

Manufacture of Organic Manure.

Biofertilizer Production.

Recycling of

Solid Wastes into Organic Fertilizer.

Introduction

Organic fertilizers are fertilizers derived from animal matter, animal waste product (manure), human waste product, and matter (e.g. compost and crop residues). Naturally organic fertilizers embrace animal wastes from meat process, peat, manure, slurry, and guano. The majority of fertilizers used in commercial farming are extracted from minerals (e.g., phosphate rock) or made industrially (e.g., ammonia). Organic agriculture, a system of farming.

Examples of naturally organic fertilizers embrace manure, slurry, worm castings, peat, alga and organic fertilizer. Green manure crops also are grown up to feature nutrients to the soil. Naturally minerals like mine rock phosphate, sulfate of potash and limestone also are thought of Organic Fertilizers. Examples of factory-made organic fertilizers include compost, bloodmeal, bone meal and algae extracts. Different examples are natural catalyst digestible proteins, fish meal, and feather meal.

Organic fertilizers may be powders, liquids, or solids, with every applied otherwise. Some organic fertilizers are manure or guano-based, victimization feces from placental, worms, bats, and seabirds. Bagged organic compost contains a mixture of organic ingredients as well as manure, food scraps, and leaf soil. Hunt for different organic fertilizers as well as feed, bone meal, shellfish plant [food](#), or fish emulsion.

The main organic fertilizers are, peat, animal wastes (often from slaughter houses), plant wastes from [agriculture](#), and treated sewage sludge.

Type of Organic Fertilizer from Solid Waste:-

- Manure
- Bone meal
- Blood meal
- Shellfish fertilizer
- Seabird guano
- Bat Guano
- Fish emulsion
- Greensand
- Rock phosphate

Uses:-

- boost each nutrient potency and organic matter content within the soil
- nurture the soil with organic matter that reduces dependency on chemical inputs
- enhance the biological activity and diverseness of soils
- enhance the biological activity and biodiversity of soils
- enhance the quality attributes of produce as well as yield
- improve the efficiency of nutrient use to produce more robust crops

- facilitate the slow release of nutrients in response to the dynamic needs of plants
- enhance the efficiency of water use to render crops greater resilient and drought-resistant
- reduce the effect of farming and protect ecosystems with the aid of minimizing leaching
- beautify crop resistance to erosion by means of improving the soil's natural matter content
- enhance the performance of resource use with the aid of incorporating natural uncooked materials

Reasons Why Organic Fertilizer Business Seen as a Big

Fortune:-

First of all, Agriculture has always played a vital role in sustaining human life. Food is the fundamental needs of beings and the [food industries](#) can never be a declining industry unless all of us do not serve food anymore. Majority of the farm producers require fertilizer to cultivate their crops. Therefore, organic fertilizers always have business opportunities.

Moreover, the application or supply of chemical fertilizer is slowly controlled and restricted by the relevant authorities of most of the countries. Organic farming is growing rapidly, with consumers increasingly eager to buy organic products. Organic fertilizers can increase soil health and crop yields, reduce disease, improve quality and raise farmers' return-on-investment. People who firstly begin organic fertilizer production will absolutely be the winner in the market. Above all, organic fertilizer production has now become a major component of agribusiness models across the country with a very low initial plant investment cost.

Related Project: - [Fertilizers, Fertilisers, Inorganic Fertilizers \(Mineral Fertilizer\)](#)

Advantages of using organic fertilizers :-

- Soil structure
- Hydraulic conductivity
- Field capacity
- Reduced erosion
- Non-toxic food
- On farm production
- Low capital investment
- Fertility of the soil
- Safe [environment](#)

Market Outlook:-

Global organic fertilizer market stood at \$ 5.9 billion in 2017, to reach around \$ 10 billion by 2023, on the back of favorable government policies, rapidly expanding agricultural land under organic farming, and increasing sales of organic [food products](#). Moreover, deteriorating soil fertility due to the use of synthetic pesticides, growing awareness among the consumers regarding the benefits of organic fertilizers over [chemical](#) fertilizers, and increasing awareness among farmers and cultivators towards [eco-friendly](#) fertilizers are some of the other factors that would steer demand for organic fertilizers across the globe in the coming years. The natural fertilizer marketplace across the globe. Taking into attention the emerging traits in [organic farming](#) market and the growing reputation of organic [food the various](#) consumers, predicted a positive future for the global organic fertilizers marketplace.

Asia Pacific market of organic fertilizers is estimated to be the fastest growing market across the globe due to high availability of raw materials. Further, favorable government subsidy policies are envisioned to bolster the growth of organic fertilizers market in Asia Pacific region. On the premise of product type, global natural fertilizers are segmented into peat primarily based, manure primarily based and others. Manure based totally natural fertilizers dominated the overall natural fertilizers market is expected to preserve its dominance all through the forecast period. High availability of cattle manure is predicted to be the key factor behind the growth of manure primarily based natural fertilizers marketplace across the globe.

Rise in demand and adoption of environment friendly agricultural products is expected to drive the global organic fertilizers market. Apart from this, rapid development of new organic fertilizer producing high yield crops is also envisioned to bolster the growth of global organic fertilizers market. Further, increasing farm area under organic cultivation is expected to garner the growth of global organic fertilizers market. Moreover, government is encouraging the adoption of organic fertilizers in various nations. Apart from this, government has launched incentive and reimbursement programs. This factor is expected to positively impact the growth of the global [organic fertilizers](#) market.

Related Books: - [Biofertilizer](#), [Biofertiliser](#), [Biogas](#), [Organic Farming](#), [Vermicompost](#), [Vermiculture](#), [Biotechnology](#)

Application & method:-

- ❖ Cereals & Grains

- ❖ Oilseeds & Pulses

- ❖ Fruits & Vegetables

- ❖ Organic materials can be broadcast on the surface and tilled or watered into soil, or applied in a narrow band on or beneath the surface.

- ❖ two main types of broadcast applicators are available: the drop spreader and the rotary spreader

- ❖ Others

Key Players:-

- Agro Extracts Ltd.
- Fertilisers & Chemicals, Travancore Ltd.
- Good Value Mktg. Co. Ltd.
- Jupiter Biotech Ltd.
- Madras Fertilizers Ltd.
- Nava Bharath Fertilizers Ltd.
- Navkisan Bio Plaantec Ltd.
- Vrundavan Agro Inds. Ltd.

Major Queries/Questions Answered in the Report?

- 1. What is Organic Fertilizer from Solid Waste Manufacturing industry ?**
- 2. How has the Organic Fertilizer from Solid Waste Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Organic Fertilizer from Solid Waste Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Organic Fertilizer from Solid Waste Manufacturing plant ?**

5. What is the structure of the Organic Fertilizer from Solid Waste Manufacturing Business and who are the key/major players ?

6. What is the total project cost for setting up Organic Fertilizer from Solid Waste Manufacturing Business?

7. What are the operating costs for setting up Organic Fertilizer from Solid Waste Manufacturing plant ?

8. What are the machinery and equipment requirements for setting up Organic Fertilizer from Solid Waste Manufacturing plant ?

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Organic Fertilizer from Solid Waste Manufacturing plant ?

10. What are the requirements of raw material for setting up Organic Fertilizer from Solid Waste Manufacturing plant ?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Organic Fertilizer from Solid Waste Manufacturing Business?

12. What is the Manufacturing Process of Organic Fertilizer from Solid Waste ?

- 13. What is the total size of land required for setting up Organic Fertilizer from Solid Waste Manufacturing plant ?**
- 14. What will be the income and expenditures for Organic Fertilizer from Solid Waste Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Organic Fertilizer from Solid Waste Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Organic Fertilizer from Solid Waste Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Organic Fertilizer from Solid Waste Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Organic Fertilizer from Solid Waste Manufacturing Business?

19. What are Statistics of Import & Export for Organic Fertilizer?

20. What is the time required to break-even of Organic Fertilizer from Solid Waste Manufacturing Business?

21. What is the Break-Even Analysis of Organic Fertilizer from Solid Waste Manufacturing plant?

22. What are the Project financials of Organic Fertilizer from Solid Waste Manufacturing Business?

- 23. What are the Profitability Ratios of Organic Fertilizer from Solid Waste Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Organic Fertilizer from Solid Waste Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Organic Fertilizer from Solid Waste Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Organic Fertilizer from Solid Waste Manufacturing project?**

- 27. What are the Market Opportunities for setting up Organic Fertilizer Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Organic Fertilizer Manufacturing Business?**
- 29. What is the Plant Layout for setting up Organic Fertilizer from Solid Waste Manufacturing Business?**

Table of Contents of the Project Report

Our Detailed Project Report contains

- Introduction
- Properties
- Uses & Applications
- List of Plant & Machineries
- Miscellaneous Items and Accessories
- Instruments, Laboratory Equipments and Accessories
- Electrification, Electric Load and Water
- Maintenance, Suppliers/Manufacturers of Plant and Machineries
- Process of Manufacture
- Flow Sheet Diagram
- List of Raw Materials
- Availability of Raw Materials
- Requirement of Staff & Labour
- Skilled & Unskilled Labour
- Requirement of Land Area
- Built up Area
- Plant Layout.

➤ **Along with financial details as under:**

➤ **Assumptions for Profitability workings**

- Plant Economics
- Production Schedule
- Land & Building
- Factory Land & Building
- Site Development Expenses

➤ **Plant & Machinery**

- Indigenous Machineries
- Other Machineries (Miscellaneous, Laboratory etc.)

➤ **Other Fixed Assets**

- Furniture & Fixtures
- Pre-operative and Preliminary Expenses
- Technical Knowhow
- Provision of Contingencies

Working Capital Requirement Per Month

- Raw Material
- Packing Material
- Lab & ETP Chemical Cost
- Consumable Store

Overheads Required Per Month And Per Annum

- Utilities & Overheads (Power, Water and Fuel Expenses etc.)
- Royalty and Other Charges
- Selling and Distribution Expenses
- Salary and Wages
- Turnover Per Annum
- Share Capital
- Equity Capital
- Preference Share Capital

Annexure 1 Cost of Project and Means of Finance

Annexure 2 Profitability and Net Cash Accruals

- Revenue/Income/Realisation
- Expenses/Cost of Products/Services/Items

Gross Profit

- Financial Charges
- Total Cost of Sales
- Net Profit After Taxes
- Net Cash Accruals

Annexure 3 :: Assessment of Working Capital requirements

- Current Assets
- Gross Working. Capital
- Current Liabilities
- Net Working Capital
- Working Note for Calculation of Work-in-process

Annexure 4 :: Sources and Disposition of Funds

Annexure 5 :: Projected Balance Sheets

- ROI (Average of Fixed Assets)
- RONW (Average of Share Capital)
- ROI (Average of Total Assets)

Annexure 6 :: Profitability ratios

- D.S.C.R
- Earnings Per Share (EPS)
- Debt Equity Ratio

Annexure 7 :: Break-Even Analysis

- Variable Cost & Expenses
- Semi-Var./Semi-Fixed Exp.
- Profit Volume Ratio (PVR)
- Fixed Expenses / Cost
- B.E.P

Annexure 8 to 11 :: Sensitivity Analysis-Price/Volume

- Resultant N.P.B.T
- Resultant D.S.C.R
- Resultant PV Ratio
- Resultant DER
- Resultant ROI
- Resultant BEP

Annexure 12 :: Shareholding Pattern and Stake Status

Equity Capital

Preference Share Capital

Annexure 13 :: Quantitative Details-Output/Sales/Stocks

- Determined Capacity P.A of Products/Services
- Achievable Efficiency/Yield % of Products/Services/Items
- Net Usable Load/Capacity of Products/Services/Items
- Expected Sales/ Revenue/ Income of Products/ Services/ Items

Annexure 14 ::Product wise domestic Sales Realisation

Annexure 15 :: Total Raw Material Cost

Annexure 16 :: Raw Material Cost per unit

Annexure 17 :: Total Lab & ETP Chemical Cost

Annexure 18 :: Consumables, Store etc.

Annexure 19 :: Packing Material Cost

Annexure 20 :: Packing Material Cost Per Unit

Annexure 21 :: Employees Expenses

Annexure 22 :: Fuel Expenses

Annexure 23 :: Power/Electricity Expenses

Annexure 24 :: Royalty & Other Charges

Annexure 25 :: Repairs & Maintenance Exp.

Annexure 26 :: Other Mfg. Expenses

Annexure 27 :: Administration Expenses

Annexure 28 :: Selling Expenses

Annexure 29 :: Depreciation Charges – as per Books (Total)

Annexure 30 :: Depreciation Charges – as per Books (P & M)

Annexure 31 :: Depreciation Charges - As per IT Act WDV (Total)

Annexure 32 :: Depreciation Charges - As per IT Act WDV (P & M)

Annexure 33 :: Interest and Repayment - Term Loans

Annexure 34:: Tax on Profits

Annexure 35 :: Projected Pay-Back Period And IRR

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Organic Fertilizer from Solid Waste.” provides an insight into Organic Fertilizer from Solid Waste market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Organic Fertilizer from Solid Waste project. The report assesses the market sizing and growth of the Indian Organic Fertilizer from Solid Waste Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Organic Fertilizer from Solid Waste sector in India along with its business prospects. Through this report we have identified Organic Fertilizer from Solid Waste project as a lucrative investment avenue.

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

www.entrepreneurindia.co

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
- *Business Plan*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
