

5 SMALL AND MEDIUM-SIZED

MANUFACTURING BUSINESSES

you can start today!!

AN ISO 9001 : 2015 CERTIFIED COMPANY

**If you're looking for a
manufacturing
business idea, here are
5 Small and Medium-
sized Manufacturing
Businesses that you
can start today**

INTRODUCTION

Not all startups need to be complex or big in order to be successful. In fact, there are plenty of small and medium-sized manufacturing businesses that you can start right away, using your skills and knowledge.

Here are 5 examples of businesses you can start today that will generate immediate income while you work on growing the business further.

If you have the right skill set and the know-how to succeed at these 5 types of manufacturing businesses, then you're ready to roll up your sleeves and get started!

Manufacturing businesses are the backbone of many economies around the world, and starting one doesn't have to be difficult.

All you need to do is find something people will want to buy and then figure out how to make it in large enough quantities that your costs per unit can come down low enough to turn a profit on your business.

**Rice Husk
based
Biodegradable
Cutlery**

Rice husk is a surprising robust substance that can withstand a lot of wear and is long-lasting. Rice husk cutlery is one of the most durable biodegradable silverware options, withstanding temperatures of over 100 degrees Celsius without injury. The smooth, glossy surface of this reusable tableware is created entirely of natural wax extracted from rice husks.

Biodegradable Knives, forks, chip forks, coffee stirrers, spoons, and teaspoons are among the biodegradable cutlery available. The items, which come from well-known brands like Plastico and Vegware, are all food-grade and constructed of renewable resources.

- **Business Plan:** [Rice Husk based Biodegradable Cutlery Making Plant](#)

Rice husk cutlery is relatively long-lasting and reusable, lasting up to three years depending on temperature and care. As a result, these flatware pieces are ideal for parties, quick-service restaurants, and restaurants.

- **Related Business Plans** [Rice Husk, Rice Hull, Rice Husk Ash \(Agricultural Waste\) based Projects, \(Precipitated Silica, Activated Carbon, Cement, Electricity, Ethanol, Hardboard, Oxalic Acid, Paper, Particle Board, Rice Husk Briquettes, Rice Husk Pellet, Silicon, Sodium Silicate\)](#)

Rice husk cutlery does not melt when exposed to high heat or cold, unlike plastic silverware. This means they'll last longer than the disposable plastic ones. You can even warm them up in the microwave! Rising demand for disposable and low-cost utensils in many developing economies is fueling the growth of the biodegradable cutlery sector.

They've become popular at a number of large gatherings, such as parties, rallies, and social gatherings. At a number of parties and huge events, the demand for reusable spoons and plates is constantly increasing.

- **Read our Books Here:** [Environmentally Friendly, Eco-Friendly Products, Natural Products, Biodegradable Plastics, Natural Dyes and Pigments, Jute Products, Natural Fibers](#)

The global biodegradable cutlery market was worth USD 33.9 million in 2018, and it is predicted to grow at a 5.9% CAGR between 2019 and 2025. Market growth is expected to be boosted by rising public awareness of the detrimental impacts of non-biodegradable garbage.

➤ *Watch other Informative Videos: [Rice Husk Based Products](#)*

NPK Complex Organic Fertilizer

Fertilizers are soil additives that are used to encourage plant growth. The main nutrients supplied in fertilisers are nitrogen, phosphorous, and potassium, with other elements added in lower amounts. The macronutrients, which include nitrogen (N), phosphorus (P), and potassium (K), are the most important nutrients for plants in terms of weight (i.e. NP-K).

- Organic fertiliser supplies all of the nutrients that plants require, albeit in little amounts.
- It helps to maintain the soil's C:N ratio while also increasing the soil's fertility and productivity.
- It enhances the soil's physical, chemical, and biological qualities.

➤ **Business Plan: [NPK Complex Organic Fertilizer Plant](#)**

- It improves the soil's structure as well as texture.
- It improves the soil's water-holding capacity.
- The nutrients in the lower depths are made available to the plants due to an increase in biological activity.
- It functions as much as possible, reducing moisture evaporation losses from the soil.

They also minimise fertiliser imports, which makes it easier for India to produce its own fertilisers. Furthermore, governing bodies are providing farmers with the essential help through a variety of schemes and the introduction of new technologies to develop better fertilisers at discounted rates, which is favourably impacting market growth.

The market is predicted to increase at a CAGR of 4.8 percent during the next five years (2022-2027).

Because many fertilisers find their way into human diet, using organic fertilisers minimises the risk of diseases in humans.

- *Related Business Plans [Fertilizers, Fertilisers, Inorganic Fertilizers \(Mineral Fertilizer\), Macronutrients and Micronutrients, NPK, SSP, Single Super Phosphate, Urea, Nitrogen Fertilizer, Nitrogenous Fertilizer, Diammonium Phosphate Projects](#)*

Blood meal, bone meal, composites, earthworm castings, bat guano, fish emulsion, alfalfa meal, feather meal, and rock phosphate are some of the most popular organic fertilisers on the market. Organic fertilisers are normally chosen once the crop's nutritional requirements have been determined.

➤ **Read our Books Here: [Biofertilizer](#), [Biofertiliser](#), [Biogas](#), [Organic Farming](#), [Vermicompost](#), [Vermiculture](#), [Biotechnology](#)**

Ethyl Acetate Production Business

Ethyl acetate (sometimes spelled EtOAc or EA) is a colourless organic ester molecule with the formula $C_4H_8O_2$ (usually written as EtOAc or EA). Because it is strongly miscible with all common organic solvents (alcohols, ketones, glycols, esters), it is widely used as a cleaning, paint remover, and coatings solvent.

➤ **Business Plan:** [Ethyl Acetate Production Business](#)

Ethyl acetate is found in alcoholic beverages, cereal crops, radishes, fruit juices, beer, wine, and spirits.

It smells like fruit and can be found in glues, nail polish removers, decaffeinating tea and coffee, and cigarettes. Because of its pleasant perfume and inexpensive cost, this chemical is widely used and manufactured on a large scale all over the world.

Because of its wide range of applications, solvent demand is always on the rise. As regulations on dangerous pollutant emissions from manufacturing processes become more rigorous, the necessity of so-called "green chemistry" (non-toxic chemicals for the environment and living beings) is becoming more obvious.

- **Related Business Plans:** [Chemicals \(Organic, Inorganic, Industrial\) Projects](#)

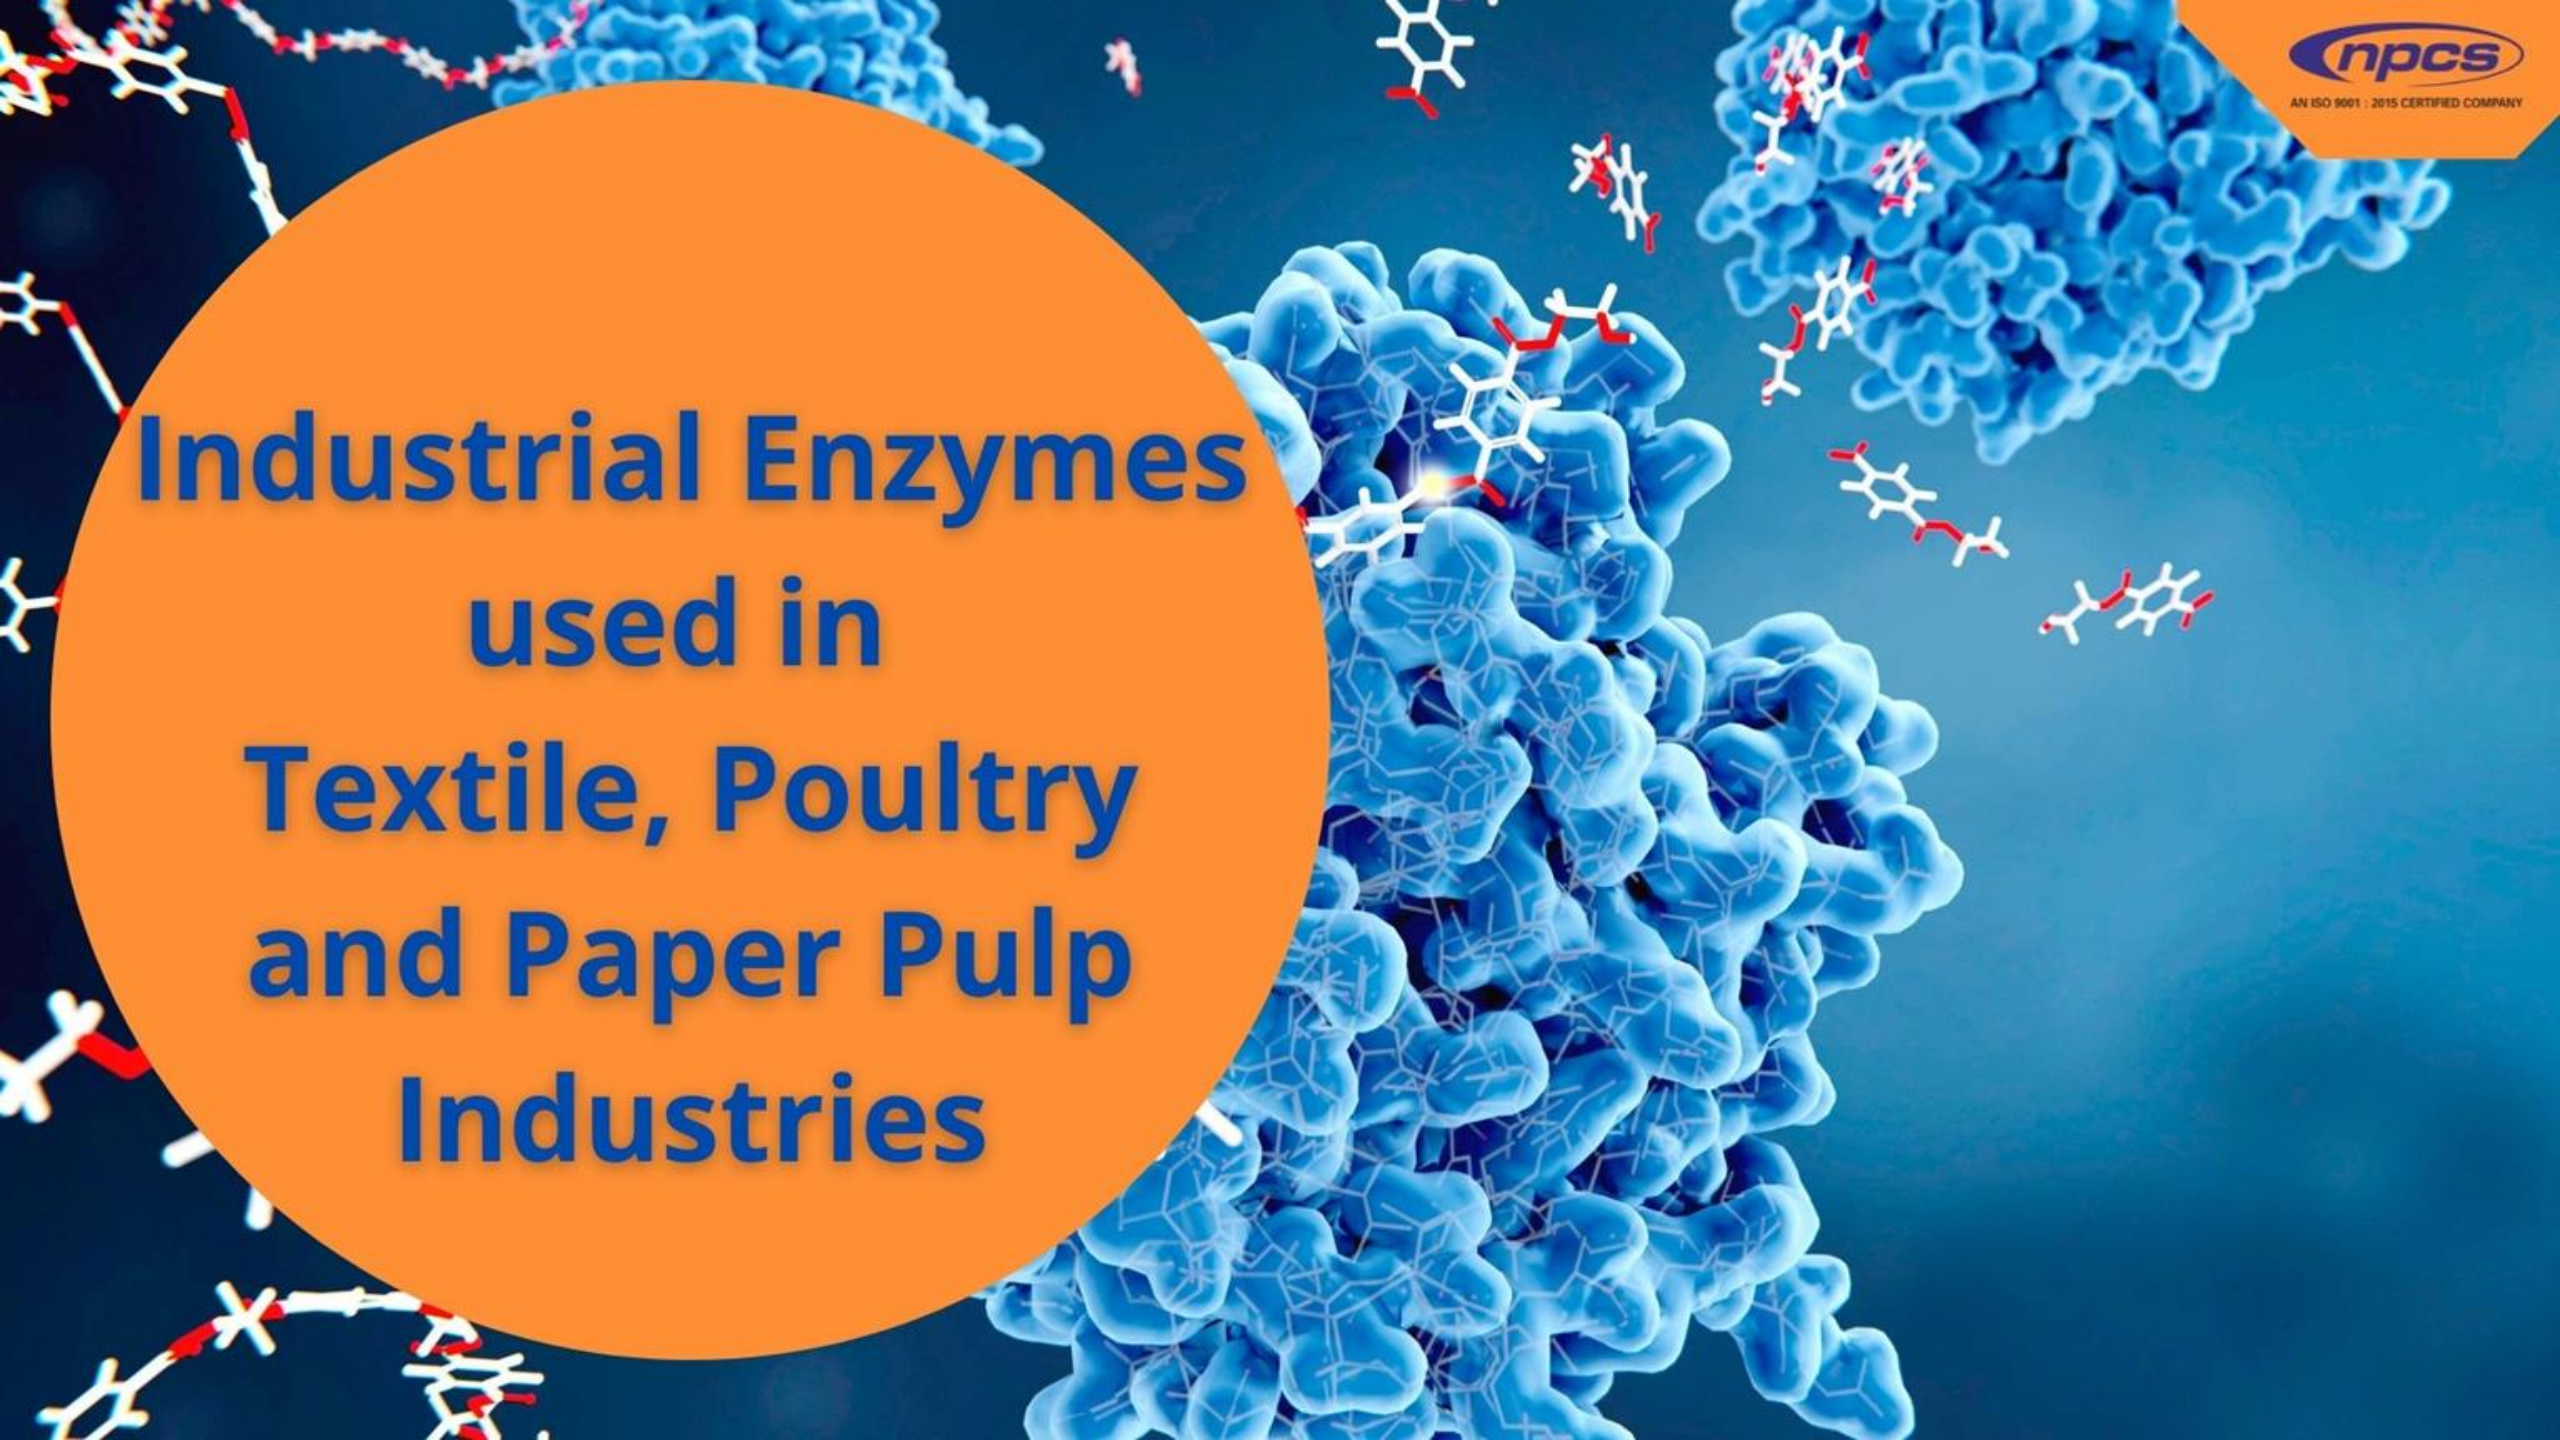

Ethyl acetate and other solvents are used in a range of industrial processes, including the chemical industry. Because of its wide range of applications, solvent demand is always on the rise. As a result, it's vital that commonly used solvents have a smaller impact on human health and the environment.

- **Read our Books Here:** [Chemical Technology \(Organic, Inorganic, Industrial\), Fine Chemicals](#)

The toxicity of ethyl acetate is modest, and it is also biodegradable. As a result of these advantages, market demand for this "green chemistry" product has skyrocketed. Reduced energy and utility consumption, as well as lower waste output and a closed-cycle economy, are the driving forces behind sustainable development and solid engineering practise.

**Industrial Enzymes
used in
Textile, Poultry
and Paper Pulp
Industries**

Industrial enzymes are enzymes that are employed in a range of industries, including medicines, chemical manufacturing, biofuels, food and beverage, and consumer goods. Biocatalysis using isolated enzymes is now regarded more cost-effective than using whole cells, thanks to recent advances.

- **Business Plan:** [Industrial Enzymes used in Textile, Poultry and Paper Pulp Industries](#)

Enzymes are great catalysts because they are extremely selective and work under a variety of circumstances. Enzyme businesses have designed proteins that can work in severe process conditions, such as those that involve solvents, salts, and high temperatures, by combining the correct enzymes with genetic engineering.

➤ *Read our Books Here:* [Biotechnology, Nanoscience, Nanotechnology, Enzymes, Food Biotechnology, Vermiculture, Vermicompost, Bio-Fertilizer, Organic Farming, Biogas](#)

The global market for industrial enzymes is presently valued at \$1.8 billion per year, and it is increasing at a rate of more than 20% per year.

In India, the bio industrial sector, which primarily consists of enzyme firms, contributes roughly 5% of the country's GDP and is estimated to be worth Rs. 3,950 million, with a 5.33 percent growth rate.

Novozyme is the market leader in India for industrial enzymes and is establishing a new R&D laboratory in Bengaluru. India continues to import 70% of its enzyme demand from the United States, Canada, and China. The market for industrial enzymes was valued at USD 4.61 billion in 2016, and is expected to increase at a CAGR of 5.8% from 2017 to 2022.

- ***Related Business Plans*** [Biotechnology, Bio-Technology, Industrial Biotechnology, Biotech Sector, Industry, Biotech Projects, Enzymes Papain, Phytase, Lipase, Enzyme, Food Biotechnology, Industrial Enzymes, Vermiculture, Vermicompost, Biofertilizer, Organic Farming, Biogas](#)

India's industrial enzymes market is expected to exceed US\$ 361 million by 2020, thanks to the country's growing food processing, tannery, and textile manufacturing industries. Food and beverage, household care, animal feed, leather manufacture, textile processing, pharmaceuticals, and other industries all use industrial enzymes.

A photograph showing turmeric roots and a wooden scoop filled with bright orange turmeric powder, spilling onto a burlap surface. An orange circle is overlaid on the left side of the image, containing the text 'Curcumin Extraction Unit'.

Curcumin Extraction Unit

Curcuminoids, fat-soluble polyphenolic pigments, give turmeric its vibrant yellow colour. The most active curcuminoid in turmeric, curcumin, is commonly recognised as the most active component. Two other curcuminoids found in turmeric are demethoxycurcumin and bisdemethoxycurcumin.

- Read our Books Here: [Spices and Condiments Cultivation, Processing and Extraction with Formulation, Ground and Processed Spices, Grinding of Whole Spices, Indian Kitchen Spices Product Mix, Kitchen Masala Powder Manufacturing](#)

Turmeric has been used in India for centuries as a spice and colour, as well as for medical uses. Curcumin is a spice that is used to provide colour to a number of dishes. The Draft Codex General Standard for Food Additives has a detailed list of such foods.

➤ **Related Business Plans** [Curcumin Manufacturing, Extraction, Curcuminoid of Turmeric \(Curcuma longa\), Curcumin - from Curcuma longa \(Turmeric\), Turmeric oleoresin, Spice Oil Extraction of Curcumin Pigment, Extraction of Curcumin and Essential Oil from Curcuma longa L.](#)

Curcumin is allowed in dairy products, fats, oils, and fat emulsions, confectionery, cereal products, bakery wares, meat and meat products, fish and fish products, eggs and eggs products, spices, soups, sauces, and protein products foodstuffs for specific nutritional purposes, beverages, ready-to-eat savouries, and composite foods.

➤ **Business Plan:** [Curcumin Extraction Unit](#)

The market for curcumin surpassed USD 70 million in 2020, with a CAGR of more than 11% predicted between 2021 and 2027. Curcumin is commonly used to treat cancer and Alzheimer's disease, among other serious conditions. It's also used to treat cancer, arthritis, and viral infections, so it'll continue to be in high demand in the pharmaceutical industry.

Major Queries/Questions Answered in Business Plan

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Business Feasibility Study of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total Startup cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?

11. What is the Manufacturing Process of the plant?

12. What is the total size of land required for setting up the plant?

13. What will be the income and expenditures for the plant?

14. What are the Projected Balance Sheets of the plant?

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Business Plan

- ✓ **The Business Plan helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- ✓ **This Business Plan provides vital information on the product like it's characteristics and segmentation**
- ✓ **This Business Plan helps you market and place the product correctly by identifying the target customer group of the product**

- ✓ **This Business Plan helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- ✓ **The Business Plan provides a glimpse of government regulations applicable on the industry**
- ✓ **The Business Plan provides forecasts of key parameters which helps anticipate the industry performance and make sound business decisions**

Our Approach

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

How to Choose The Right Business For You?

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify Businesses based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the Business Ideas on the basis of mentioned pointers and identify a suitable Business Plan matching your investment requisites.....[Read more](#)

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The Business Plan covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.

- **Selection of Right Business Ideas For You (Project Identification)**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Market Research Reports**
- **Business Plan**

- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

How are we different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling
- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct
- Copper & Copper Based Projects

- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing
- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries
- Infrastructure Projects
- Jute & Jute Based Products

- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.
- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals
- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
 - Growth drivers of the industry
 - Latest market trends
 - Insights on regulatory framework
 - SWOT Analysis
 - Demand-Supply Situation
 - Foreign Trade
 - Porters 5 Forces Analysis
- To provide forecasts of key parameters which helps to anticipate the industry performance
- To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- To help an entrepreneur/manager in keeping abreast with the changes in the industry
- To evaluate the competitive landscape of the industry by detailing:
 - Key players with their market shares
 - Financial comparison of present players

- Venturist/Capitalists
- Entrepreneur/Companies
- Industry Researchers
- Investment Funds
- Foreign Investors, NRI's
- Project Consultants/Chartered Accountants
- Banks
- Corporates
