Cow Urine Distillate/Concentrate.

Gau Mutra Ark (Kamdhenu Ark).

Cow Urine (Gomutra) Processing and Packaging Business
Cow Urine
**Introduction**

Gomutra is an important part of Indian tradition. It is not only holy but also has various important medicinal uses. Classical treatises in Ayurved i.e. Charaka, Sushruta and Vagbhata Samhita has described Ashta mutra (eight types of urine) along with their properties, indication and formulations. Cow urine is one of them. Cow urine is one of the five contents of Panchagavya which obtain from cow (urine, milk, ghee, curd and dung). Cow based treatment is called as Panchagavya Chikitsa (Cowpathy).
In this modern era, the diseases related to lifestyle like cancer, autoimmune diseases, diabetes, AIDS etc. are increasing day by day. Irrational use of antibiotics is also responsible for increase in antibiotic resistant infectious diseases. Gomutra (Cow urine) is scientifically proven to act as an immunomodulator along with its bacteriostatic action.

Cow urine contains nitrogen, sulphur, phosphate, sodium, manganese, iron, silicon, chlorine, magnesium, maleic, citric, tartaric and calcium salts, vitamin A, B, C, D, E, minerals, lactose, enzymes, creatinine, hormones and gold acids. Ingredients of cow urine are similar with human body. Hence consumption of cow urine is useful to maintain the balance of these substances and cures incurable diseases.
Cow urine (gomutra ark) is the biggest natural detoxicant. It not only kills toxins within the body but is beneficial for treating diseases ranging from obesity to cancer to kidney and liver ailments.

Earlier, people used to talk about cow urine only from a religious point of view as there was not enough scientific evidence to substantiate its medicinal value. But now its medicinal value is well documented. Its benefits are scientifically proven. In fact, traces of gold, silver and other metals can be found in the urine of the Gir cows.
Cow is considered a sacred or holy in India, particularly, among the Hindus. In Ayurveda, cow urine (also called Gomutra) is claimed to be quite beneficial and is a natural source of many minerals required by the body.

The use of cow urine for therapeutic purpose has a long history in Indian culture. Urine of a pregnant cow is considered special and it is claimed that it contains special hormones and minerals.
It is used in the treatment of fever by mixing it with black pepper, yoghurt, and ghee. Cow urine is also said to be helpful in treatment of peptic ulcer, asthma and certain liver ailments. A mixture of gomutra and dharuharidra is used for treating epilepsy. Cow urine is also used as sprays for pest control both in houses as well as for agriculture. In addition to that, there are cosmetic products like soaps and shampoos that are made from cow urine. Cow urine is also used in Myanmar and Nigeria as a folk medicine.

To witness the exponential demand of cow urine for religious purposes, to "kill negative energy" or for cow urine therapy, one only needs to go to the nearby grocery store, where you are sure to find bottles of cow urine tucked away in the shelves, along with juices and nutritional drinks.
Keeping in tandem with the rising demand, cow urine is being sold for upto Rs 30 per litre in Rajasthan. Cow urine is fetching dairy farmers more than what they get for milk. Urine of high-breed cows such as Gir and Tharparkar is being sold at Rs 15-Rs 30 per litre, while a litre of milk only gets them something between Rs 22 and Rs 25.

Used in Ayurvedic treatment of cancer and leprosy. Anaemia can be treated using a mixture containing Triphala (Ayurvedic herbal rasayana formula made of three equal parts of Bibhitaki, Haritaki and Amalaki), Cow milk and Gomutra. The mixture is known as Mahayograj Guggul. It is used in the treatment of fever. A mixture that contains Gomutra along with ghee, yoghurt and black pepper is used. Sore throats can be treated by gargling a mixture of cow urine distillate along with honey and turmeric powder.
The cow urine market is estimated to be as big as $1 billion. Products for general sanitization such as floor cleaning lotions have been developed by many promoters using gomutra. Fitness products like health drinks, body lotions for skin care, etc. containing cow urine are available in the market.

Currently, cow urine enjoys a billion USD market and fetched fortune for lakhs of cattle farmers, entrepreneurs and practitioners of cowpathy and Ayurveda. Addition of new consumer products from this raw material would continue with more and more innovations happening in this field. India will surely lead the world in bringing the full benefits of cow urine to humanity in the near future!
There are more than 50 units processing cow urine in India. That cow urine is in demand not just in India, but around the world, became evident recently when health authorities in London raised objections to shopkeepers placing cow urine concentrate on shelves next to food items.

The gaushala cows don’t produce much milk – but they do produce lots of urine. With well-to-do believers ready to pay good money for well-packaged, well-distributed products, producers are now getting organized.

Major Queries/Questions Answered in the Report?

1. What is Cow Urine (Gomutra) Processing and Packing industry?

2. How has the Cow Urine (Gomutra) Processing and Packing industry performed so far and how will it perform in the coming years?

3. What is the Project Feasibility of Cow Urine (Gomutra) Processing and Packing Plant?

4. What are the requirements of Working Capital for setting Cow Urine (Gomutra) Processing and Packing plant?
5. What is the structure of the Cow Urine (Gomutra) Processing and Packing Business and who are the key/major players?

6. What is the total project cost for setting up Cow Urine (Gomutra) Processing and Packing Business?

7. What are the operating costs for setting up Cow Urine (Gomutra) Processing and Packing plant?

8. What are the machinery and equipment requirements for setting up Cow Urine (Gomutra) Processing and Packing plant?
9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Cow Urine (Gomutra) Processing and Packing plant?

10. What are the requirements of raw material for setting up Cow Urine (Gomutra) Processing and Packing plant?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Cow Urine (Gomutra) Processing and Packing Business?

12. What is the Plant Layout for setting up Cow Urine (Gomutra) Processing and Packing Business?
13. What is the total size of land required for setting up Cow Urine (Gomutra) Processing and Packing plant?

14. What will be the income and expenditures for Cow Urine (Gomutra) Processing and Packing Business?

15. What are the Projected Balance Sheets of Cow Urine (Gomutra) Processing and Packing plant?

16. What are the requirement of utilities and overheads for setting up Cow Urine (Gomutra) Processing and Packing plant?

17. What is the Built up Area Requirement and cost for setting up Cow Urine (Gomutra) Processing and Packing Business?
18. What are the Personnel (Manpower) Requirements for setting up Cow Urine (Gomutra) Processing and Packing Business?

19. What are Statistics of Import & Export for Cow Urine (Gomutra)?

20. What is the time required to break-even of Cow Urine (Gomutra) Processing and Packing Business?

21. What is the Break-Even Analysis of Cow Urine (Gomutra) Processing and Packing plant?

22. What are the Project financials of Cow Urine (Gomutra) Processing and Packing Business?
23. What are the Profitability Ratios of Cow Urine (Gomutra) Processing and Packing Project?

24. What is the Sensitivity Analysis-Price/Volume of Cow Urine (Gomutra) Processing and Packing plant?

25. What are the Projected Pay-Back Period and IRR of Cow Urine (Gomutra) Processing and Packing plant?

26. What is the Process Flow Sheet Diagram of Cow Urine (Gomutra) Processing and Packing project?
27. What are the Market Opportunities for setting up Cow Urine (Gomutra) Processing and Packing plant?

28. What is the Market Study and Assessment for setting up Cow Urine (Gomutra) Processing and Packing Business?

Reasons for Buying our Report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product

• This report provides vital information on the product like it’s characteristics and segmentation

• This report helps you market and place the product correctly by identifying the target customer group of the product
• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials

• The report provides a glimpse of government regulations applicable on the industry

• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions

www.entrepreneurindia.co
Our Approach:

• Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.

• The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.

• We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Cow Urine (Gomutra).” provides an insight into Cow Urine (Gomutra) market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Cow Urine (Gomutra) project. The report assesses the market sizing and growth of the Indian Cow Urine (Gomutra) Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Cow Urine (Gomutra) sector in India along with its business prospects. Through this report we have identified Cow Urine (Gomutra) project as a lucrative investment avenue.
Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Cow Urine Distillate/Concentrate. Gau Mutra Ark (Kamdhenu Ark). Cow Urine (Gomutra) Processing and Packaging Business

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more
Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,
Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more
An ISO 9001:2015 Company
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision
Our Approach

1. Requirement collection
2. Thorough analysis of the project
3. Economic feasibility study of the Project
4. Market potential survey/research
5. Report Compilation
