Introduction

Banana leaves have a wide range of applications because they are large, flexible, waterproof and decorative. They are used for cooking, wrapping and food-serving in a wide range of cuisines in tropical and subtropical areas. They are used for decorative and symbolic purposes in numerous Hindu and Buddhist ceremonies. In traditional homebuilding in tropical areas, roofs and fences are made with dry banana-leaf thatch.

Banana and palm leaves were historically the primary writing surfaces in many nations of South and Southeast Asia.

Disposable cutlery and containers are products that are a part of our day to day life. Disposable items like cups, plates, saucers are being increasingly used. Such disposable items are made with natural materials like leaf as well as man made products like paper, plastics. Leaf cups, plates have greater hygiene value.

Banana leaf plate making is a state of the art to develop biodegradable and compostable alternatives to petrochemical based plastics and polystyrene.

Product and is strong just like the ordinary pulp paper plates and are made from natural, biodegradable product. These leaf plates are popular among those who appreciate the concept of using natural plate materials in an original and organic way. The banana leaf plates can be manufactured with the best quality leaves and are distinct in style.

These are the perfect pieces used for serving any occasion, party, gatherings or grand party.

These plates can be easily disposed and are environment friendly. Environment friendly products helps to keep the environment clean and make the planet good to live. Presently most of the disposable containers are made from plastics and paper. But the use of plastics is either discouraged or banned because the cause environmental pollution.

A close-up photograph of several green banana leaves, showing their characteristic ribbed texture and curved shape. The leaves are layered, with some in the foreground and others behind, creating a sense of depth. The background is a plain, light color.

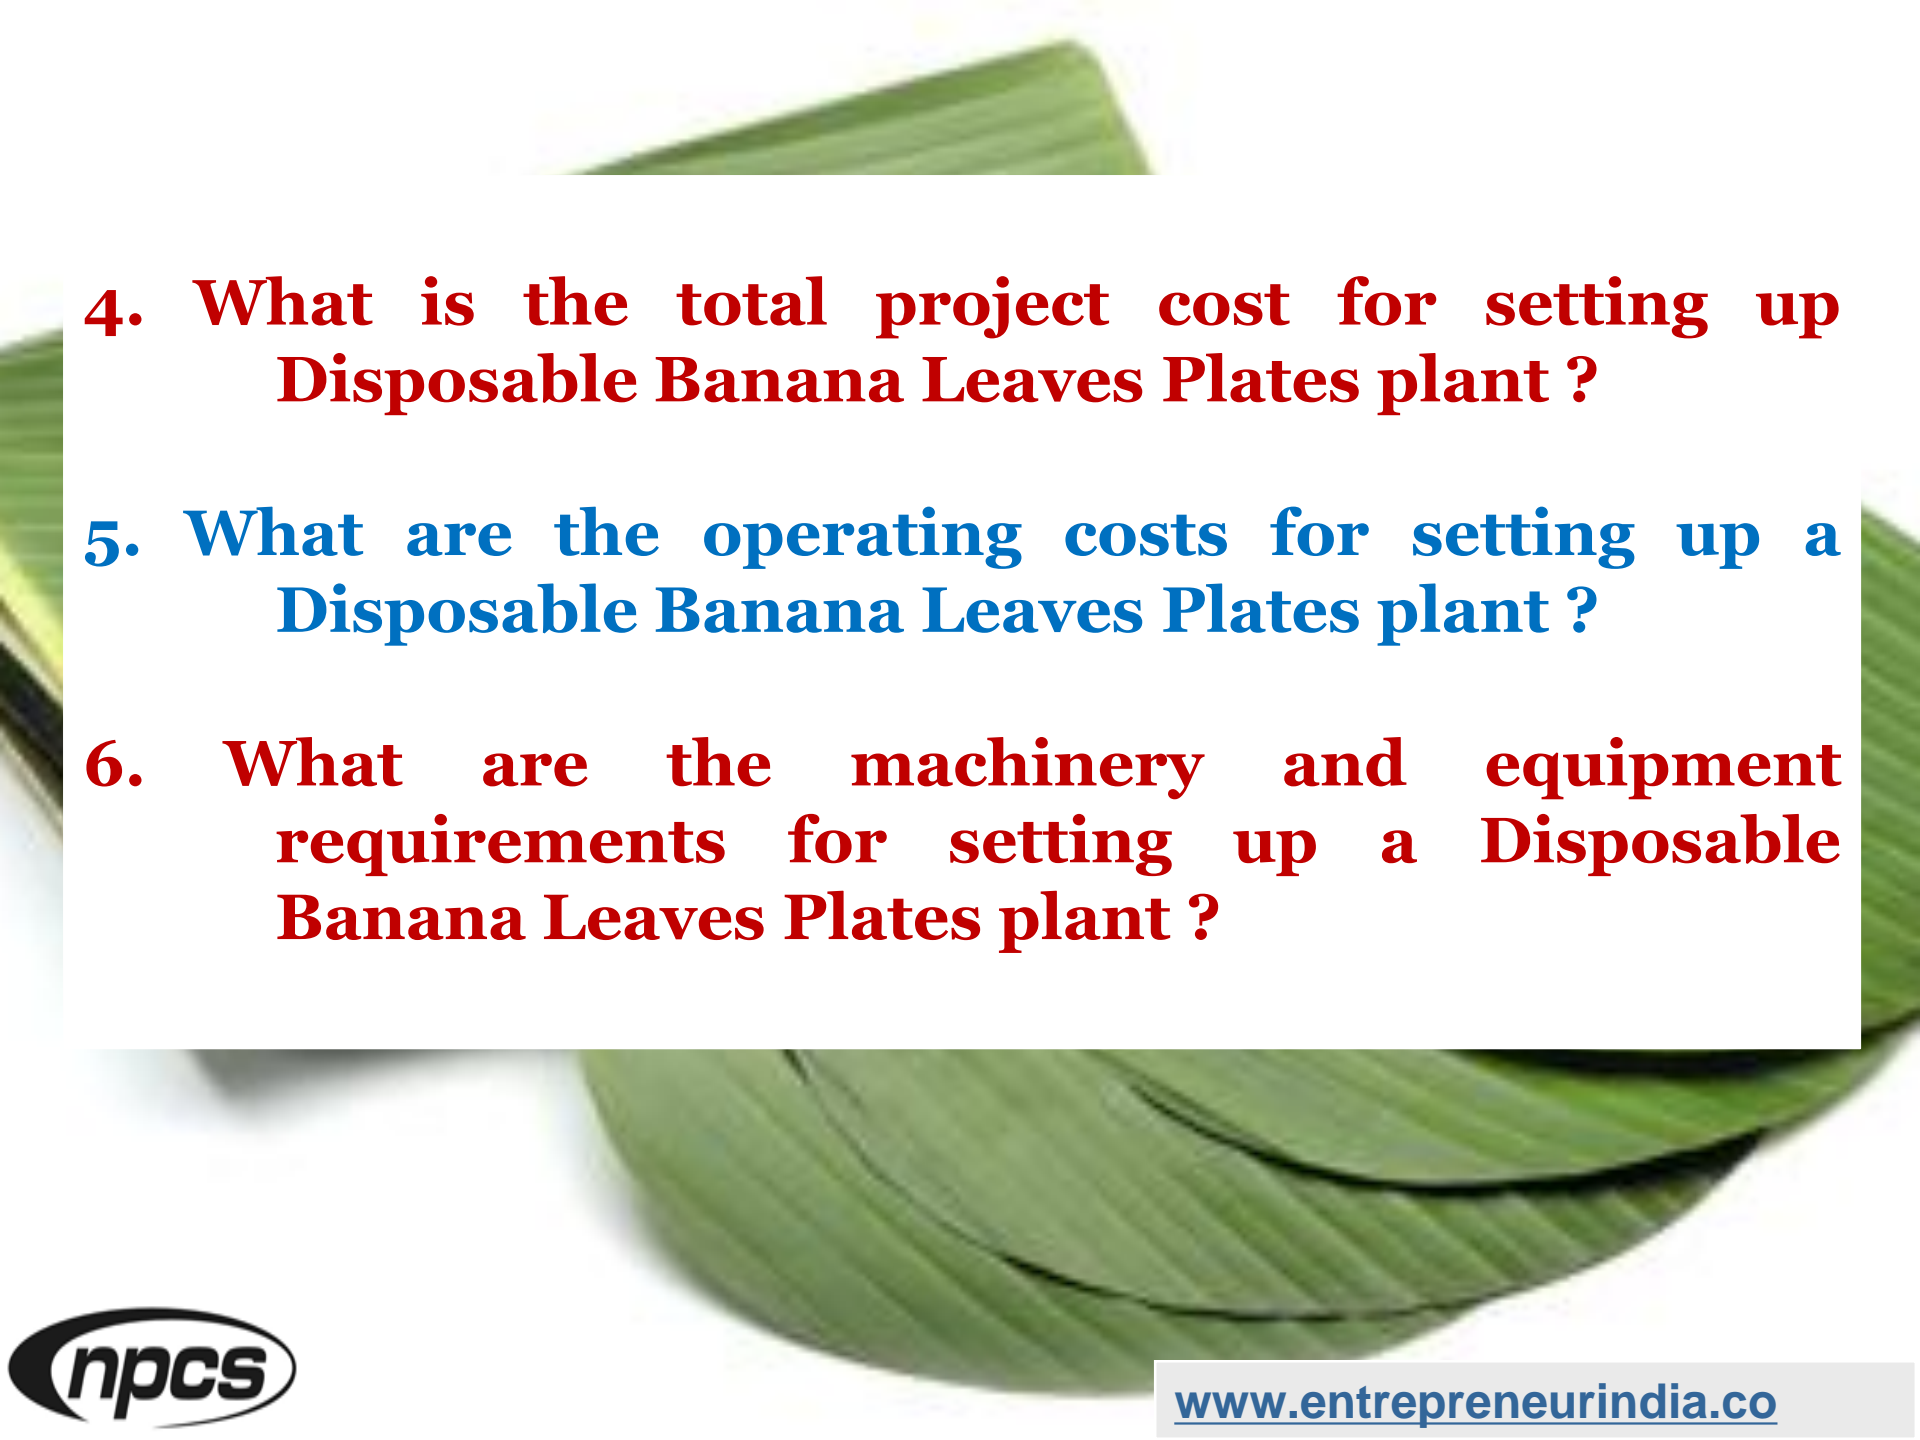

Hence, banana leaves as an alternative material, offers great usage and health environment. These plates are itself very strong, and hot, cold, heavy and sloppy food is easily coped with. These are great for parties and barbeques. In future, the demand of Disposable Plates from Banana Leaves will increase day by day.

Reasons for buying our report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on **Disposable Banana Leaves Plates** ” provides an insight into the **Disposable Banana Leaves Plates** market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of **Disposable Banana Leaves Plates** project. The report assesses the market sizing and growth of the Indian **Disposable Banana Leaves Plates** Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Disposable Banana Leaves Plates sector in India along with its business prospects. Through this report we have identified Disposable Banana Leaves Plates project as a lucrative investment avenue.
