

# Best Business Ideas You Can Start To Make Money and Grow Your Income.

**Paracetamol, Medical Disposables Gowns and Drapes, Surgical Hand Gloves, Oxygen Gas Plant, and 7-Aminocephalosporanic Acid (7-ACA).**

**Investment Opportunities in the Medical Healthcare Industry.**

# INTRODUCTION

**Do you want to begin your own new company? You can start it now. Do not be misled about the choice of the enterprise or market field. Company has their advantages and disadvantages, their best business plans to make profits. It's for which company you're passionate and eager to break it down. Your ability to establish your goal still matters a lot. You should be sufficiently optimistic to apply your skills and meet the obstacles ahead. In addition, let's explore a few small and profitable business concepts that will surely bring positive benefits!**

**Business planning is an important document for attracting investment before a demonstrated record has been created. It is also a fantastic approach for corporations to continue to pursue their targets. Every firm should have a business plan but it is especially important for young companies. Ideally, the plan will be regularly evaluated and updated to assess whether objectives have been achieved or modified and evolved. Often for an established company, a new business plan is prepared that has chosen to change course.**

**A detailed project report is created when the planning and designing phases of a project are completed. A thorough project report is a very detailed and elaborative summary of a project that includes critical information such as the resources and tasks that must be completed for the project to be successful. It is also the ultimate blueprint of a project after which the implementation and operational phase can begin. The roles and responsibilities are underlined in this comprehensive project report, as well as the safety measures to be taken if an issue emerges while carrying out the plan.**

# *Paracetamol*

**Paracetamol (an international name used in Europe) and acetaminophen (an international name used in the USA) are two official names of the same chemical compound derived from its chemical name: N-acetyl-para-aminophenol (the segment “CET” inserted between “para” and “amino”) and Acetyl-para-aminophenol. Paracetamol is a well-established treatment, recommended by healthcare organizations globally, for fever reduction and mild to moderate pain relief in adults and children aged two months and over.**

**India's domestic pharmaceutical market turnover reached Rs 1.4 lakh crore (US\$ 20.03 billion) in 2019, up 9.8% y-o-y from Rs 129,015 crore (US\$ 18.12 billion) in 2018. The Indian pharmaceutical industry is the third largest in the world in terms of volume of output and thirteenth in domestic demand.**

The background of the slide features two blue medical gowns. One gown is on the left, shown from the front, and the other is on the right, shown from the back. The gowns are made of a textured, non-woven fabric. Overlaid on this background is the main title text in a large, bold, yellow font with a black outline and a reflection effect below it.

# Medical Disposables (Gowns and Drapes)

**Surgical gowns must repel diseases and infections yet provide adequate freedom to move. They must allow necessary mobility without rubbing and chafing, and must resist tearing and lining. They must fit closely but not restrict movement. Since there is generally excess fabric, the gowns must withstand constant pulls on the fabric during routine movements. A surgical drape is a covering made of a disposable non-woven material and is used to cover the area of a patient. A drape usually has a fenestration (an opening) to allow the surgeon to perform the operation.**

**It comes in various sizes depending on the type of operation for which it is used. Drapes also vary from hospital to hospital. The global medical disposable market is expected to reach USD 160 billion by 2023 from USD 114 million in 2018, growing at a CAGR of 7%. Increasing hospital visitation, increasing cases of hospital acquired infections, increasing awareness of patients are some of the major factors driving the growth of the global disposable medical market.**

# 7-Aminocephalosporanic Acid (7-ACA)

**7-aminocephalosporanic acid is abbreviated as 7-ACA, white or almost white crystalline powder, 7-ACA is an important nucleus in synthesis of cephalosporin antibiotics, in the nucleus 7 and 3 chemical transformation can be used to prepare many cephalosporins: cefazolin sodium, cefotaxime sodium, ceftriaxone sodium, cefoperazone sodium, sodium ceftazidime, cefuroxime sodium. 7-Aminocephalosporanic Acid [chemically, 3-(Acetyloxy-methyl)-7-amino- 8-oxo-5-thia-1- azabicyclo (4.2.0) oct-2-ene-2-carboxylic acid] is the active nucleus for the synthesis of cephalosporins and intermediates.**

**India has the world's third largest active pharmaceutical ingredients (API) for the industry valued at a little less than USD 2 bn. Top 5 API producers account for approximately 6.5 %. The leading APIs are anti-infectives, gastrointestinal, cardiovascular and respiratory drugs. The Chemical Pharmaceutical Generic Association (CPA) projects that India's share of the world API market will grow by 10.5% by 2010 as patented blockbuster drugs lose their patent protection. The CPA also expects that the domestic Indian market for APIs, both generic and branded, will rise from USD 755 mn in 2005 to USD 1.9 bn in 2010. The API market in India to grow at a CAGR of 10.76 percent.**

The background of the slide is a close-up photograph of several white, sterile surgical gloves. The gloves are arranged in a fan-like pattern, with some overlapping others. The lighting is bright, highlighting the texture of the gloves. The text 'Surgical Hand Gloves' is superimposed over the center of the image in a large, bold, blue font with a white outline and a slight drop shadow.

# Surgical Hand Gloves

**A surgical (surgeon's) glove is made of natural or synthetic rubber intended to be worn by operating room personnel to protect a surgical wound from contamination. Surgical gloves have more precise sizing (numbered sizing, generally from size 5.5 to size 9), and are made to higher specifications. They are hand specific. The demand for rubber gloves is rapidly increasing on account of rapid industrialization and urbanization of our country currently taking place.**

**Several workers in the chemical, electrical and food processing industries use rubber gloves. The Indian market for medical gloves is still evolving. While the global market is growing at a compound annual growth rate (CAGR) of two per cent, the Indian market is at seven per cent growth. Every day there is a new hospital or nursing home popping up in India, so the demand for medical gloves is expected to increase. Medical tourism is also driving the growth of this product category in our country.**

A photograph of an industrial oxygen gas plant. The plant consists of several large, vertical, cylindrical vessels (likely air separation units) supported by metal frames. There are various pipes, valves, and control panels visible on the equipment. The background is a bright, slightly overexposed outdoor setting.

# Oxygen Gas Plant

**Medical grade oxygen for an oxygen concentrator should be no less than 90.0% and no more than 96.0%. It's also important to consider altitude level when looking at ideal oxygen saturation levels. It is designated as a drug and therefore must satisfy FDA requirements for compressed medical gas. Covid-19 has positively impacted the growth of global medical gas oxygen cylinder market. During Covid-19 pandemic, the rising number of COVID-19 cases has essentially accelerated the demand for medical oxygen gas cylinders for intensive care.**

**The key factor for growth of global medical oxygen gas cylinders market is the rise prevalence of chronic and infectious diseases like pandemic Covid-19, cancer, asthma, diabetes, heart attack etc. and surge in global geriatric population. According to WHO in 2020, there has been significant death toll happened worldwide due to this infectious disease corona virus till now more than 346000 deaths has been noted with more than 5.5 Million infected cases around the world. Hence to combat such covid-19 pandemic, medical oxygen cylinders are widely used for the critical patients.**

# Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

**10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**

**11. What is the Manufacturing Process of the plant?**

**12. What is the total size of land required for setting up the plant?**

**13. What will be the income and expenditures for the plant?**

**14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

**20. What is the Break-Even Analysis of the plant?**

**21. What are the Project financials of the plant?**

**22. What are the Profitability Ratios of the plant?**

**23. What is the Sensitivity Analysis-Price/Volume of the plant?**

**24. What are the Projected Pay-Back Period and IRR of the plant?**

**25. What is the Process Flow Sheet Diagram of the plant?**

**26. What are the Market Opportunities for setting up the plant?**

**27. What is the Market Study and Assessment for setting up the plant?**

**28. What is the Plant Layout for setting up the plant?**

# Reasons for Buying Our Report

- ✓ **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- ✓ **This report provides vital information on the product like it's characteristics and segmentation**
- ✓ **This report helps you market and place the product correctly by identifying the target customer group of the product**

- ✓ **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- ✓ **The report provides a glimpse of government regulations applicable on the industry**
- ✓ **The report provides forecasts of key parameters which helps anticipate the industry performance and make sound business decisions**

# Our Approach

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

## **Free Instant Online Project Identification and Selection Service**

**Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)**

**NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.**

**Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.**

**And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:**

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

**The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,**

**Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.**

**We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)**

# Entrepreneur **India**

## **Who are we?**

**A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.**

## What do we offer?

- **Project Identification**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Market Research Reports**
- **Business Plan**
- **Technology Books and Directory**
- **Industry Trend**
- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

## How are we different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

# Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

## **Who do we Serve?**

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

## Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling

## **Sectors We Cover** *Cont...*

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct

## **Sectors We Cover** *Cont...*

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing

## Sectors We Cover *Cont...*

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries

## Sectors We Cover *Cont...*

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.

## Sectors We Cover *Cont...*

- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.

## **Sectors We Cover** *Cont...*

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals

## **Sectors We Cover** *Cont...*

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

# Objective

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
  - Growth drivers of the industry
  - Latest market trends
  - Insights on regulatory framework
  - SWOT Analysis
  - Demand-Supply Situation
  - Foreign Trade
  - Porters 5 Forces Analysis

# Objective

- To provide forecasts of key parameters which helps to anticipate the industry performance
- To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- To help an entrepreneur/manager in keeping abreast with the changes in the industry
- To evaluate the competitive landscape of the industry by detailing:
  - Key players with their market shares
  - Financial comparison of present players

# Clientele

- Venturist/Capitalists
- Entrepreneur/Companies
- Industry Researchers
- Investment Funds
- Foreign Investors, NRI's
- Project Consultants/Chartered Accountants
- Banks
- Corporates

# Data Sources

# Scope & Coverage

## Our Team

∞ Our research team comprises of experts from various financial fields:

∞ MBA's

∞ Industry Researchers

∞ Financial Planners

∞ Research veterans with decades of experience

# Structure of the Report

1. Overview
2. Market Analysis
  - 2.1 Growth Drivers
  - 2.2 Emerging Trends in the Industry
  - 2.3 Regulatory Framework
  - 2.4 SWOT Analysis
  - 2.5 Herfindahl–Hirschman Index (HHI)
3. Market Forecasts
4. Key Players

# Structure of the Report

*Cont*

- 5. Key Financials and Analysis
  - 5.1 Contact Information
  - 5.2 Key Financials
  - 5.3 Financial comparison
- 6. Industry Size & Outlook
