

6 MANUFACTURING BUSINESS IDEAS

TO START YOUR
OWN BUSINESS

www.niir.org

INTRODUCTION

If you're looking to start your own manufacturing business, you'll want to start off on the right foot. Making sure you have the right products, with the right price points and in the right areas will all factor into your success, so it's important to do some research before you dive in headfirst!

For many entrepreneurs, manufacturing represents the beginning of the entrepreneurial journey. Manufacturing represents the exciting stage where ideas become physical products and tangible results can be seen by everyone involved in the process, including consumers and potential investors. If you're looking to start your own manufacturing business, you've come to the right place!

Here are six different manufacturing businesses that you can consider starting up!

1.

LITHIUM ION BATTERY (LIFEPO4)

Lithium ions travel from the negative electrode to the positive electrode during discharge and then back to the negative electrode during charging in a lithium-ion cell, also known as a Li-ion battery.

➤ ***Start a Business in Battery Industry, [Click Here](#)***

Alternative cathode materials based on elements other than cobalt or manganese have been developed due to safety concerns. Lithium iron phosphate is one of these materials.

- **Related Feasibility Study Reports:** [Battery Projects](#), [Automobile Batteries](#), [Lead Acid Battery](#), [Lithium Battery](#), [Lithium-Ion \(Li-Ion\) Battery](#), [Maintenance Free Rechargeable Battery](#), [Battery Recycling](#), [Battery Plate](#), [Battery Separator](#)

Benefits of LiFePO₄ Batteries

LiFePO₄ batteries have a high discharge rate due to their lack of internal resistance. They can thus be utilised to power autos and other electrical devices. Lithium-ion batteries, which are often found in computers and cell phones, can be made smaller and more compact. If they are damaged or overheated, they are also less prone to catch fire.

MARKET SIZE IN INDIA

The India lithium-ion battery market is estimated to grow at a robust CAGR of 29.26% over the forecast period of 2018-2023. The Indian automobile sector is one of the country's most important, contributing for about 7% of GDP.

➤ *Watch other Informative Videos: [Battery Industry](#)*

The industry produced 25.31 million cars in the first quarter of 2017, compared to 24.01 million the previous year, including commercial, passenger, two- and three-wheeled vehicles, and commercial quadricycles.

- **Related Feasibility Study Reports:** [Battery Projects, Automobile Batteries, Lead Acid Battery, Lithium Battery, Lithium-Ion \(Li-Ion\) Battery, Maintenance Free Rechargeable Battery, Battery Recycling, Battery Plate, Battery Separator](#)

MARKET SIZE GLOBALLY

The market for Lithium Iron Phosphate (LiFePO_4) batteries is predicted to grow to USD 15.25 million by 2028. In terms of revenue, the vehicle industry in 2020 will have overtaken the global industry. Throughout the projection period, Asia-Pacific is expected to be the greatest source of revenue for the global lithium iron phosphate battery business.

2.

***KIDS WEAR APPAREL
(T-SHIRTS & BOTTOM
WEAR)***

Children's clothing may not be the first thing that comes to mind when you think about manufacturing, but it is one of the top three garment categories that has grown in recent years, according to The NPD Group, and it is one of the fastest growing segments of the business.

➤ ***Start a Business in Textile Industry,***

[Click Here](#)

As a result, starting your own clothes manufacturing company for children could be a terrific opportunity for you. There are various benefits to starting this type of business, including the potential to boost profit margins and control all aspects of production without relying on large businesses or retailers.

➤ **Business Plan:** [Kids Wear Apparel \(T-Shirts & Bottom Wear\) Business Plan](#)

Benefits of Starting Kids Wear Apparel Business

A successful children's clothing manufacturing business is like to winning the lotto. It's a low-cost start-up with low overhead and no inventory, and you can make a lot of money. Clothing for children is a high-margin industry with higher profit margins than other sectors.

MARKET SIZE IN INDIA

In our country, infant ready-to-wear is a relatively young industry of garment manufacture that has risen dramatically in recent years. India's apparel market is expected to grow at a rate of over 11% annually by 2021, reaching a value of 85 billion US dollars.

In 2018, the children's clothing segment in India accounted for more than 20% of the entire apparel market. The market is estimated to be worth around 1.7 trillion Indian rupees by 2028.

➤ **Related Feasibility Study Reports:** [Textile, Apparel, Clothing, and Denim wear, Innerwear, Lingerie, Hosiery, Denim Jeans, Readymade Garments and Under Garments Industry.](#)

MARKET SIZE GLOBALLY

The market for children's clothes is predicted to develop at an annual pace of 8.76 percent throughout the forecast period (2022-2027). Children's clothing is usually more informal than adult clothing and is designed for play and rest. Cotton and hosiery are the most common textiles used in children's clothing.

3.

BAMBOO CHARCOAL

Bamboo charcoal manufacture is an excellent business to start since it has good profit margins, few costly inputs, and can be set up quickly. Furthermore, bamboo charcoal can be delivered to clients in a variety of forms, including briquettes and wood chunks, eliminating the need for any supply chain middlemen or manufacturers.

FEATURES

Bamboo charcoal is comparable to wood charcoal in that it is a microporous substance with strong adsorption characteristics due to its large specific surface area. The two forms of adsorption that bamboo charcoal can perform are physical and chemical adsorption.

➤ *Start a Business in Bamboo Industry, [Click Here](#)*

Applications

Bamboo charcoal is used in a wide range of industries, including food, nuclear reactors, and minor metal compounds, among others. The bulk of industries consume very little energy. As a result, an effort is made to identify some of the most essential end users of the product. As a result, a variety of industries that use charcoal are divided into the following categories.

MARKET PREDICTIONS

The bamboo charcoal market is predicted to grow by USD 2.33 billion between 2021 and 2026, at a CAGR of 19.35 percent. The market for bamboo charcoal is primarily driven by factors such as increased natural charcoal demand.

➤ **Business Plan:** [Manufacturing Business of Bamboo Charcoal](#)

Many trees are cut down to generate charcoal, which is used for a number of applications such as cooking fuel, industry fuel, metallurgical fuel, glass manufacturing, pencils, medicine, and cutlery.

- **Related Feasibility Study Reports:** [Bamboo and Bamboo Products, Value-Added Bamboo Products](#)

4.

FERRIC PYROPHOSPHATE

Ferric pyrophosphate is an amazing chemical with a lot of uses, especially in the food and pharmaceutical industries. As a result, there is a lot of market demand for this compound, which means there is a lot of money to be made producing and selling it. Here are some ideas to get you started if you want to start your own ferric pyrophosphate production company.

Uses

Iron has a wide range of applications (III), and pyrophosphate can be used as an iron supplement for people who are iron deficient.

1. Additives to Food and Feed/Food Additives
2. Iron fortification

➤ *Start a Business in Chemical Industry Projects,*
[Click Here](#)

Benefits of Starting this Business

The ferric pyrophosphate production sector is one that you should look into. It's a tough industry with high entry barriers, therefore it's a specialist market that appeals to seasoned entrepreneurs.

➤ **Business Plan:** [Ferric Pyrophosphate Production Business](#)

The same method can also be used to make other metal phosphates, such as calcium, magnesium, and zinc phosphates. The demand for these commodities has gradually increased in recent years as a result of their use in agriculture.

➤ **Related Feasibility Study Reports:** [Chemicals](#)
[\(Organic, Inorganic, Industrial\)](#)

Market Size

Ferric pyrophosphate accounted for more than half of the industry's total share in 2017. Key uses such as iron supplements for illness prevention such as anaemia, fortification in infant cereals and other drink powders, and a high presence of iron bioavailability will drive increased demand for FePO_4 .

An increase in the number of health difficulties that arise each year as a result of nutritional and vitamin deficiencies in infants, children, and adults will drive the ferric pyrophosphate market. The food and beverage market is expected to reach 60 kilo tonnes of consumption by 2024.

➤ **Watch other Informative Videos:** [Chemicals](#)
[\(Organic, Inorganic, and Industrial\)](#)

TRACTION MOTORS

(Permanent Magnet Synchronous Motors, Brushless DC Motors and Flux Motors)

The traction motor is the most important part of a locomotive. For the most part, this motor is a D.C. Series Commutator Motor. Traction motors are electric motors that create the necessary torque for the train's wheels to rotate. Traction motors produce turning force, which is transmitted to the wheels via the axle and drive gear unit. In trucks, traction motors are often installed where the wheels are.

Uses and Applications

- Air conditioners
- Refrigerators
- AC compressors
- Direct-drive washing machines
- Automotive electrical power steering
- Machine tools
- Traction control
- Data storage units
- Servo drives etc.

Benefits of Starting this business

There are a lot of benefits to starting your own traction motor manufacturing business. Being your own boss, having complete financial control, and being able to choose your own hours are just a few of the advantages.

- **Related Feasibility Study Reports:** [Automobile Industry and Auto Components, Automotive components, Spare parts, Auto Parts, Car Parts, Replacement Parts, Tractor Parts, Motorcycle Parts, Auto Body Parts, Two Wheeler, Three Wheeler and Four Wheeler Parts, Accessories & Spares Projects](#)

When it comes to owning a traction motor manufacturing company, the opportunities are virtually unlimited. This is due to the fact that you will be dealing directly with clients rather than working with multiple manufacturers. This means you can start a relationship with several clients at once.

- **Business Plan:** [Start Traction Motors \(Permanent Magnet Synchronous Motors, Brushless DC Motors and Flux Motors\) Business](#)

Market Size

The global automotive traction motor market is predicted to grow at a 33.7 percent CAGR from USD 4.1 billion in 2021 to USD 17.3 billion in 2026. Rising demand for electric vehicles, the development of high-performance motors, and favourable government laws are driving the market.

➤ ***Start a Business in Automotive Industry, [Click Here](#)***

6.

MONOSODIUM GLUTAMATE

MSG (monosodium glutamate) is a popular ingredient in restaurants and households around the world. It improves the flavour and taste of food, and as a result, it has been increasingly popular in recent decades.

➤ **Related Feasibility Study Reports:** [Chemicals](#)
([Organic](#), [Inorganic](#), [Industrial](#))

If you're serious about starting your own business and being your own boss, consider starting a monosodium glutamate manufacturing firm in addition to the other businesses we provide on this site.

➤ **Watch other Informative Videos:** [Chemicals](#)
[\(Organic, Inorganic, and Industrial\)](#)

Some Important Uses

- This chemical can be found in a wide range of canned goods and spice blends.
- MSG is frequently used to make cigarettes taste better.
- Hepatic coma can also be treated with it.
- A lot of instant ramen noodle companies use MSG as a main ingredient.

Benefits of starting this Business

There are numerous advantages to starting a Monosodium glutamate production company. For starters, MSG is in increasing demand because to its popularity throughout Asia. Second, MSG production has a huge profit margin due to its low costs.

➤ ***Start a Business in Chemical Industry Projects,***
[Click Here](#)

Market Size

The Monosodium Glutamate market was worth \$5,638 million in 2020, and between 2021 and 2026, it is predicted to grow at a CAGR of 5.81 percent. Monosodium Glutamate's popularity has expanded throughout time, and it can currently be found in a wide range of products at any supermarket or grocery store.

Factors such as rising demand for flavour enhancers, monosodium glutamates in meat products, rising popularity of fast food chains in developing countries, rising standard of living, changing customer preferences, and rising demand for convenience foods are expected to propel the global market forward during the forecast period of 2021-2026.

Major Queries/Questions Answered in Business Plan

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Business Feasibility Study of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total Startup cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?

11. What is the Manufacturing Process of the plant?

12. What is the total size of land required for setting up the plant?

13. What will be the income and expenditures for the plant?

14. What are the Projected Balance Sheets of the plant?

15. What are the requirement of utilities and overheads for setting up the plant?

16. What is the Built up Area Requirement and cost for setting up the plant?

17. What are the Personnel (Manpower) Requirements for setting up the plant?

18. What are Statistics of Import & Export for the Industry?

19. What is the time required to break-even?

20. What is the Break-Even Analysis of the plant?

21. What are the Project financials of the plant?

22. What are the Profitability Ratios of the plant?

23. What is the Sensitivity Analysis-Price/Volume of the plant?

24. What are the Projected Pay-Back Period and IRR of the plant?

25. What is the Process Flow Sheet Diagram of the plant?

26. What are the Market Opportunities for setting up the plant?

27. What is the Market Study and Assessment for setting up the plant?

28. What is the Plant Layout for setting up the plant?

Reasons for Buying Our Business Plan

- ✓ **The Business Plan helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- ✓ **This Business Plan provides vital information on the product like it's characteristics and segmentation**
- ✓ **This Business Plan helps you market and place the product correctly by identifying the target customer group of the product**

- ✓ **This Business Plan helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- ✓ **The Business Plan provides a glimpse of government regulations applicable on the industry**
- ✓ **The Business Plan provides forecasts of key parameters which helps anticipate the industry performance and make sound business decisions**

Our Approach

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

How to Choose The Right Business For You?

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify Businesses based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the Business Ideas on the basis of mentioned pointers and identify a suitable Business Plan matching your investment requisites.....[Read more](#)

- [Detailed Project Reports](#)

Visit:- <https://www.entrepreneurindia.co/complete-project-list>

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The Business Plan covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.

- **Selection of Right Business Ideas For You (Project Identification)**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Market Research Reports**
- **Business Plan**
- **Technology Books and Directory**
- **Industry Trend**
- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

How are we different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling
- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct
- Copper & Copper Based Projects

- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing
- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries
- Infrastructure Projects
- Jute & Jute Based Products

- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.
- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.

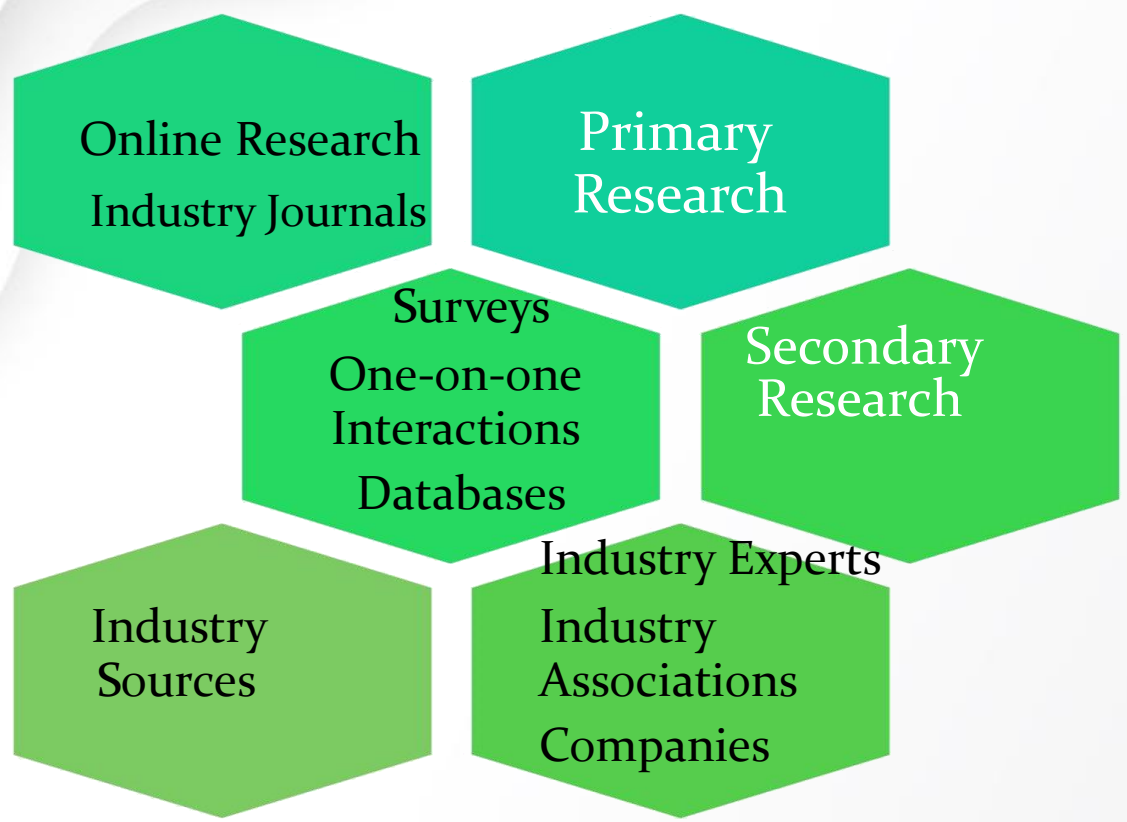

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals
- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
 - Growth drivers of the industry
 - Latest market trends
 - Insights on regulatory framework
 - SWOT Analysis
 - Demand-Supply Situation
 - Foreign Trade
 - Porters 5 Forces Analysis
- To provide forecasts of key parameters which helps to anticipate the industry performance
- To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- To help an entrepreneur/manager in keeping abreast with the changes in the industry
- To evaluate the competitive landscape of the industry by detailing:
 - Key players with their market shares
 - Financial comparison of present players

- Venturist/Capitalists
- Entrepreneur/Companies
- Industry Researchers
- Investment Funds
- Foreign Investors, NRI's
- Project Consultants/Chartered Accountants
- Banks
- Corporates
