Setup a Private Hospital. Investment Opportunities in Healthcare Sector. Setting Up a Hospital in India

www.entrepreneurindia.co
A hospital bed or hospital cot is a bed specially designed for hospitalized patients or others in need of some form of health care. These beds have special features both for the comfort and well-being of the patient and for the convenience of health care workers. Common features include adjustable height for the entire bed, the head, and the feet, adjustable side rails, and electronic buttons to operate both the bed and other nearby electronic devices.
Hospital beds and other similar types of beds such as nursing care beds are used not only in hospitals, but in other health care facilities and settings, such as nursing homes, assisted living facilities, outpatient clinics, and in home health care. While the term hospital bed can refer to the actual bed the term bed is also used to describe the amount of space in a health care facility as the capacity for the number of patients at the facility is measured in available beds.

A hospital as a health care organization has been defined in varied terms as an institution involved in preventive, curative/ameliorative, palliative or rehabilitative services. However an integral part of the medical and social organization which is to provide for the population complete health care, both curative and preventive and whose outpatient services reach out into the family in its home environment. A hospital is meant to treat patients suffering from various ailments.
Doctors with their dedicated spirit serve the nation at large by providing medication and treatment for eradication of diseases, which exchange health and add suffering to humanity. Doctors with their dedicated spirit serve the nation at large by providing medication and treatment for eradication of diseases, which exchange health and add suffering to humanity. (PHCs) in rural areas. The private sector provides majority of secondary tertiary and quaternary care institutions.
The limited access to medical facilities in developing and underdeveloped nations has unleashed myriad opportunities for the hospital beds market. The governments are endeavoring to provide access to standard medical facilities in rural areas, which is expected to motivate the growth trajectory of the hospital beds market. Furthermore, the initiatives undertaken by international organizations such as the World Health Organization (WHO) is poised to expedite the expansion of the market. A major fraction of the global population is affected by chronic diseases such as diabetes, cardiovascular disorders, etc. The count of patients is expected to skyrocket in the forthcoming years owing to an exponential aging population. The global population for older adults is estimated to get doubled between 2015 and 2050. It is presumed to motivate the growth of the global hospital beds market.
Fast-developing and developed countries have emerged as the hotspots for healthcare facilities. The burgeoning medical tourism industry has encouraged the healthcare providers to expand their bases in these countries owing to the high demand for treatments. This, in turn, has catapulted the hospital beds market on an upward trajectory.

The tech-driven changes in the hospital beds have led to rapid developments in the market. The accelerated adoption of smart hospital beds is likely to have a favorable impact on the market. Nevertheless, the expensiveness of advanced hospitals beds such as electric and semi-electric beds is anticipated to restrict the expansion of the market.

Global Hospital Beds Market is expected to expand at a CAGR of 5.5% during the 2017 to 2023. Its valuation is likely to reach USD 4,824.2 MN by the end of 2023 from USD 2,515.1 MN in 2016. The growth of the healthcare sector is prognosticated to reflect on the expansion of the global market over the next couple of years.
Geographically, Europe held the largest share in the hospital bed industry with 33.4% contribution in 2017. The market growth in the region can mainly be attributed to the growing number of hospitals, increasing prevalence of chronic diseases, and rising aging population. In addition, the increasing incidence of hospitalization, technological advancement in hospital beds, and growing healthcare expenditure are also driving the market growth in the region.

On the basis of treatment, the market has been categorized into acute care, critical care, and long-term care beds. Of these, acute care is expected to continue holding the largest share in the hospital bed market during the forecast period, attributed to their increasing demand in accident and emergency wards. The various type of beds available in the market include, general, pediatric, birthing, and bariatric, pressure relief, and others.
Hospital beds or medical beds are medical equipment intended and well equipped for bedridden patients or patients who require care, to provide relief and assistance to the patient. It allows better positioning of patients, ease of transfer, improved blood circulation, and safety of patients at risk of falling out of the bed. The global hospital bed market is growing at a significant rate, due to escalating funds in healthcare infrastructural development, and mounting occurrence of chronic diseases.

The Indian healthcare industry size was USD 100 b in 2015 while the healthcare sector is expected to expand from USD 160 b in 2017 to USD 280 b by 2020, India lags behind on healthcare outcomes when compared to similar nations.
Key Players

- Indraprastha Apollo Hospital, Delhi
- Lilavati Hospital and Research Center, Mumbai
- Fortis Hospital, Shalimar Bagh location, Delhi
- Jaslok Hospital & Research Centre, Mumbai
- BLK Super Speciality Hospital, Delhi

### IRR, PAYBACK and FACR

- **Internal Rate of Return (In %age)**: 23.19%
- **Payback Period of the Project** (In Years): 2 Years 4 Months
- **Fixed Assets Coverage Ratio (No. of times)**: 2.988
### Major Queries/Questions Answered in the Report?

1. What is Hospital?

3. What is the Project Feasibility of Hospital project?

4. What are the requirements of Working Capital for setting up Hospital?
5. What is the structure of the Hospital Business and who are the key/major players?

6. What is the total project cost for setting up Hospital?

7. What are the operating costs for setting up Hospital?

8. What are the machinery and equipment requirements for setting up Hospital?
9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Hospital?

10. What are the requirements of raw material for setting up Hospital?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Hospital?
12. What is the total size of land required for setting up Hospital?

13. What will be the income and expenditures for Hospital Business?

14. What are the Projected Balance Sheets of Hospital?

15. What are the requirement of utilities and overheads for setting up Hospital?

16. What is the Built up Area Requirement and cost for setting up Hospital Business?
17. What are the Personnel (Manpower) Requirements for setting up Hospital Business?

18. What are Statistics of Import & Export for Hospital?

19. What is the time required to break-even of Hospital Business?

20. What is the Break-Even Analysis of Hospital project?

21. What are the Project financials of Hospital Business?
23. What are the Profitability Ratios of Hospital Project?

24. What is the Sensitivity Analysis-Price/Volume of Hospital project?

25. What are the Projected Pay-Back Period and IRR of Hospital?
26. What are the Market Opportunities for setting up Hospital?

27. What is the Market Study and Assessment for setting up Hospital?

30. What is the Plant Layout for setting up Hospital?

Reasons for Buying our Report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.

• This report provides vital information on the product like it’s characteristics and segmentation.

• This report helps you market and place the product correctly by identifying the target customer group of the product.

www.entrepreneurindia.co
• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials

• The report provides a glimpse of government regulations applicable on the industry

• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

• Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.

• The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.

• We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Hospital 30 Bedded.” provides an insight into Hospital 30 Bedded market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Hospital 30 Bedded project. The report assesses the market sizing and growth of the Indian Hospital 30 Bedded Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Hospital 30 Bedded sector in India along with its business prospects. Through this report we have identified Hospital 30 Bedded project as a lucrative investment avenue.
Conceptual Plan 100 Bedded Project, 30 BED GENERAL HOSPITAL Project Concept Report, Hospital & Education Project Report, 200 bed hospital project report, Hospital (200 Beds) - Detailed Project Report, Unit cost of healthcare services at 200-bed public hospitals, How much will it cost to build a hospital with 50 beds in India?, detailed project report operation & management services, Rural Hospital of the Future, How to Start Hospital 30 Bedded Processing Industry in India, Hospital 30 Bedded Processing Industry in India, Most Profitable Hospital 30 Bedded Processing Business Ideas, Hospital 30 Bedded Processing & Hospital 30 Bedded Based Profitable Projects, Hospital 30 Bedded Processing Projects, Small Scale Hospital 30 Bedded Processing Projects, Starting a Hospital 30 Bedded Processing Business, How to Start a Hospital 30 Bedded Production Business, Hospital 30 Bedded Based Small Scale Industries Projects, new small scale ideas in Hospital 30 Bedded processing industry,

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more
NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,
Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects......Read more

An ISO 9001:2015 Company

www.entrepreneurindia.co
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services

- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
