

#### Starting a Business? Here's the Best Plans for You!

WIRE NAILS, Yeast from Molasses, **Potato Chips and Extruded Snack Food** (Kurkure Type), **Aluminium Ingots from** Aluminium Scrap, **Latex Mattress** 

#### Introduction

Are you looking for the BEST STARTING BUSINESS PLAN? Look no further! Here, we will provide you with the best options for starting a business. Whether you are interested in starting a business of wire nails, making yeast from molasses, manufacturing potato chips and extruded snack food, producing aluminium ingots from aluminium scrap, or making latex mattresses, we have the best plan to get you started on your business venture. Keep reading to find out which plan is best for you!

www.entrepreneurindia.co

Wire nails are a type of fastener typically used for construction and carpentry projects. These nails are made from steel wire that is hardened and cut into various sizes. Nails can also be made from other metals such as brass or aluminium. Wire nails are used in many industries, from furniture making to automotive. They are particularly useful for projects involving sheet metal, as they are less likely to cause a split in the material than other types of nails.

Visit this Page for More Information: Start a Business in Wire and Wire Products Industry

### **Benefit and Applications**

Wire nails have a wide variety of applications. They are commonly used in carpentry projects, including framing, sheathing, trim work, flooring, cabinetry, and more. They are also ideal for securing decking materials and can be used to attach shingles, siding, and roofing materials. In addition to these uses, wire nails can also be used for industrial applications such as attaching lintels and reinforcing steel beams. Wire nails are an essential part of many construction projects and have a variety of uses. As a general purpose fastener, they are strong, durable, and long-lasting. They are relatively inexpensive, easy to install, and can be used in many different materials, including wood, concrete, stone, brick, and metal.

Scope for Startup in the Wire Nails

Industry

The wire nails industry is an attractive option for aspiring entrepreneurs looking to break into the manufacturing sector. With the global demand for wire nails expected to remain strong, there are several opportunities for startups in the sector. Firstly, there is the potential for developing innovative products and technologies within the wire nails industry.

Read Similar Articles: Why Manufacturing of Wire Nails is a Lucrative Business Opportunity

For example, new types of wire nails can be designed to meet different requirements of customers or to be used in specific applications. In addition, startups can explore the possibility of using new materials or production methods to increase efficiency and reduce costs.

www.entrepreneurindia.co

#### Global Market Outlook

The global market for wire nails is growing rapidly, with the estimated value of the industry increasing by over \$5 billion in 2020. The increasing demand for wire nails has been driven by a range of factors, including rising home renovation and construction activities as well as the booming e-commerce sector. Asia Pacific is expected to grow significantly over the forecast period owing to the growing residential construction industry in China and India. Additionally, Japan and South Korea are projected to witness significant growth in their wire nail markets due to the rise in demand.

### A Business Plan for

# Yeast from Molasses

incertain. Eat dessert first.

Yeast from molasses is a unique form of yeast that is derived from molasses, a by-product of the sugar production process. It is a type of single-celled fungi and is usually used as an ingredient in baking, brewing, and distilling. The yeast is a living organism that grows rapidly when exposed to sugar, releasing carbon dioxide gas which helps dough rise and ferment alcohol in beer, wine, and spirits. It has been used for centuries to add flavour and texture to food, as well as in the production of alcoholic beverages.

Visit this Page for More Information: Start a Business in Food Processing and Agriculture Based Industry

#### **Benefits of Yeast from Molasses**

Using yeast from molasses has become a popular option for businesses, especially those looking to reduce their costs and environmental impact. Molasses is a syrup that can be found in the production of sugar cane and is a great source of yeast. The main benefit of using yeast from molasses is that it is much more cost-effective than traditional storebought yeast. Additionally, it also provides businesses with a more consistent quality of yeast.

Related Business Plan: Yeast from Molasses

#### Global Market Outlook

The global yeast market size is estimated to be valued at USD 3.9 billion in 2020 and is projected to reach USD 6.1 billion by 2025, recording a CAGR of 9.6 %. Market in Asia Pacific is expected to register the fastest revenue growth rate over the forecast period owing to rising demand for yeast in developing countries, particularly in India, China, Malaysia, and Indonesia. The demand for dietary supplements is rising rapidly in this region as older consumers are striving persistently to avoid expensive health care costs. The adoption of healthy lifestyles by consumers to extend life expectancy and prevent diseases is an ongoing trend.

Potato Chips and Extruded Snack Food (Kurkure Type) are popular, crunchy snacks made from potatoes. Potato chips are thin slices of potatoes that have been fried in oil or baked, while snacks are extruded (Kurkure type) or puffed snacks that are flavoured with spices and sometimes even masalas. Potato chips and Extruded Snack are loved by many. Extruded food come in a wide range of flavours such as spicy chili, chat masala, and tomato. These snacks can also be combined with nuts, dried fruits, and other ingredients to create interesting and unique flavours.

Visit this Page for More Information: <u>Start a</u>
Business in Potato Processing Industry

# Benefit Of Starting Potato Chips and Extruded Snack Food (Kurkure Type) Business

Starting a business in Potato Chips and Extruded Snack Food (Kurkure Type) has several benefits. These snacks are highly popular and sought-after, making them ideal for entrepreneurs looking to capitalize on the market demand. First and foremost, potato chips and extruded snack food offer quick and convenient snacks for consumers, which can make them a great choice for busy people who need something to eat on the go. Additionally, these snacks tend to be relatively inexpensive, making them an affordable option for those on a budget.

#### **Indian Market Outlook**

The Indian market for potato chips and extruded snacks (Kurkure type) is expanding rapidly. According to the International Trade Administration, India's snack market is currently estimated at US\$ 6.1 billion and is forecast to reach US\$ 11.2 billion by 2021. India Extruded Snacks Market Outlook, 2027–28 the market is anticipated to grow at more than 9% CAGR for 2022–2028.

Related Business Plan: Start Production of Potato Chips And Extruded Snack Food (Kurkure Type)

#### **Global Market Outlook**

The global potato chips market size reached a value of USD 33.45 billion in 2022. The market is expected to further grow in the forecast period of 2023–2028 at a CAGR of 2.90% to reach a value of USD 39.71 billion by 2028. Increasing product innovations in taste and flavour, owing to changing preferences of consumers towards healthy diet and lifestyle is expected to be one of the major growth drivers for the potato chips market. Introduction of healthier alternatives such as low-sodium and low-fat potato chips is expected to drive growth of the global potato chips market over the forecast period.

## A Business Plan for

# Aluminium Ingots from Aluminium Scrap

Aluminium ingots from aluminium scrap are metal products that are manufactured from recycled aluminium scrap material. The recycled material is melted and then poured into moulds to form aluminium ingots. Aluminium ingots have a wide range of uses, but most commonly they are used in the manufacturing of parts and products that require high levels of strength and durability. The process of recycling aluminium scrap into aluminium ingots has become increasingly popular in recent years due to its environmental benefits.

Visit this Page for More Information: <u>Start a</u> <u>Business in Aluminium Downstream Sector</u>

# Uses and Applications of Aluminium Ingots from Aluminium Scrap

Aluminium ingots are used in a variety of industries, including aerospace, automotive, electrical and chemical. In the aerospace industry, aluminium is often used to create components such as wings and fuselage parts. The material's low weight and high strength make it ideal for applications where weight is a concern. In the automotive industry, aluminium is widely used to make car bodies, wheels, bumpers and other parts.

Related Business Plan: Aluminium Ingots From Aluminium Scrap

www.entrepreneurindia.co

#### **Indian Market Outlook**

There has been an increasing demand for aluminium ingots in India, both from domestic buyers and international buyers. This is mainly due to the fact that aluminium ingots offer a number of advantages compared to other forms of aluminium. For instance, aluminium ingots are easier to transport and store, as well as being more durable. In addition, they can be melted down and reused multiple times. Aluminium ingots are considered to be one of the most sustainable forms of aluminium.

Scrap: An Investment Project Opportunity for Startups and
Entrepreneurs – Secondary Aluminum Production,
Aluminium Recycling, Aluminum Scrap/Chip Recycling,
Waste Recycling

#### Global Market Outlook

The global aluminium ingots market is expected to grow at a CAGR of 8% from 2022-2030. Automotive, aerospace & defence, and shipping were the major application areas in the global market. The automotive segment accounted for over 50% of the total revenue share. The segment is expected to witness significant growth on account of increasing demand for vehicles with lightweight materials such as aluminium. The growing importance of fuel efficiency and reduction in vehicle weight has led to increased use of aluminium alloys in automobile manufacturing which is likely to propel industry expansion over the forecast period.

### Start-Up Production of

## Latex Mattress

www.entrepreneurindia.co

Latex mattresses are composed of natural or synthetic latex. Natural latex is derived from rubber tree sap, while synthetic latex is made from a combination of petroleum and other ingredients. Latex mattresses are known for their durable construction and ability to support the body's pressure points, making them an ideal option for those who want a comfortable sleeping surface that won't wear out quickly. Latex mattresses offer superior breathability, as they contain millions of tiny holes that allow air to flow through the mattress and keep it cool. Additionally, they are antimicrobial and resistant to dust mites and other allergens, making them a popular choice for those with allergies or asthma.

Visit this Page for More Information: <u>Start a</u>
Business in Rubber Manufacturing Industry

#### Uses and Applications of Latex Mattresses

Latex mattresses can be used in a variety of applications. They are popular for people with allergies or asthma, as the hypoallergenic nature of the material helps reduce allergens in the home. Latex mattresses are also very comfortable and supportive, providing an excellent option for people who want a quality sleep experience. They can be used in a wide range of bed sizes and styles, including traditional coil-spring mattresses, hybrid mattresses, and foam mattresses. In addition to being used in mattresses, latex is also popular for use in furniture and upholstery. It is a great choice for sofas and chairs because it is both comfortable and durable.

Related Business Plan: Start-up Production of Latex Mattress

#### Global Market Outlook

The global latex mattress market is expected to reach US\$ 20 Billion by 2032, growing at a CAGR of 7% during the forecast period 2022-2032. Latex mattress are proven to be extremely comfortable on account of natural elasticity of this material. It helps in pain relief and is also recommended by osteopaths, therapists, and chiropractors for people having back problems. It also has the ability to promote the natural alignment of spine and provides quality sleep owing to the comfort and cushioning properties of the mattress. The market in Asia Pacific is anticipated to expand at the fastest CAGR of 7.4% from 2019 to 2025. Increase in infrastructural activities has propelled the hospitality sector, particularly hotels and resorts in this region.

# Reasons for Buying Our Business Plan

- ✓ The Business Plan helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product
- ✓ This Business Plan provides vital information on the product like it's characteristics and segmentation
- ✓ This Business Plan helps you market and place the product correctly
  by identifying the target customer group of the product

- ✓ This Business Plan helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
- ✓ The Business Plan provides a glimpse of government regulations applicable on the industry
- ✓ The Business Plan provides forecasts of key parameters which
  helps anticipate the industry performance and make sound
  business decisions

- Our research reports broadly cover Indian markets, present analysis,
   outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

NANA

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The Business Plan covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....Read more

#### Who are we?

A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.

#### What do we offer?

- Selection of Right Business Ideas For You (Project Identification)
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)

#### How are we different?

- > We have two decades long experience in project consultancy and market research field
- > We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- > We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- > We use authentic & reliable sources to ensure business precision

#### Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- o NRI's
- Foreign Investors
- o Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

### Our Approach

#### **Requirement collection**

Thorough analysis of the project

**Economic feasibility study of the Project** 

Market potential survey/research

**Report Compilation** 

#### **Sectors We Cover**

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- o Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- o Aluminium And Aluminium Extrusion Profiles & Sections,
- o Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- o Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling
- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct
- Copper & Copper Based Projects

#### Sectors We Cover cont..

- Dairy/Milk Processing
- o Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- o Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing
- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitability Projects
- Hospital Based Projects
- Herbal Based Projects
- o Inks, Stationery And Export Industries
- Infrastructure Projects
- Jute & Jute Based Products

#### Sectors We Cover Cont...

- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- o Organic Farming, Neem Products Etc.
- o Paints, Pigments, Varnish & Lacquer
- o Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- o Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- o Plantations, Farming And Cultivations
- o Plastic Film, Plastic Waste And Plastic Compounds
- o Plastic, PVC, PET, HDPE, LDPE Etc.

#### Sectors We Cover cont...

- Potato And Potato Based Projects
- Printing And Packaging
- o Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals
- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

### **Objective**

- To get a detailed scenario of the industry along with its structure and classification
- To provide a comprehensive analysis of the industry by covering aspects like:
  - Growth drivers of the industry
  - Latest market trends
  - Insights on regulatory framework
  - SWOT Analysis
  - Demand-Supply Situation
  - Foreign Trade
  - Porters 5 Forces Analysis
- To provide forecasts of key parameters which helps to anticipate the industry performance
- To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- To help an entrepreneur/manager in keeping abreast with the changes in the industry
- To evaluate the competitive landscape of the industry by detailing:
  - Key players with their market shares
  - Financial comparison of present players
