Business Opportunities in Water Sector in India.

Introduction

Water is an incredibly important aspect of daily lives. Bottled water is a necessary and reliable way to deliver safe drinking water. There are various types of bottled water such as spring water, purified water, mineral water, ground water and others. Bottled water is packaged in plastic or glass bottles. Bottled water can be carbonated or not. Bottled water offers a good taste, quality, and convenience.

Bottled water industry, colloquially called, the mineral water industry, is a symbol of a new lifestyle and health-consciousness emerging in India.

Bottled water is drinking water that has been treated to make it clean and packaged in plastic or glass bottles meant for sale. Bottled water industry caters to one of the most thriving markets within the country. The consumption of smaller bottled water units of 500 ml capacity has increased by around 140% perceptibly. The 20-liter bulk water jars have found phenomenal acceptance in households and at workplaces.

The bottled water industry is also witnessing rapid global market growth owing to rising health concerns of the ever-increasing population. India is a country that has witnessed one of the fastest rates of growth in Asia, at more than 20% per annum.
With growing urbanization and industrialization, demand of water for municipal and industrial use has been increasing accordingly. This presents a great opportunity for innovation and solutions in water market, especially in the fields such as infrastructure, technologies, and services. With a rise in health awareness, increase in tourism and the easy availability of bottled water, the per capita consumption of bottled water in India is on the increase.

The bottled water market in India is estimated to grow at a CAGR of 22.3% through 2020. Bottled water in India is essentially purified water that may contain added minerals.
The global bottled water market is mainly driven by increased health awareness and changing consumer lifestyle. The bottled water market is expected to witness rapid growth fueled by strong demand for clean, flavored and hygienic drinking water. Other important factors driving the bottled water market are an advancement in user-friendly packaging. Strong growth of tourism industry and portability of hygienic bottled water is also expected to trigger demand for bottled water. However, stringent regulations regarding packaging of water and bottled water standards are expected to hamper the growth of the market to some extent. Moreover, easy availability of tap water and rising concerns with regarding increasing plastic waste is expected to present a challenge for industry participants.
Global Bottled Water Market Value: $ Million, 2014-19
The global market for bottled water has gained significant momentum in the past few years, chiefly owing to the increasing global demand for convenient, safer, healthy, and refreshing beverages. Rising concerns regarding the adverse effects of the high-sugar content of carbonated soft drinks and increasing disposable incomes of the population in Asia pacific, Latin America, and Eastern Europe have also significantly contributed to the increasing demand bottled water in the global market.
Global Bottle Water Market Revenue, By Region, 2016 (US$ Bn)

2016 – 2024 at a CAGR of 6.6%

- North America
- Asia Pacific
- Latin America
- Europe
- Middle East and Africa

Total: 51.7
Flavored Water is not just a new phenomenon, but it is likely to take the Indian beverage industry by storm. It serves a refreshing alternative to sodas, colas, juices and other sweetened beverages. Flavored water promotes healthy lifestyle as the flavors propel people to consume more water, which will make them healthy. These days, even the dietitian’s recommends people to intake minimum of 64 ounces of water a day, potentially depending more on rehydration needs.

Liquid flavor market, the size was over USD 7.5 billion in 2015 and is projected to exceed USD 11.5 billion by 2024, at more than 4.2 per cent CAGR. Rise in processed food and beverage consumption is expected to fuel global liquid flavors market demand. India has a huge market for flavored water.
List of Small and Medium Businesses You Can Start Today

- MINERAL WATER

The mineral water is one of the important items, which is directly consumed by people all over the world. Mineral water is bottled under very hygienic conditions under strict quality control being market. Its major use in 5 star hotels and hospitals where good quality pure water is required for potable purposes. Read more
FLAVOURED DRINKING WATER (STILL)

Flavoured water is the new phenomenon that is likely to take the Indian beverage industry by storm. It is expected to serve as a refreshing alternative to sodas, colas, juices and other sweetened beverages. Read more
PACKAGED DRINKING WATER, SODA WATER AND PET BOTTLES

Bottled water industry, colloquially called, the mineral water industry, is a symbol of new life style emerging in India. Major Queries/Questions Answered in Our Report?

1. How has the industry performed so far and how will it perform in the coming years?
2. What is the Project Feasibility of the Plant?
3. What are the requirements of Working Capital for setting up the plant?
4. What is the structure of the industry and who are the key/major players?
5. What is the total project cost for setting up the plant?
6. What are the operating costs for setting up the plant?
7. What are the machinery and equipment requirements for setting up the plant?
8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?
9. What are the requirements of raw material for setting up the plant?
10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?

11. What is the Manufacturing Process of the plant?

12. What is the total size of land required for setting up the plant?

13. What will be the income and expenditures for the plant?

14. What are the Projected Balance Sheets of the plant?
15. What are the requirement of utilities and overheads for setting up the plant?
16. What is the Built up Area Requirement and cost for setting up the plant?
17. What are the Personnel (Manpower) Requirements for setting up the plant?
18. What are Statistics of Import & Export for the Industry?
19. What is the time required to break-even?
20. What is the Break-Even Analysis of the plant?
21. What are the Project financials of the plant?
22. What are the Profitability Ratios of the plant?
23. What is the Sensitivity Analysis-Price/Volume of the plant?
24. What are the Projected Pay-Back Period and IRR of the plant?
25. What is the Process Flow Sheet Diagram of the plant?
26. What are the Market Opportunities for setting up the plant?
27. What is the Market Study and Assessment for setting up the plant?
28. What is the Plant Layout for setting up the plant?
Reasons for Buying Our Report:

- The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.
- The report provides vital information on the product like its characteristics and segmentation.
- The report helps you market and place the product correctly by identifying the target customer group of the product.
- The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
- The report provides a glimpse of government regulations applicable on the industry
- The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more
Download Complete List of Project Reports:

- Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspects of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,
Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more

Niir Project Consultancy Services

An ISO 9001:2015 Company
Who are We?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services

- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
What do We Offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Business Plan
- Market Research Reports
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are We Different?

- We have two decades long experience in project consultancy and market research field.
- We empower our customers with the prerequisite know-how to take sound business decisions.
- We help catalyze business growth by providing distinctive and profound market analysis.
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors.
- We use authentic & reliable sources to ensure business precision.
Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
