mild steel wires of 18-20 Gauge. Staple Pins are made in strips of 50nos.**

**Normally a packet contains 20 Strips. The staple pins shall be sufficiently strong and shall not bend in use. The pins shall be clean and bright. For this nickel plating is done.**

**The number of commercial organizations and industries are increasing year after year. The globalization and liberalization of industry and trade have also given birth to various commercial establishments and this provides ample scope for units manufacturing office stationery items. The growth of these items will be consistent.**

## ➤ **Chili Sauce**

**Chili sauce is a liquid or concentrated product which can be poured from a container. It may be either homogeneous or a mixture. It is intended for use as a seasoning or condiment. The product should be prepared from good quality, clean ingredients which are mixed, processed appropriately to obtain the desired quality, and subjected to an appropriate process by heat before or after packing in a hermetically sealed container, so as to prevent spoilage.**

**Increasing young population coupled with increasing globalization has led to an advent of diversity in food choices of young people, who are significantly proffering spices, thus fuelling revenues in the global hot sauce market. Further rising consumption of fast food among busy city dwellers can be considered as another factor for the increasing demand for hot sauces, particularly in the developing countries of Asia. Moreover, improving life style has led people across the globe try different cuisines, which can be considered as another prominent factor driving the demand for hot sauces. Apart from this, increasing trends for food travelling across the globe is also escalating the demand for hot sauces.**

## ➤ Aluminium Hydroxide IP

**Aluminium hydroxide,  $\text{Al}(\text{OH})_3$ , is found in nature as the mineral gibbsite (also known as hydrargillite) and its three much rarer polymorphs: bayerite, doyleite, and nordstrandite. Aluminium hydroxide is amphoteric in nature, i.e., it has both basic and acidic properties. Closely related are aluminium oxide hydroxide,  $\text{AlO}(\text{OH})$ , and aluminium oxide or alumina ( $\text{Al}_2\text{O}_3$ ), the latter of which is also amphoteric. These compounds together are the major components of the aluminium ore bauxite.**

**The global aluminum hydroxide market is expected to witness a CAGR of approximately 4.6% during the forecasted period. The major factor driving the market is the rapid increase in demand for aluminum compounds and the increasing usage in polymer applications, as fire retardants.**

## ➤ Benzyl Benzoate

**Benzyl benzoate (BnBzO) is a medication and insect repellent. As a medication it is used to treat scabies and lice. For scabies either permethr in or Malathion is typically preferred. It is applied to the skin as a lotion. Typically two to three applications are needed. Side effects may include irritation of the skin. It is not recommended in children. It is also used in other animals; however, is toxic to cats.**

**The global benzyl benzoate market is expected to reach over US\$ 80.7 million by 2025, expanding at a CAGR of 4.4% from 2017 to 2025.**

## ➤ **Bright Steel Bar from Black Bar**

**Black steel is created through a mill process which involves rolling the steel at a high temperature (typically at a temperature over 1700° F), which is above the steel's recrystallization temperature. When steel is above the recrystallization temperature, it can be shaped and formed easily, and the steel can be made in much larger sizes.**

**Bright drawn steel is essentially black steel that has had further processing. The steel is processed further in cold reduction mills, where the material is cooled (at room temperature) followed by annealing and/or tempers rolling.**

**The raw material used in the bright bar manufacturing process are called ‘black bars’ – steel wire rods that are mostly in coil form. They are cleaned by removing their scales, which is done either by ‘pickling’ (acid cleansing) or ‘shot blasting’ (blasting steel balls) techniques. Once cleaned, the curvy coil is opened, straightened and fed into the Combined Wire Drawing machine. In the drawing machine, the wire rods are reduced (‘drawn’) to a smaller diameter, straightened and polished/cut to required specifics. The resultant finished product is a Bright Bar (called ‘bright’ due to its shiny finish), also called a Cold Drawn Bar.**

## ➤ **Silicone Release Paper**

**Silicone Release Paper makes a big impact in a lot of little ways throughout our daily lives. From the bandage paper we peel away after a nasty paper-cut to the backing of every postage stamp we place, silicone release paper keeps fresh and tacky a wide variety of adhesives. While normal paper bonds to adhesives, release paper is designed specifically to be easy to pull away, without the risk of it falling off on its own.**

**Global silicone release paper market is expected to expand at a lucrative CAGR during the forecast period, due to rising demand from application segments such as tapes, labels and other sealant product industries. Expected growth in end use sectors: construction, food & beverages, automotive & electronics over forecast period is anticipated to drive the silicone release papers market worldwide.**

## ➤ Plastic Corrugated Sheet & Boxes

**Corrugated plastic Sheets are extruded twin-wall profile with two flat top and bottom layers connected by vertical ribs. It is made of high impact polypropylene resin. Currently being exported to countries like Qatar, New Zealand, Germany, Philippines, UK and Spain, this product is achieving new growth. Since polypropylene corrugated sheets have a high strength to weight ratio due to the structure of construction, they also have good cushioning property with the presence of air between two layers. This high ratio makes these sheets cost effective.**

**Plastic corrugated boxes are a versatile solution and a cost-effective replacement for cardboard, fiberboard, molded plastic, and other substrates. Corrugated bin boxes can be regular slotted containers (RSC), half slotted containers (HSC), or roll end lock front containers (RELF).**

**World demand for corrugated boxes is forecast to increase 4.2% per year to 234 billion square meters in 2017, slightly outpacing real (inflation-adjusted) gains in GDP. Factors contributing to rising box demand include growth in industrial activities, particularly the manufacturing sector, which often requires corrugated packaging to protect and transport goods. The global Corrugated Plastic Sheets market will reach xxx Million USD in 2018 and CAGR xx% 2018-2023.**

## ➤ **Steel Wire Rope**

**A steel wire rope is made up of individual steel wires spun into a strand. A number of strands are closed over a central core to make up a rope. The number and size of wires will determine the best compromise possible between large wires for maximum corrosion protection and resistance to abrasion, and smaller wires for the required flexibility and handling. Wire rope is several strands of metal wire twisted into a helix forming a composite "rope", in a pattern known as "laid rope". In stricter senses the term "wire rope" refers to diameter larger than 3/8 inch (9.52 mm), with smaller gauges designated cable or cords.**

## ➤ Homeo & Bio Medicines with Mother Tincture

**Homeopathy is a type of option drug made in 1796 by Samuel Hahnemann taking into account his regulation of like cures like (similia similibus curantur), whereby a substance that causes the side effects of a sickness in solid individuals will cure comparable manifestations in wiped out individuals.**

**Biomedicine is a major engine for both medical progress and economic growth as well as an integral part of how health, illness, and individual identity are understood. However, the foundations of biomedicine are in the midst of a great transformation, a transformation with profound implications for medicine, research, commerce, and public policy.**

**Global homeopathy product market will exhibit a promising 18.2% CAGR over the period between 2016 and 2024. If the number holds true, the market, which valued at US\$3,867.7 mn in 2015, is expected to reach US\$17,486.2 mn by 2024.**

# **Major Queries/Questions Answered in Our Report?**

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

## **Reasons for Buying Our Report:**

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

## **Our Approach:**

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

# Free Instant Online Project Identification and Selection Service

**Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)**

## **Download Complete List of Project Reports:**

### **▪ Detailed Project Reports**

**NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.**

**Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.**

**And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:**

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

**The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,**

**Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.**

**We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)**

# **NIIR PROJECT CONSULTANCY SERVICES**

**An ISO 9001:2015 Company**

## Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

## What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

## **How are We Different ?**

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

# Our Approach

**Requirement collection**

**Thorough analysis of the project**

**Economic feasibility study of the Project**

**Market potential survey/research**

**Report Compilation**
