Everybody dreams of being an entrepreneur, working on their own terms. If you are not scared of failure, like how greats have failed in their time, you have already taken the first step into entrepreneurship. Anyone can start a business entity without being bogged down by age or gender. If you're an entrepreneur, it's important that you love your business; after all you have the freedom and opportunity to make it what you want! If you're a new start-up or small business it can be difficult to see why you should invest in your brand and reputation. Your brand is the shorthand way people think about you. As entrepreneurs, we all create our own path. Listen to your own advice.

Whatever your reason for wanting to start your own business, running the show can be personally and financially rewarding--if you come up with the right business idea. Starting start-ups is just like everything else. The biggest mistake you can make is not to try hard enough. To the extent there's a secret to success, it's not to be in denial about that.

We believe that preparing a business plan is important for any business regardless of its size or nature. To make it easier here are few project profiles for planning a business:

Detailed Project Report On

Herbal Wine

Wine is an alcoholic beverage made from fermented grapes, generally *Vitisvinifera* or its hybrids with *Vitislabrusca* or *Vitisrupestris*. Grapes ferment without the addition of sugars, acids, enzymes, water, or other nutrients as yeast consumes the sugar in the grapes and converts it to ethanol and carbon dioxide. Different varieties of grapes and strains of yeasts produce different styles of wine.

There are also wines made from fermenting other fruits or cereals, whose names often specify their base, with some having specific names. Wines made from plants other than grapes include rice wine and various fruit wines such as those made from plums or cherries.

Detailed Project Report On

Leggings

Leggings are one of the most common bottom wears in ladies apparel-product basket. They are a type of skin-tight garment that covers the legs and may be worn by both men and women.

Leggings are typically made from a blend of lycra (aka spandex), nylon, cotton, or polyester blend, but can also be made from wool, silk, and other materials. Leggings are available in a multitude of colors and decorative designs. Leggings are sometimes worn fully exposed, but are more traditionally worn partially covered by a garment such as a skirt, a large t-shirt, shorts, or fully covered by an outer garment, such as a full length skirt or kurtis.

Detailed Project Report On Paracetamol

Paracetamol, also known as acetaminophen or APAP, is a medication used to treat pain and fever. It is typically used for mild to moderate pain. It is often sold in combination with other ingredients such as in many cold medications. In combination with opioid pain medication, paracetamol is used for more severe pain such as cancer pain and after surgery. It is typically used either by mouth or rectally but is also available intravenously. Effects last between two and four hours.

Paracetamol lacks anti-inflammatory action in rheumatic disorders. However, it is less toxic than the Aspirin and does not produce anemia and liver damage, which sometimes result from the continued use of acetanilide and acetophenetidin.

Detailed Project Report On 4 Star Hotel

India, a country with snow-peaked mountains, palm-fringed beaches, and historic monuments, is a traveller's paradise. Being a country catering to the tourists around the world, it has all the facilities required for making the tourism sector a success. India caters to the needs of every pocket.

Hotel is an establishment that provides lodging and usually meals and other services for travellers and other paying guests. It provides paid lodging, usually on a short-term basis. Hotels often provide a number of additional guest services such as a restaurant, laundry, a swimming pool or childcare.

Historically viewed, hotel/hospitality industry provided services to the domestic and international tourists and thereby contributing to the growth of the economy.

Detailed Project Report On Plain Corn Flakes & Coated Choco Flakes

Corn flakes being one of most nutritious foods and is consumed as breakfast food not only in India but-everywhere in the world. Cornflakes are a very popular breakfast cereal manufactured from maize. Cornflakes are an almost 0 fat, 0 cholesterol food and contain a high amount of fast acting carbs with dietary fibers. Breakfast becomes interesting and nutritious with Choco Flakes. It is made from various flour ingredients and is rich in dietary fibers, iron, vitamins and minerals. Thus, it serves as the ideal breakfast option for children and adults too.

Detailed Project Report On Roller Flour Mill

Around 800 large Flour Mills in the country convert about 10.5 Million Tons of wheat into wheat products i.e., Coarse Flour, Flour, Semolina, Bran & Wheat Germ. The installed capacity of Flour Mills is more than 21 Million Metric Tons. Roller Flour Milling sector processes around 12 – 15 per cent of the total wheat consumed in the country.

Most wheat is consumed in the form of baked goods, mainly bread; therefore, wheat grains must be milled to produce flour prior to consumption. Wheat is also used as an ingredient in compound feedstuffs, starch production and as a feed stock in ethanol production.

Detailed Project Report On Atta Chakki

Atta is an Indian wheat flour used to make most South Asian flatbreads, such as chapatti, roti, naan and puri. Most atta is milled from hard wheat varieties, also known as durum wheat that comprise 90% of the Indian wheat crop, and is more precisely called durum atta.

The purpose of the milling process is to break up the grains of wheat into flour (which comes from the centre of the grain, or endosperm), bran (the skin of the wheat), and pollard (the dusty material created during the grinding process). Whole meal flour is a blend of flour, bran and pollard in the proportions in which they occur in the grain.

Detailed Project Report On

Multicoloured Glass Bottle with Cork Cap on Top

A glass bottles are bottles made up of glass, which are used for handling liquid, paste or powder products from beverage, cosmetic or pharmaceutical industries. Shape, color and size of glass bottles may vary according to clients demand, architecture and strength. Almost all glass bottles are flat bottom, straight with a 'neck' for corking or sealing. Glass bottle come in a large variety of sizes and in different colors. These bottles are generally used for wine. Wine bottles are usually sealed with cork, but screw-top caps are becoming popular, and there are several other methods used to seal a bottle. The entire process of bottle making is almost fully automated. Glass bottles are used in various places such as they are used for packing juices, wine, beer, alcohol, oil. They are also used in pharmaceutical and cosmetic industry.

Detailed Project Report On Canvas Shoes(Vulcanized Rubber)

Footwear refers to garments worn on the feet, which originally serves to purpose of protection against adversities of the environment, usually regarding ground textures and temperature. The design of shoes has varied enormously through time and from culture to culture, with appearance originally being tied to function. High fashion shoes may be made of very expensive materials in complex construction and sell for thousands of dollars a pair. Other shoes are for very specific purposes, such as boots designed specifically for mountaineering or skiing. The shoes market, like most other product markets has diverse segmentations.

Detailed Project Report On Residential School

The importance of education was well recognized in India, 'Swadeshepujyate raja, vidwansarvatrapujyate' "A king is honoured only in his own country, but one who is learned is honoured throughout the world." The ultimate aim of education in ancient India was not knowledge, as preparation for life in this world or for life beyond, but for complete realization of self.

A school is an institution designed to provide learning spaces and learning environments for the teaching of students under the direction of teachers. There has been massive expansion of school education in India in the last few decades.
