Production of Eco-Friendly Biodegradable Cutlery using Rice Husk

Business and Investment Opportunities in Disposables Manufacturing for Startup

Introduction

Biodegradable cutlery has emerged as a much better alternative to plastics across the world and Indians are early adopters of biodegradable products. all types of plant biomass material like bagasse, rice husk, coconut coir etc. are being utilized for producing eco-friendly cutlery, tableware and packaging products that would see a surge in usage within the coming decade.

Rice husk may be a surprisingly strong material which will withstand significant wear and tear and features a long life. Rice husk tableware is one among the foremost durable varieties of biodegradable cutlery which will withstand temperatures of more than 100oC without getting damaged. This reusable tableware features a smooth glossy covering that's 100% natural and derived from the wax present in rice husks.

Disposable cutlery may be a huge a part of the fast-food culture and eating out. Plastic straws and eating implements also are a part of an ever-growing environmental problem. Apart from being non-biodegradable, manufacturing them can have a large carbon footprint.

Benefits:

Hygiene – It assures a high level of hygienic standards owing to their mono use, making it particularly important in hospitals or places where the contamination risk is high.

Lightweight – These are much lighter than typical silverware which allows you to carry it even in big quantity.

Convenience: Disposable cutlery is more convenient, particularly if you cater to many individuals.

Biodegradable: As mentioned earlier, disposable cutlery can be biodegradable, which means that the plastic or material utilized is of a diverse kind and vitiate in the environment faster in contrast to the standard plastic, such as PET. So utilizing these types of cutlery is undoubtedly a more conscious optimal for the environment too.

Market Outlook

The global biodegradable cutlery market size was accounted for USD 33.9 million, in 2018 and is projected to grow at significant rate of CAGR of 5.9% during the forecast period, 2019 to 2025. The growing awareness about hazardous impacts of non-biodegradable waste is expected to positively affect the market growth.

Related Project: - [Biodegradable, Eco-Friendly Cutlery using Rice Husk \(Rice Hulls or Rice Husks\)](#)

Increasing consumer awareness regarding the detrimental effects of using non-biodegradable products is among the key factors driving the expansion of the market. Furthermore, the implementation of favorable government regulations discouraging the utilization of plastic tableware and other products is additionally providing a boost to the market growth. With the many expansion within the food and beverage industry, there's an escalating demand for eco-friendly and sustainable cutlery in restaurants, fast food outlets and hotels across the world.

Increasing preference for environment-friendly tableware and rising concerns regarding the ill-effects of plastic tableware are boosting the biodegradable tableware market.

In India, biodegradable products made up of bamboo were traditionally utilized in rural areas; over the years, this trend has spread to the urban areas also. However, in certain parts of the world, these tableware, especially those made up of bamboo, are expensive. Consumer product packaging and disposable eating products made from biodegradable material such as corn, sugarcane, husk, and other plant bases possess numerous environmental advantages over non-biodegradable products. These factors coupled with rising investment in research and development is anticipated to boost to the market.

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Rice Husk Based Biodegradable Cutlery.” provides an insight into Rice Husk Based Biodegradable Cutlery market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of _Rice Husk Based Biodegradable Cutlery project. The report assesses the market sizing and growth of the Indian Rice Husk Based Biodegradable Cutlery Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Rice Husk Based Biodegradable Cutlery sector in India along with its business prospects. Through this report we have identified Rice Husk Based Biodegradable Cutlery project as a lucrative investment avenue.
