

5

Best Startup Business Ideas You Can Start

INTRODUCTION

If you're looking to start your own business, one of the biggest challenges you'll face is finding a viable, worthwhile business idea. Fortunately, there are plenty of great business ideas out there that can help you start earning money from your new enterprise immediately.

For those who are trying to start production business, this list of five great startup business ideas will provide you with all the information and inspiration you need to get started on your way to financial freedom.

1. Surgical Sutures (Assembling)

Surgical sutures are used to keep incisions closed following an operation, and they are usually removed several days later by the surgeon. Sutures can be used to heal internal organs in a variety of ways, but this article will concentrate on surgical sutures used in hernia repair and other abdominal surgeries.

A surgical suture is a medical device that is used to keep human tissues together after surgery or an accident. Sutures are often formed of thread-like materials like natural or synthetic fibres, metal wire, silk, or monofilament polyglactin (e.g., polyglycolic acid) (PGA). Knotting or tissue glue are used to keep surgical sutures in place.

Surgical sutures are used in medicine to keep tissues together after trauma or surgery so that they can heal faster. Surgical sutures are needle-attached threads with needles on both ends that can be made of synthetic or natural materials.

➤ ***Start a Business in Medical Disposables Industry, [Click Here](#)***

SUBSCRIBE

Surgical sutures are usually provided with all of the equipment needed to complete the job, such as needles and supplemental supplies like safety pins or forceps for suture placement.

➤ **Read our Books Here:** [Disposable Products \(Medical, Surgical, Thermocol, Plastic, Paper, Domestic and General Products\) - Use and Throw Items, Single Use Items, Disposable Take-Away Packaging, Disposable Items Manufacturing](#)

The Surgical Sutures Market is expected to rise significantly between 2022 and 2028, owing to the introduction of novel surgical procedures and an increase in the number of surgeries. This is mostly due to an increase in the number of incidents of trauma and accidents occurring around the world.

The surgical suture market in India is being driven by factors such as an ageing population, an increase in the incidence of chronic diseases, and an increase in the number of surgeries.

➤ ***Related Feasibility Study Reports: Surgical, Medical Plastics, Medical Disposables, Disposable Medical Products used in Hospitals***

Furthermore, the development of healthcare standards to improve safety and efficacy during invasive surgical operations is driving product demand. The Indian government is working hard to ensure that hospitals have access to sophisticated surgical equipment.

➤ **Related Business Plan:** [Start Surgical Sutures \(Assembling\) Business](#)

Aside from that, the country's booming medical tourism industry, as well as the rising popularity of cosmetic operations, are propelling market growth. Knotless sutures, antimicrobial sutures, bioactive sutures, and electronic sutures have all been developed as a result of technological breakthroughs.

2. Cellulosic Cellophane Film

For packing and storing food in your home or business, CNF (cellulosic cellophane film) is an environmentally acceptable alternative to traditional plastic bags and wraps.

➤ ***Start a Business in Plastics and Polymers Industry, [Click Here](#)***

If you're interested in learning more about cellulosic cellophane film and how it can help you save money at home or at work, keep reading to find out what it's composed of, how it compares to other packaging materials, and how it can help you save money.

➤ **Related Business Plan:** [Manufacturing Business of Cellulosic Cellophane Film](#)

SUBSCRIBE

Cellulosic cellophane film is commonly used to cover and package products in the food, healthcare, and manufacturing industries. In the next half of this article, we'll compare this content to other popular films in each of these applications.

➤ **Related Feasibility Study Reports:** [Plastics, Polymers and Resins, Polypropylene \(PP\), Polystyrene \(PS\), Acrylonitrile butadiene styrene \(ABS\), Polyethylene terephthalate \(PET\), Polyester, PA, Poly \(vinyl chloride\) \(PVC\), Polyurethanes \(PU\), Polycarbonate \(PC\), Polyethylene \(PE\) Projects](#)

Cellulose films are created from renewable wood pulp harvested from plantations under strict supervision. Cellophane is a cellulose film that has been around for about 90 years. Cellophane is a thin, transparent cellulose sheet that has undergone a regeneration process.

➤ **Watch other Informative Videos: [Plastics Projects](#)**

SUBSCRIBE

It is good for food packaging due to its low permeability to air, oils, greases, bacteria, and water. Cellophane can be covered with nitrocellulose lacquer despite being porous to water vapour. The global cellophane market will increase at a CAGR of 4.6 percent from \$ 322.2 million in 2019 to \$ 385.1 million in 2025, up from \$ 322.2 million in 2019.

Increased regulatory actions, as well as regulatory steps to make packaging operations in many industries more ecologically friendly, are expected to move the cellulose film packaging market forward at a rapid pace.

➤ **Read our Books Here:** [Plastics and Polymers, Polyester Fibers, Pet & Preform, Medical, Expanded Plastics, Polyurethane, Polyamide, Polyester Fibers, Additives, Colourants and Fillers, Extrusion, Moulding, Mould Designs, Optical Glass, Reinforced, Films, HDPE, Thermoset](#)

Food packaging includes cellulose films, biodegradable tapes and labels for stationary products, retail bags and pouches, and release liners in well-designed packaging. The cellulose film packaging industry is expected to grow rapidly as consumers become more aware of environmental issues.

3. Automated Vehicle Scrapping and Recycling Unit

[SUBSCRIBE](#)

Vehicle recycling is the process of dismantling autos for spare parts. When vehicles reach the end of their useful lives, they have value as a source of replacement components, which has given rise to the car dismantling industry.

➤ ***Start a Business in Waste Management and Recycling Sector, [Click Here](#)***

"Wrecking yards," "auto dismantling yards," "vehicle replacement parts providers," and, more recently, "auto or vehicle recycling" are all terms used to describe commercial outlets in the industry.

➤ **Related Business Plan:** [Detailed Project Report on Automated Vehicle Scrapping and Recycling Unit](#)

Vehicle recycling has long been a part of the process, but manufacturers have stepped up their efforts in recent years. A crusher is often used to reduce the size of a scrapped car before it is sent to a steel mill.

➤ **Related Feasibility Study Reports:** [Waste Management and Recycling, Industrial Waste Management, Agro Waste, Municipal Garbage, Plastic, Paper, Metal, Iron, Glass, Rubber, Electronic, Medical Waste Recycling, Solid Waste Treatment, Agricultural, Wood Waste, Residue Processing Projects](#)

In India's formerly unregulated car scrap recycling sector, end-of-life autos are unsafely stripped and scrap metals, as well as different recovered and restored items, are sold. There are now no standards in place to regulate these marketplaces or account for the scrap collected,...

..necessitating a government strategy that recognises scrap generation from auto recycling as a long-term, environmentally benign sector. India, being the world's third-largest steel producer, offers enormous potential for vehicle recycling.

➤ **Read our Books Here:** [Waste Management, Waste disposal and Recycling Industry](#)

SUBSCRIBE

Because it is mostly unorganised, auto recycling in India can provide a variety of benefits to the country, ranging from a boost to the automotive sector to fuel savings and job creation. The recycling business is placing a significant wager on the government's efforts.

It is expected to produce business of USD 2.9 billion (roughly INR 190 billion) at first, based on 25% (7 million vehicles) of all automobiles that might be thrown. In the future years, these figures are likely to rise.

➤ **Watch other Informative Videos:** [Waste Management and Recycling](#)

4. Floral Foam Production Business

Floral foam is a porous, dense, yet light material that can be cut into almost any shape. When wet, it retains its shape and provides water as well as support for cut flower arrangements. The density of floral foam allows it to contain a lot of water, extending the life of flowers.

➤ **Related Business Plan:** [Start Manufacturing Business of Floral Foam](#)

It also makes flower stems more stable, giving you more control over your floral arrangements. Floral foam first appeared in the form of a green block. It's currently available in a variety of colours and shapes, including spheres, crosses, and wreaths, to accommodate a variety of floral arrangements.

Foam is a type of material that is utilised in a variety of applications (Dry) With the exception of the necessity to soak dry floral foam in water, dry floral foam bricks (also known as floral styrofoam) are just as easy to cut and deal with as wet floral foam.

➤ **Read our Books Here:** [Startup Books for Entrepreneurs, Small Scale Industry \(SSI\) Business Ideas, Hi-Tech Projects, Self-Employment, Women Entrepreneurship, Home Businesses, Profitable Small & Cottage Industries, Books on Startup Business Plan](#)

The bulk of the time, they're employed in floral arrangements that seem like real flowers. In recent years, the floral foam sector has grown dramatically, and this trend is expected to continue in the next years.

➤ **Related Feasibility Study Reports:** [Miscellaneous Products, Projects](#)

Rising R&D spending, new company entrance, product innovation, technological breakthroughs, efficient resource allocation, and growing competitiveness among corporate rivals to expand regional and customer bases are all factors in the industry's success.

➤ **Watch other Informative Videos:** [Business Ideas for Startups](#)

SUBSCRIBE

The market is expected to develop at a CAGR of 20.1 percent from 2019 to 2024, reaching INR 472 billion. Floriculture, sometimes known as flower farming, is the cultivation of flowering and visually pleasing plants. Floriculture has become one of the most important commercial activity in Indian agriculture as a result of globalisation.

The florist trade, nursery plants, bulb and seed production, as well as the manufacture of micro propagation material and the extraction of essential oils from flowers, are all part of the Indian floriculture business.

5. E-Waste Recycling Plant

Electronic wastes, often known as "e-waste," "e-scrap," or "Waste Electrical and Electronic Equipment," or "WEEE," are surplus, obsolete, damaged, or abandoned electrical or electronic devices.

➤ ***Start a Business in E-Waste Recycling Industry, [Click Here](#)***

Electronic "waste" comprises leftovers from reuse and recycling activities as well as any component that is dropped, disposed of, or discarded rather than repurposed. Some public policy advocates refer to all surplus electronics as "e-waste" since a wide spectrum of surplus electronics (good, recyclable, and non-recyclable) are delivered on a daily basis.

Any equipment that uses an electric power source that has reached its end-of-life, according to the OECD (Organization for Economic Co-operation and Development), falls under WEEE.

➤ **Related Business Plan:** [E-Waste Recycling Plant Business](#)

E-waste refers to all non-functional electrical appliances, and the terms WEEE and e-waste are interchangeable. WEEE has been identified as one of the fastest growing garbage sources, with an expected annual growth rate of 16-28 percent.

- **Related Feasibility Study Reports:** [E-waste Recycling \(Electronic Waste, E-waste, E-scrap, Waste Electrical and Electronic Equipment \(weee\)\) Disposal and Management Projects](#)

A complex set of heterogeneous secondary wastes arises inside each location. In 2020, the global WEEE recycling market will be worth \$3,854.5 million, up 3.7 percent from the previous year.

➤ **Read our Books Here:** [Waste Management, Waste disposal and Recycling Industry](#)

The expansion of recyclers was aided by an increase in environmental awareness and a commitment from leading technology companies and electronic manufacturers to employ sustainable manufacturing and supply chain practises during the year.

➤ **Watch other Informative Videos:** [Waste Management and Recycling](#)

SUBSCRIBE

Companies across a variety of EEE product sectors are expected to implement circular electronics as part of their long-term vision and strategy during the next five years.

The global e-waste management market was valued at \$49,880 million in 2020, and is expected to grow at a 14.3% compound annual growth rate (CAGR) from 2021 to 2028, reaching \$143,870 million by 2028.

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?

11. What is the Manufacturing Process of the plant?

12. What is the total size of land required for setting up the plant?

13. What will be the income and expenditures for the plant?

14. What are the Projected Balance Sheets of the plant?

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Project Report

- ✓ **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- ✓ **This report provides vital information on the product like it's characteristics and segmentation**
- ✓ **This report helps you market and place the product correctly by identifying the target customer group of the product**

- ✓ **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- ✓ **The report provides a glimpse of government regulations applicable on the industry**
- ✓ **The report provides forecasts of key parameters which helps anticipate the industry performance and make sound business decisions**

Our Approach

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

Visit:- <https://www.entrepreneurindia.co/complete-project-list>

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

AN ISO 9001 : 2015 CERTIFIED COMPANY

AN ISO 9001 : 2015 CERTIFIED COMPANY

Niir PROJECT CONSULTANCY SERVICES

Entrepreneur **India**

Who are we?

A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.

What do we offer?

- **Project Identification**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Market Research Reports**
- **Business Plan**
- **Technology Books and Directory**
- **Industry Trend**
- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

How are we different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling

Sectors We Cover *Cont...*

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct

Sectors We Cover *Cont...*

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing

Sectors We Cover *Cont...*

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries

Sectors We Cover *Cont...*

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.

Sectors We Cover *Cont...*

- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.

Sectors We Cover *Cont...*

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals

Sectors We Cover *Cont...*

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

Objective

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
 - Growth drivers of the industry
 - Latest market trends
 - Insights on regulatory framework
 - SWOT Analysis
 - Demand-Supply Situation
 - Foreign Trade
 - Porters 5 Forces Analysis

Objective

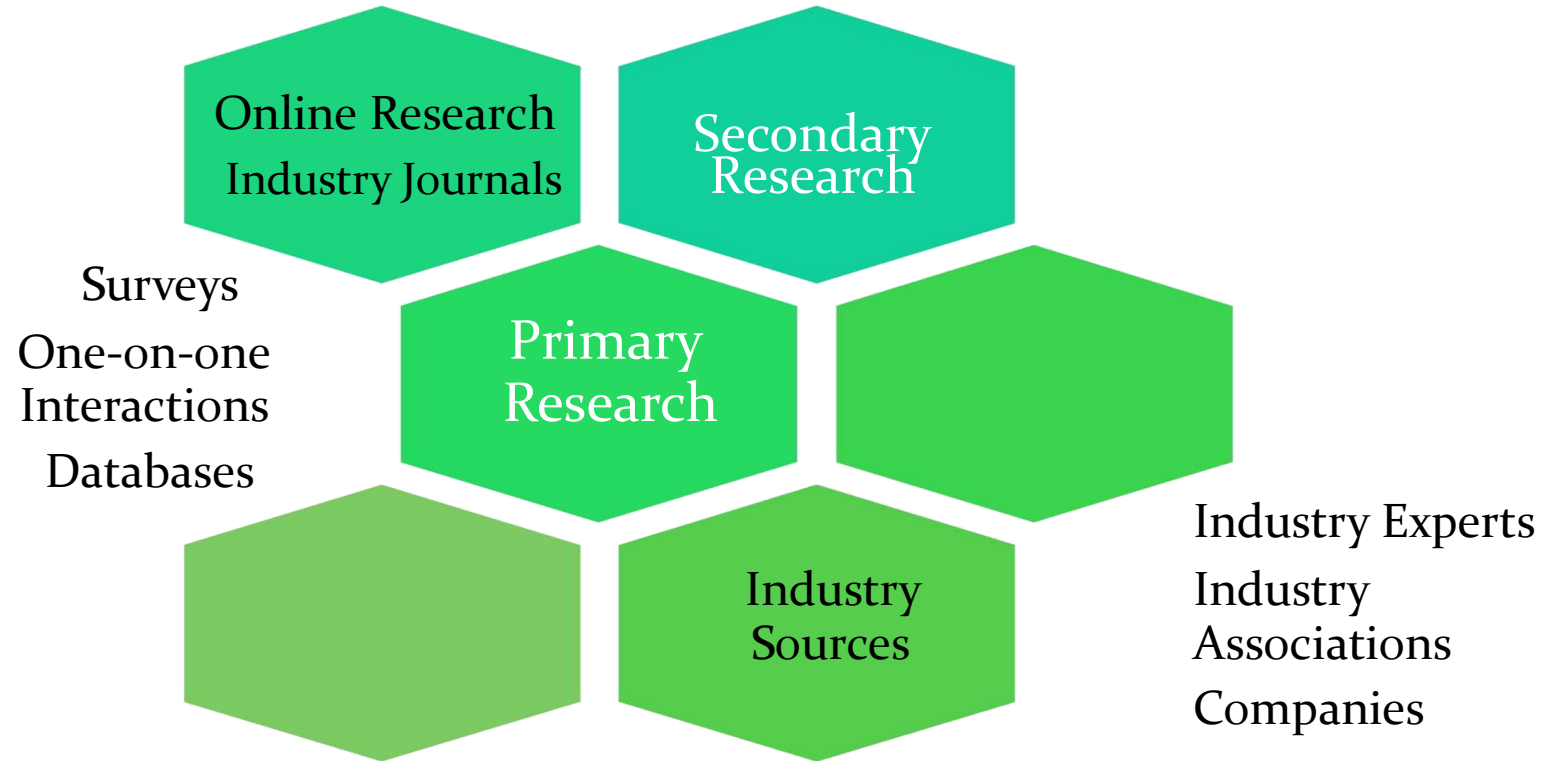

- To provide forecasts of key parameters which helps to anticipate the industry performance
- To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- To help an entrepreneur/manager in keeping abreast with the changes in the industry
- To evaluate the competitive landscape of the industry by detailing:
 - Key players with their market shares
 - Financial comparison of present players

Clientele

- Venturist/Capitalists
- Entrepreneur/Companies
- Industry Researchers
- Investment Funds
- Foreign Investors, NRI's
- Project Consultants/Chartered Accountants
- Banks
- Corporates
