Concrete Railway Sleepers Manufacturing Plant.

Concrete Sleeper Factory.

Precast RCC Sleeper.

Production of Reinforced Cement Concrete Sleepers for Railway Track.

www.entrepreneurindia.co
Introduction

A concrete sleeper is a type of railway sleeper made out of steel reinforced concrete.

Concrete is good in resisting compressive stress but is very weak in resisting tensile stresses. Hence reinforcement is provided in the concrete wherever tensile stress is expected. Since elastic modulus of steel is quite high compared to concrete, the force developed in steel is high. A cage of reinforcements is prepared as per the design requirements, kept in the form work and then green concrete is poured.
After the concrete hardens, the form work is removed. The composite material of steel and concrete, now called R.C.C. acts as a structural member and can resist tensile as well as compressive forces efficiently.

R.C.C (Reinforced Cement Concrete) and prestressed concrete sleepers are now replacing other types of sleepers except in some special circumstances like bridges etc. where wooden sleepers are used.
Advantages of R.C.C. Sleepers

- Concrete sleepers have long life, generally 40 to 60 years.
- These are free from natural decay and attack by insects’ etc.
- These sleepers require less fittings.
- Track circuiting is possible in these sleepers.
- These sleepers provide more lateral and longitudinal rigidity as compared to other sleepers.
- The maintenance cost is low.
- Due to higher elastic modulus, these can withstand the stresses due to fast moving trains.
Indian Railways

Indian railways is world’s largest railway network. Railways in India consume at about 350 Million concrete sleepers. The demand of such sleepers including Private players is expected to double to nearly 700 million sleepers in next 2 years.

The Indian Railways is among the world’s largest rail networks. The Indian Railways network is spread over 115,000 km, with 12,617 passenger trains and 7,421 freight trains each day from 7,172 stations plying 23 million travellers and 3 million tonnes (MT) of freight daily. India's railway network is recognised as one of the largest railway systems in the world under single management.
The railway network is also ideal for long-distance travel and movement of bulk commodities, apart from being an energy efficient and economic mode of conveyance and transport.

The Government of India has focused on investing on railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. At present, several domestic and foreign companies are also looking to invest in Indian rail projects.
During FY 2016-17, the passenger traffic of Indian Railways grew 0.8 per cent to 8,219.38 million, with passenger revenue growth of 4.6 per cent at Rs 47,449.75 crore (US$ 7.37 billion). The overall revenue of Indian Railways grew 8.7 per cent year-on-year to Rs 15,884.58 crore (US$ 2.47 billion) during March 2017. The passenger earnings grew 10.1 per cent to Rs 4,205.29 crore (US$ 652.90 million) and the freight earnings grew 4.1 per cent to Rs 10,273.20 crore (US$ 1.60 billion) during March 2017.
The revenue generated by the Railways is expected to grow at 10 per cent in the fiscal year 2017-18. The Union Budget 2017-18 has estimated that the overall earnings will rise to Rs 189,498.37 crore (US$ 28.42 billion) in 2017-18, compared to Rs 172,305 crore (US$ 25.84 billion) in the fiscal year 2016-17. Foreign Direct Investment (FDI) inflows into Railways related components from April 2000 to March 2017 were US$ 798.55 million.

Reasons for Buying our Report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product

• This report provides vital information on the product like it’s characteristics and segmentation

• This report helps you market and place the product correctly by identifying the target customer group of the product
• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials

• The report provides a glimpse of government regulations applicable on the industry

• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

• Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.

• The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.

• We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on RCC Railway Sleepers Manufacturing” provides an insight into the RCC Railway Sleepers Manufacturing market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of RCC Railway Sleepers Manufacturing project. The report assesses the market sizing and growth of the Indian RCC Railway Sleepers Manufacturing Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the RCC Railway Sleepers Manufacturing sector in India along with its business prospects. Through this report we have identified RCC Railway Sleepers Manufacturing project as a lucrative investment avenue.
Concrete Sleeper Production Plant, Production of Concrete Sleepers, Sleeper Production, Production of Concrete Railway Sleepers, Concrete Railway Sleeper Production, Concrete Sleeper Production, Concrete Sleepers for Railways, Production of Concrete Sleeper in India, Railway Sleepers, Concrete Sleeper Manufacturing Company, Production of Sleepers from Concrete, Concrete Railway Sleepers Manufacturing Plant, Concrete Sleeper Plant, Concrete Sleeper Factory, Railway Sleeper Precast Factory, Sleeper Plant and Production, Railway Sleepers Manufacturing Process, Production Process of RCC Sleepers, Railway Sleeper Plant, Concrete Sleeper Manufacturing Factory, Manufacture of Concrete Sleepers, Manufacturing Process of RCC Sleepers, RCC Sleeper Manufacturing Factory, Precast Concrete Sleepers Production, Precast Sleeper Production, Concrete Railway Sleepers Manufacturing Plant, RCC Sleeper for Railway Track, RCC Sleepers Production, Reinforced Cement Concrete Sleepers Production, Manufacturing Plant of Reinforced Cement Concrete Sleepers, RCC Sleepers Production project ideas, Projects on Small Scale Industries, Small scale industries projects ideas, Concrete Sleeper Production Based Small Scale Industries Projects, Project profile on small scale industries, How to Start Concrete Sleeper Production Industry in India, Reinforced Cement Concrete Sleepers Production Projects, New project profile on Concrete Sleeper Production industries,
Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Concrete Railway Sleepers Manufacturing Plant.

Concrete Sleeper Factory. Precast RCC Sleeper. Production of Reinforced Cement Concrete Sleepers for Railway Track.

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more

- Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,
Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more

Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services

- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
