

for Making Money Fast

As you start planning to take the plunge and launch your own business, it's easy to get overwhelmed by the process of deciding what product or service to sell. Your ultimate goal should be to make money, but there are so many different ways to do that. There are also plenty of ideas out there that could turn into your dream business—it's just a matter of narrowing down all the options and picking one that will really work for you in the long

Here are six profitable business ideas that will help you make money fast, so you can start living your entrepreneurial dream sooner rather than later.

You've probably heard the term **Decortication and Packing of Peanuts** if you work in the **food industry**, especially if you deal with peanuts. Simply said, it entails removing the peanut's outer skin and packing it before shipping or selling it to clients. What does it mean to decorticate peanuts, though? What does it mean to "decorticate"? The skins of peanuts are removed before they are hulled. After that, they're roasted.

> Business Plan: <u>Decortication & Packing of Peanut Project Report</u>

The bacteria that live naturally on peanut shells are killed during roasting, preventing the oils from becoming rancid. Peanuts are shelled again after roasting to eliminate any leftover shell particles. This procedure also removes any small shell fragments that were missed during the decortication procedure (this can happen if a peanut gets slightly crushed during shelling). Finally, the decorated nuts are ground into a fine powder that can be used in goods such as peanut butter and protein powders.

> Visit this Page for More Information: Start a Business in Food Processing and Agriculture

Based Industry

The peanut shelling industry is dedicated to food safety and quality across the supply chain. The ability of regulatory agencies and industry to work together to improve food safety and quality using the latest research is critical to the peanut shelling sector's overall effectiveness in delivering safe, nutritious products to customers. Effective agricultural practises and the use of extension research affect the farmer's net profit.

Related Feasibility Study Reports: <u>Food Processing and Agriculture Based Projects, Snack</u>
<u>Food, Frozen Food, Agro Processing Technology, Processed Food, Instant Food, Food Industry,</u>
<u>Food Preservation, Canned Food, Packed Food, Ready to Eat Food, Cereal Food, Pickle,</u>

Spices, Grain Milling, Value added products

High oleic types pose a unique market difficulty; while most manufacturers see this as a way to extend shelf life and freshness, it puts the producer and sheller in a bind. Peanuts are the most widely used crop in the food industry, appearing in a wide variety of products. From 2021 to 2026, the peanut market is expected to grow at a CAGR of 4.5 percent. Peanut markets are ideal for producing a variety of peanut oils, dry roasted peanuts, and snacks for direct or indirect consumption.

➤ Read our Books Here: <u>Food Processing</u>, <u>Food Industry</u>, <u>Agriculture</u>, <u>Agro Processing</u>, <u>Processed Food</u>, <u>Cereal Food</u>, <u>Fruits</u>, <u>Vegetables</u>, <u>Bakery</u>, <u>Confectionery</u>, <u>Milk</u>, <u>Dairy</u>, <u>Meat</u>, <u>Fisheries</u>, <u>Spices Oils</u>, <u>Fats</u>, <u>Coconut</u>, <u>Tea And Tobacco Based Products</u>

**Khaini** is a chewing tobacco that contains tobacco, lime, and spices. In India and Pakistan, it is used as an oral snuff, with Karnataka, Kerala, and Tamil Nadu having the greatest consumption rates. In some sections of Sri Lanka and other parts of Southeast Asia, it is also utilised. It has gained popularity in Africa in recent years as a low-cost substitute for cigarettes or chewing tobacco, or as a chewing gum after smoking marijuana or khat leaves.

> Business Plan: Project Report on Readymade Khaini (Chewing Tobacco)

SLT (Smokeless Tobacco) is only found in India and Southeast Asia, where it is made and used in various ways. In India, SLT products vary by state and can be mass-produced or homemade using tobacco and other spices. SLT products are colourfully packaged in sachets that are widely distributed in India at extremely low prices, making them accessible even to youngsters.

> Start a Business in Tobacco and Pan Masala Industry, Click Here

Despite the fact that tobacco product advertising is outlawed in India, SLT producers are promoting non-tobacco versions of these goods using misleading brand sharing techniques. With a CAGR of 4.41 percent, the Smokeless Tobacco Market is expected to reach USD 23.20 billion in the next five years. Since at least 6,000 BC, tobacco and tobacco-related items have been around.

> Related Feasibility Study Reports: <u>Tobacco, Pan Masala, Khaini, Gutkha, Supari,</u> <u>Zarda, Mouth Freshener, Kimam, cigarettes, zafrani Patti, Smokeless Chewing</u>

Tobacco, Zarda Tobacco, Flavoured Chewing Tobacco

Since then, the Nicotiana Tabacum plant has progressed from a necessity to a key commodity to the centre of national discussion. Several tobacco kinds have been introduced to the market over the years, one of which being smokeless tobacco. <u>India</u> has the world's largest SLT market. Over the last two decades, SLT has developed at an exponential rate in India, mainly in the unorganised sector. SLT cultivars account for roughly one-fifth of total tobacco production and 14% of total tobacco-growing land.

Mahua liquor is made from the mahua flower, also known as mahuaa or mahuwa, which grows abundantly in eastern India, Nepal, and Bangladesh. It contains an alcoholic content of 11 percent by volume in the majority of cases, but substantially greater levels are occasionally made illegally in rural areas.

Related Feasibility Study Reports: Alcoholic and Non-Alcoholic Beverages, Drinks, Hard and Soft Drinks, Fruit and Vegetable Juice, Agro food Sector, Distilled Beverage,
Carbonated and Non-Carbonated Drinks, Beer and Breweries, Caffeinated Beverages,
Energy Drinks Projects

www.entrepreneurindia.co

Mahua liquor, a moderately <u>alcoholic beverage</u> known as Mahua suraa, is usually made using fresh flowers added to unfermented rice beer that has had the yeast removed. The suraa is distilled to create mahua liquor. Mahua, often known as country liquor, is created from fermented Mahua tree flowers. Dried mahua flowers are significantly less expensive than other raw materials.

> Business Plan: Liquor from Mahua Flowers Production Business

Five kilogrammes of dried mahua flower can provide three litres of alcohol. Liquor also increases blood flow, which makes the body feel warmer and more relaxed. Moderate wine consumption is thought to be advantageous to one's health. India is one of the world's fastest growing alcoholic beverage markets, according to the Indian Council for Research on International Economic Relations (ICRIER), with a market of \$52.5 billion (about Rs 3.9 lakh crore).

> Start a Business in Alcohol Industry, Click Here

According to the report, the market will develop at a 6.8% compound annual growth rate (CAGR) until 2023. The industry employs over 15 lakh people. The market is likely to rise throughout the forecast period, owing to a growing trend toward alcohol use and an increase in the number of pubs and bars around the world. Furthermore, the industry's growth is expected to be aided by an increase in the number of women who consume alcohol.

## IV Cannula and Catheters

www.entrepreneurindia.co

www.niir.org

An IV catheter and cannula, often known as an IV set or line, is the most common means to provide intravenous fluids, medicines, and nutritional supplements in the hospital or at home. Intravenous fluids are those that are injected straight into your vein rather than into your muscles or soft tissues (IV). An IV set, commonly known as a line, is made up of a catheter and a cannula.

> Business Plan: Pre-Feasibility Report on IV Cannula and Catheters

The IV cannula, which is a small flexible tube with a trocar needle, is used to penetrate the skin with a trocar needle. Once the needle has been removed, the cannula contains a fitting that can be linked to additional tubing or a port for medication administration. A cannula is a tube that can be used to collect blood samples for testing, as well as to help in hydration and drug administration.

> Start a Business in Medical Disposables Industry, Click Here

IV cannulas come in handy in a variety of scenarios. It is evident that environmental changes and technological improvements provide us with a significant advantage. The growing importance of intravenous (IV) therapy is one of the primary factors driving the global rise of the IV catheter market.

> Related Feasibility Study Reports: <u>Surgical, Medical Plastics, Medical</u>

<u>Disposables, Disposable Medical Products used in Hospitals</u>

www.entrepreneurindia.co

IV therapy is used in both surgical and non-surgical patients to treat a number of illnesses. The rising number of chronic disease cases around the world is another important driver driving the global IV catheter market.

➤ Read our Books Here: <u>Disposable Products (Medical, Surgical, Thermocol, Plastic, Paper, Domestic and General Products)</u> - <u>Use and Throw Items, Single Use Items, Disposable Take-Away Packaging, Disposable Items Manufacturing</u>

www.entrepreneurindia.co

Hexamethoxymethyl melamine resin belongs to the melamine resin chemical family (HMMM). Because of its exceptional water resistance, hardness, and corrosion resistance, it's often used in glues and adhesives, textile treatments, and a variety of wood finishing products. Hexamethoxymethyl Melamine Resin (HMMM) is a multifunctional resin that is resistant to alkalis, acids, and heat. Melamine formaldehyde resin, melamine formal resin, or melamine resin are other names for it.

> Business Plan: Hexamethoxymethyl Melamine Resin (HMMM) Manufacturing Plant

It's a translucent yellow powder that can dissolve in water and alcohol but not in acetone or benzene. In acid-free coating materials, HMMM can be employed as a fixing agent.

Hexamethoxymethyl Melamine Resin (HMMM) is a multi-purpose chemical used to create plastic objects such as water bottles, coffee cups, food packaging, and other items.

- > Start a Business in Construction Chemicals Industry, Click Here
- > Related Feasibility Study Reports: Chemicals (Organic, Inorganic, Industrial)

As a crosslinking agent, it's used in conjunction with novolak resin and resorcinol. Hexamethyl methoxy melamine is recommended as an alternative for hexamethylene-tetramine because to its lower toxicity and less effect on scorch times. Asia Pacific is expected to be the fastest growing region in the hexamethyl methoxy melamine market throughout the projected period due to rising use of fillers and additives in the paints and coatings sector.

Chemicals

Flexographic ink, commonly known as Flexo Ink, is a common printing medium for milk pouches, soap wraps, woven sacks, and jute bags. Flexographic ink is made up of an inorganic pigment and an organic solvent that allows it to be diluted with a carrier and then printed as a wet film with several colours on the object or container in question. The use of substantially thinner coatings distinguishes flexographic ink from other printing methods such as offset and screen printing.

> Business Plan: Flexographic Ink (for Milk Pouches, Soap Covers, Woven Sacks & Jute

Flexo ink is often used in <u>packaging</u>, but it may also be used to print on a variety of surfaces at a low cost. Corrugated containers, folding cartons, paper sacks, plastic bags, milk and beverage containers, disposable cups and containers, labels, adhesive tapes, envelopes, newsprint, and grocery store packaging are among the materials it can print on.

> Start a Business in Ink Industry, Click Here

When used in <u>flexo printing inks</u>, Gellner acrylic polymers provide good adhesion to non-porous surfaces such as vinyl, polypropylene, metals, and glass. After increasing at a CAGR of 5% from 2020 to 2025, the flexographic ink market is expected to reach over \$5 billion by 2025.

> Read our Books Here: Inks Formulation and Manufacturing Technology

Flexographic ink is used to print coated and uncoated paper materials, as well as non-porous substrates including metallized and paper foils, and <u>plastic films</u>. Regardless of the substrate material, flexographic inks stick effectively to the surface and produce high-quality printing.

> Related Feasibility Study Reports: Inks, Lithographic Inks, Gravure Inks,

Flexographic Inks, Offset Inks and Specialty Printing Inks, Inkjet Inks, Toner

Inks, Copier Inks, Marking Ink, Colour Ink, Water Proof Inks, Writing Inks,

indelible ink, Election Inks and Stationery Products

# Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?
- 2. What is the Project Feasibility of the Plant?
- 3. What are the requirements of Working Capital for setting up the plant?
- 4. What is the structure of the industry and who are the key/major players?

- 5. What is the total project cost for setting up the plant?
- 6. What are the operating costs for setting up the plant?
- 7. What are the machinery and equipment requirements for setting up the plant?
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?
- 9. What are the requirements of raw material for setting up the plant?

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?
- 11. What is the Manufacturing Process of the plant?
- 12. What is the total size of land required for setting up the plant?
- 13. What will be the income and expenditures for the plant?
- 14. What are the Projected Balance Sheets of the plant?

- 15. What are the requirement of utilities and overheads for setting up the plant?
- 16. What is the Built up Area Requirement and cost for setting up the plant?
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?
- 18. What are Statistics of Import & Export for the Industry?
- 19. What is the time required to break-even?

- 20. What is the Break-Even Analysis of the plant?
- 21. What are the Project financials of the plant?
- 22. What are the Profitability Ratios of the plant?
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?
- 24. What are the Projected Pay-Back Period and IRR of the plant?
- 25. What is the Process Flow Sheet Diagram of the plant?
- 26. What are the Market Opportunities for setting up the plant?
- 27. What is the Market Study and Assessment for setting up the plant?
- 28. What is the Plant Layout for setting up the plant?

- ✓ The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product
- ✓ This report provides vital information on the product like it's characteristics and segmentation
- ✓ This report helps you market and place the product correctly
  by identifying the target customer group of the product

- ✓ This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
- ✓ The report provides a glimpse of government regulations applicable on the industry
- ✓ The report provides forecasts of key parameters which helps
  anticipate the industry performance and make sound business
  decisions

- Our research reports broadly cover Indian markets, present analysis,
   outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

## Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....Read more

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....Read more

## NIIR PROJECT CONSULTANCY SERVICES

AN ISO 9001: 2015 CERTIFIED COMPANY

## Entrepreneurinaia

## Who are we?

A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.

#### What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- > Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)

### How are we different?

- > We have two decades long experience in project consultancy and market research field
- > We empower our customers with the prerequisite know-how to take sound business decisions
- > We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Thorough analysis of the project

**Economic feasibility study of the Project** 

Market potential survey/research

**Report Compilation** 

#### Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- o NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

#### **Sectors We Cover**

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- o Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- o Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- o Food, Bakery, Agro Processing

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitability Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- o Organic Farming, Neem Products Etc.

- o Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- o Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- o Plastic Film, Plastic Waste And Plastic Compounds
- o Plastic, PVC, PET, HDPE, LDPE Etc.

- Potato And Potato Based Projects
- Printing And Packaging
- o Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

## **Objective**

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
  - Growth drivers of the industry
  - Latest market trends
  - Insights on regulatory framework
  - SWOT Analysis
  - Demand-Supply Situation
  - Foreign Trade
  - Porters 5 Forces Analysis

## **Objective**

- To provide forecasts of key parameters which helps to anticipate the industry performance
- To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- To help an entrepreneur/manager in keeping abreast with the changes in the industry
- To evaluate the competitive landscape of the industry by detailing:
  - Key players with their market shares
  - Financial comparison of present players

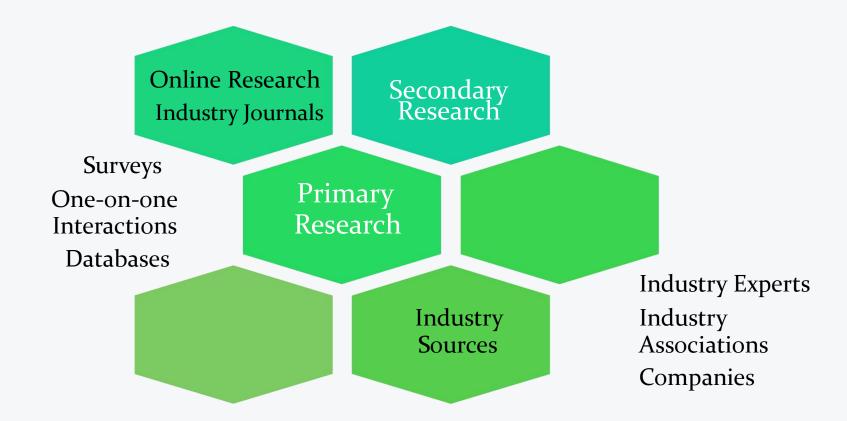

- Venturist/Capitalists
- Entrepreneur/Companies
- Industry Researchers
- Investment Funds
- Foreign Investors, NRI's
- Project Consultants/Chartered Accountants
- Banks
- Corporates
