Potato Starch Production.

Extraction of Starch from Potato.

Profitable Potato Processing Business Ideas
Introduction

Potato Starch is a very fine flour with a bland taste that is made by removing the potato peel, made into a slurry and watery mix, and then dehydrated to form Potato Starch. The Potato Starch is not cooked, thus it does not absorb much water unless it is heated. For example, it will make an excellent gravy if heated with liquid in a saucepan.

Food manufacturers produce potato starch by extracting and processing only the starchy component of potatoes.
Potato starch is used as:

- Water binder
- Thickener
- Anti caking ingredient
- Bulking ingredient
- Glueing agent
Potato starch and potato starch derivatives are used in many recipes, for example in noodles, wine gums, cocktail nuts, potato chips, hot dog sausages, bakery cream and instant soups and sauces, in gluten-free recipes, in kosher foods for Passover and in Asian cuisine. In pastry, e.g. sponge cake, it is used to keep the cake moist and give a soft texture. It is also occasionally used in the preparation of pre-packed grated cheese, to reduce sweating and binding.

Potato starch is a white powder similar in texture to cornstarch while potato flour has more weight to it and is similar to wheat flour. Potato starch is used in baking and as a thickener in various recipes. Potato flour is often used along with or to replace wheat flour as the base for breads and cakes.
Market Demand

Global Potato Starch market is expected to exceed US$ 2 Billion by 2024. Potato starch is obtained from potatoes mechanically through an exclusive process of washing and then the potatoes are crushed so that the starch grains are released from the potato cell walls. Further, the starch is then washed out and dried to powder.

Some of the prominent trends that the market is witnessing include rising demand from the food and beverage industry, increase in the consumption of potato starch and recent technological developments in potato starch.
The growing Sweet Potato Starch demand and consumption has provided a major boost to the Global Sweet Potato Starch Market as more people are shifting their preferences to Food and Beverage sector. The global Sweet Potato Starch market report covers every aspect of the market including statistics and key insights for the customers.

Potato Starch is driving the market growth. Moreover, it is used in the textile industry to finish and stiffen fabrics; in the pharmaceutical industry to produce anti-biotics; and in the paper and chemical industries for its adhesive properties.
Potato starch is used in various ready-to-mixes and ready-to-eat products, such as baked goods, curry, and dessert mixes. It finds various applications in convenience food products, and the growing consumption of convenience food across the globe is expected to drive the growth of the potato starch market in near future.
Global Potato Starch Market Revenue, By Region, 2017 (US$ Mn)

1,718.7 (US$ Mn)

Europe

North America
APAC
Latin America
MEA

CAGR of 4.6%
(2018-2026)
Additionally, potato starch offers certain health benefits such as increasing the absorption of minerals like calcium and magnesium; lowering overall blood glucose levels; and reducing the absorption of toxic and carcinogenic compounds.

The global textile industry is expected to witness significant growth during the forecast period, especially in emerging markets such as China and India. This, in turn, is expected to increase the consumption of potato starch, primarily for textile sizing, and make a profound positive impact on the growth of the market. Starch is mainly used for textile sizing, especially for cotton yarns. It is preferred for the sizing of coarse and medium-count yarns. Starch forms the adhesive component during the size mix process, due to various factors such as Starch properties can be tuned as per requirement.
Also, the rising demand of potato starch from the food and beverage industry is also driving the growth of the potato starch market. The rising disposal income of consumers and consequent growth in the consumption of potato starch also drives potato starch market affluently.

On basis of end user, market is divided into textile industry, personal care, paper industry, food industry, pharmaceuticals and other end users. Food Industry segment is further sub-segmented into seasoning blends, sauces & soups, dairy product, infant food, bakery product, meat preservative, confectionery and drinks and other food industries.
The India starch and starch derivative market is projected to grow at the rate of 5.1% during the forecast period 2018 to 2023. The Indian starch and starch derivative market is highly impacted by the export-import factors, which add high value to the revenue. Due to high production and less consumption of starch and starch derivatives in India, exports contribute, to larger extent, to the growth of the market studied. Other factors driving the market studied are abundant availability of raw-materials, low production costs incurred by the manufacturers, and presence of many new players in the market.

Major Queries/Questions Answered in the Report?

1. What is Potato Starch Manufacturing industry?

2. How has the Potato Starch Manufacturing industry performed so far and how will it perform in the coming years?

3. What is the Project Feasibility of Potato Starch Manufacturing Plant?

4. What are the requirements of Working Capital for setting up Potato Starch Manufacturing plant?
5. What is the structure of the Potato Starch Manufacturing Business and who are the key/major players?

6. What is the total project cost for setting up Potato Starch Manufacturing Business?

7. What are the operating costs for setting up Potato Starch Manufacturing plant?

8. What are the machinery and equipment requirements for setting up Potato Starch Manufacturing plant?
9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Potato Starch Manufacturing plant?

10. What are the requirements of raw material for setting up Potato Starch Manufacturing plant?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Potato Starch Manufacturing Business?

12. What is the Manufacturing Process of Potato Starch?
13. What is the total size of land required for setting up Potato Starch Manufacturing plant?

14. What will be the income and expenditures for Potato Starch Manufacturing Business?

15. What are the Projected Balance Sheets of Potato Starch Manufacturing plant?

16. What are the requirement of utilities and overheads for setting up Potato Starch Manufacturing plant?

17. What is the Built up Area Requirement and cost for setting up Potato Starch Manufacturing Business?
18. What are the Personnel (Manpower) Requirements for setting up Potato Starch Manufacturing Business?

19. What are Statistics of Import & Export for Potato Starch?

20. What is the time required to break-even of Potato Starch Manufacturing Business?

21. What is the Break-Even Analysis of Potato Starch Manufacturing plant?

22. What are the Project financials of Potato Starch Manufacturing Business?
23. What are the Profitability Ratios of Potato Starch Manufacturing Project?

24. What is the Sensitivity Analysis-Price/Volume of Potato Starch Manufacturing plant?

25. What are the Projected Pay-Back Period and IRR of Potato Starch Manufacturing plant?

26. What is the Process Flow Sheet Diagram of Potato Starch Manufacturing project?
27. What are the Market Opportunities for setting up Potato Starch Manufacturing plant?

28. What is the Market Study and Assessment for setting up Potato Starch Manufacturing Business?

29. What is the Plant Layout for setting up Potato Starch Manufacturing Business?

Reasons for Buying our Report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.

• This report provides vital information on the product like its characteristics and segmentation.

• This report helps you market and place the product correctly by identifying the target customer group of the product.
• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
• The report provides a glimpse of government regulations applicable on the industry
• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

• Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.

• The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.

• We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Potato Starch.” provides an insight into Potato Starch market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Potato Starch project. The report assesses the market sizing and growth of the Indian Potato Starch Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Potato Starch sector in India along with its business prospects. Through this report we have identified Potato Starch project as a lucrative investment avenue.
Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Potato Starch Production. Extraction of Starch from Potato. Profitable Potato Processing Business Ideas

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more
NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,
Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more

Niir Project Consultancy Services

An ISO 9001:2015 Company

www.entrepreneurindia.co
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field.
- We empower our customers with the prerequisite know-how to take sound business decisions.
- We help catalyze business growth by providing distinctive and profound market analysis.
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors.
- We use authentic & reliable sources to ensure business precision.

www.entrepreneurindia.co
Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research
