

Top Small scale Manufacturing Business Ideas with Investment of 50- 60 Lakhs (Plant and Machinery). Profitable MSME Projects

Introduction

In such a robust scenario, it is a great idea to invest in a good business with a strong and short Payback Period. Multiple businesses also help in building a strong diversified portfolio which can stand the test of time. Multiple sources of income will lead to greater financial stability and will further build investor confidence in the economy which will, in turn, help the entrepreneurs. So it becomes a virtuous cycle. With job uncertainty increasing by the day, there has been a flurry of start-ups in the recent years. While no start-up is ever guaranteed to succeed, innovative ideas have come to light in the process. Entrepreneurship Essentials helps you turn an idea into a viable venture. Learn how entrepreneurs validate concepts through structured experiments, refine their business strategy, and raise the capital necessary to create value and grow their business.

Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Required Project

**Here Are List of
Best Startup Ideas
That Can Be Started:**

Cenosphere

A cenosphere is a lightweight, inert, hollow sphere made largely of silica and alumina and filled with air or inert gas, typically produced as a byproduct of coal combustion at thermal power plants. Global Cenospheres Market is projected to reach USD 699.55 Million by 2023, at a CAGR of over 12% from 2018 to 2023 owing to increasing demand from the oil & gas, construction, and various end-use industries globally. Based on type, the market has been categorized into grey and white Cenospheres. In 2017, the grey Cenospheres segment dominated the market and is projected to dominate the market over the next five years as well owing to growing demand from North America and Europe & CIS region and rising oil & gas industries in countries such as, China, Japan, and India etc. Based on end-use industry, the market has been segmented into Oil & Gas, Refractory, Construction, Paints & Coatings and Automotive. In 2017, oil & gas end-use industry led the global Cenospheres market owing to rising production activities across the globe.

PVC Pipes

Pipes are essential components in any water supply and distribution network. Water supply is the process of supply of water from public water supply system to the end users. The water from the source of public water supply system to individual buildings is supplied through pipes.

The global PVC pipes market reached a volume of 22.8 Million Tons in 2018, growing at a CAGR of 5.4% during 2011-2018. The market is further to reach a volume of 30.5 Million Tons by 2024, expanding at a CAGR of 4.9% during 2019-2024. PVC pipes are composed by the extrusion of a blend of polyvinyl chloride (PVC) and several additives.

Magnesium Sulphate

The Global Magnesium Sulfate Market is projected to register a healthy CAGR of 5.50% to reach USD 1,334.6 Million by the end of 2024. The global magnesium sulfate market has been studied across five regions, namely North America, Asia-Pacific, Europe, Latin America, and the Middle East & Africa. The market in Asia-Pacific dominated the global market with a share of over 40% in 2018 and the highest CAGR of over 6.5% during the forecast period.

Spices (Turmeric, Red Chili, Dhaniya and Jeera Powder)

Turmeric. Global Curcumin Market size was valued at over USD 40 million in 2016 and is anticipated to witness over 11% CAGR up to 2024. Expected to grow at over 12% CAGR up to 2024. Use of cosmetic products on a daily basis to protect the skin from the harsh environment and harmful radiations from the sun is driving the demand for cosmetic products. The product contains antioxidants that counter the rapidly ageing process developed due to intense pollution and stress levels. Increasing use of curcumin extracts in cosmetics application will propel the demand for the product in the forecasted time period.

Red chili the global production of dry chilies was 5.1 million metric ton in 2018 and is expected to register a CAGR of 5.4% during the forecast period, 2019-2024. India was the biggest dry chilies producer with dry chilies production of 2.1 million metric ton in 2017. India is the world's leading producer of dry chillis accounting for more than 35% in 2017 of the global dry chilies market followed by Thailand, Ethiopia, China, and Pakistan.

Layer Poultry Farming

The Indian poultry market, consisting of broilers and eggs was worth INR 1,750 Billion in 2018. The market is further projected to reach INR 4,340 Billion by 2024, growing at a CAGR of 16.2% during 2019-2024. India today is the one of the world's largest producer of eggs and broiler meat. The poultry industry in India has undergone a major shift in structure and operation during the last two decades transforming from a mere backyard activity into a major industry with the presence of a large number of integrated players. This transformation has involved a sizeable investment in breeding, hatching, rearing and processing activities.

Floral Foam (Phenolic Foam) With Resin

Manufacturing

There could be a massive Rs. 10,000 crore business opportunity. It is worthwhile noting that despite India's share in the \$ 11 billion global market for flowers and flower products having touched just about 0.65 per cent, the growth potential is large. The foam market size was USD 17.58 Billion in 2016 and is projected to reach USD 22.39 Billion by 2021, at a CAGR of 4.95% from 2016 to 2021. As a whole you can invest in this project without risk and earn profit.

Wall Paper Starch

The primary factor driving the Indian wallpaper market is the rise in disposable incomes and modernisation of suburban areas in the country. This has resulted in increased consumer preference for decorative wallpapers over paints. Moreover, strong growth in the real estate sector of the country has led to a rise in the demand of wallpapers for both commercial and residential applications. Additionally, printed wallpapers are not only limited to walls of the buildings but can also be used for application on furniture with different textures and can also be used to cover the flaws in the walls as well. Wallpapers are also available in vinyl and lead-free versions, attracting health-conscious consumers, thereby further catalysing the growth of the Indian wallpaper market. Looking forward, the Indian wallpaper market is projected to grow at a CAGR of around 22% during 2019-2024.

Electric Motors

An electric motor is an electrical machine that converts electrical energy into mechanical energy. Most electric motors operate through the interaction between the motor's magnetic field and electric current in a wire winding to generate force in the form of rotation of a shaft

The global electric motor sales market size is expected to reach USD 214.5 billion by 2025, according to a new report by Grand View Research, Inc., progressing at a CAGR of 7.9% during the forecast period. Rapid technological advancements have been playing an imperative role in the growth of the market.

Macaroni, Vermicelli, Noodles And Instant Noodles With Tastemaker Vermicelli

The global instant noodles market reached a value of US\$ 42.2 Billion in 2018, registering a CAGR of 6.2% during 2011-2018. The market value is further projected to reach around US\$ 57.5 Billion by 2024, growing at a CAGR of 5.2% during 2019-2024. Instant noodles are made up of fine wheat flour along with a mixture of alkaline salts. Various additional ingredients are also added to the dough in smaller quantities such as starch, edible oil, gluten and stabilizers like guar gum. Instant noodles are precooked dried noodles which are dehydrated using one of the two processes, namely flash or air frying. They are generally accompanied with a small sachet comprising of the tastemaker. Instant noodles have gained popularity worldwide as they are portable, quick to make and easy to store.

Macaroni is dry pasta shaped like narrow tubes. Made with durum wheat, the market reached a value of more than US\$ 13 Billion in 2018, growing at a CAGR of 4.8% during 2011-2018. The market is further expected to reach a value of nearly US\$ 16 Billion by 2024.

Readymade Garments (E.O.U.)

The domestic apparel industry is dominated by ready-to-wear category with its market size of around \$56 billion, with an 84 per cent share which is further growing at a CAGR of 10-11 per cent. The ready-to-stitch market is also gaining momentum as more and more men who have been buying premium or luxury readymade clothing brands want to wear a shirt or a trouser that fits them perfectly. The ready-to-stitch market, currently at \$11 billion, is expected to grow at a CAGR of 7 per cent and reach about \$20 billion by 2025.

HDPE Pipes

HDPE pipe is a type of flexible plastic pipe used for fluid and gas transfer and is often used to replace ageing concrete or steel mains pipelines. Made from the thermoplastic HDPE (high-density polyethylene),

HDPE Pipes Market 2018: Market Size, Market Volume, Trends, Opportunity, Forecast 2018-2024, the global HDPE pipes market accounted for USD 14,939.9 Million in 2018 and is estimated to reach USD 22,976.8 Million by 2024. Moreover, it is anticipated to flourish at a CAGR of 7.5% during the forecast period i.e. 2019-2024.

Drumstick Powder

The drumstick is one of the most useful nutritious tropical vegetable trees in the world. The tree is grown for its tender pods, leaves, and flowers that are nutrient rich. Drumstick leaves contain 90 various nutrients, 27 vitamins, and 18 essential amino acids Moringa oleifera is a fast-growing,

The global Drumstick Powder products market size was valued at USD 5.5 billion in 2018 and is anticipated to expand at a healthy CAGR over the forecast period. Drumstick Powder resembles a “vegetable tree”, full of minerals and supporting vitamins, making it a healthy super food.

Paper Napkins, Toilet Paper Rolls & Facial Tissues

A napkin, serviette or face towelette is a rectangle of cloth used at the table for wiping the mouth and fingers while eating. It is usually small and folded, sometimes in intricate designs and shapes.

Market is expected to grow at a CAGR of 6.92%, during the forecast period 2019 - 2024. It is estimated that more than 9% of the paper products processed in the world end up as tissue products accounting to at least 21 million tons of tissue paper every year. In recent years, the away from home products are estimated to be accountable for more than one-third of the global consumption of tissue products and are increasing at a moderate pace every year. Paper napkins converting machines helps in closing the gap between demand and supply of paper napkins.

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

5. **What is the total project cost for setting up the plant?**
6. **What are the operating costs for setting up the plant?**
7. **What are the machinery and equipment requirements for setting up the plant?**
8. **Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
9. **What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

15. **What are the requirement of utilities and overheads for setting up the plant?**
16. **What is the Built up Area Requirement and cost for setting up the plant?**
17. **What are the Personnel (Manpower) Requirements for setting up the plant?**
18. **What are Statistics of Import & Export for the Industry?**
19. **What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are We Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
