USING SUGARCANE
BAGASSE**

**Production of Biodegradable
Disposable Cups and Plates
(Tableware) Using Sugarcane Bagasse**

Introduction

Disposable and biodegradable Bagasse, a substance based on starch, is used to make cups and plates. The cups, plates, and cutlery are all made from this material in conformity with the Food Safety Authority's guidelines for food safety. These products are 100% biodegradable, compostable, and recyclable while being just as robust as their plastic counterparts.

Uses and Applications

People who want to protect the environment by not using plastic can use the cups and plates. It is constructed from organic ingredients that break down in the soil, water, or air. It can be used as a plate for food, for drinking, or for both. There are three sizes of cups: small, medium, and giant. There are two sizes of plates: medium and giant.

While the large size comes in 16 pieces, the medium size comes in 8 pieces. It must be filled with your preferred beverage before being used as a dish or placed on the table. Drinks are fantastic since you don't have to worry about spilling anything because they are biodegradable, so there is no waste when you take a sip. They're also ideal for eating because they don't break like plastic dishes do when you eat off of them.

Manufacturing Process

The manufacturing process is quite simple, but does require some special equipment. When the sugar cane bagasse has been cut into strips, it is stacked in layers to form a square or rectangular block with the edges lined up. The block is then compressed in a hydraulic press under 2500 tons of pressure for about two minutes. This compresses the fibers down to about 1/4th of their original thickness.

The bio plastic sheets can be peeled from the blocks like paper from a roll. They are dried by spreading them out on racks or screens, usually in direct sunlight, until they are ready to be use.

Benefits of Starting Biodegradable Disposable Cups and Plates (Tableware) Using Sugarcane Bagasse Business

Starting a company that sells disposable plates and cups made of sugarcane bagasse has several advantages. To begin with, these products won't hurt the environment because they are made entirely of natural resources. They also use sugarcane bagasse, which is a sustainable resource because it decomposes quickly if left on the ground—in as little as 14 days—and can therefore be composted or converted into biofuel.

Carbon dioxide, which promotes plant growth, is the only other byproduct of this process. Finally, because they outlast products made of traditional plastics like polystyrene, you'll discover that biodegradable disposable cups and plates manufactured from sugarcane bagasse are less expensive than those made of standard paper.

Global Market Outlook

The global market for bagasse tableware items is expected to grow at a 6.8% CAGR between 2021 and 2031, up from the 4.6% CAGR seen during the previous period of 2015-2020, primarily because to the increased demand for environmentally friendly sustainable packaging solutions around the world. Products made from bagasse are popular and valued as an eco-friendly substitute for plastic tableware.

Dinnerware constructed of sugarcane waste, also known as bagasse or sugarcane fiber, is an environmentally beneficial alternative to tableware made of polystyrene and Styrofoam. These goods, which are often referred to as sugarcane biodegradable tableware, are lightweight, recyclable, and have other distinctive qualities. Plates, cups, bowls, trays, and cutlery made of bagasse are highly sought-after in the food and beverage business.

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The Business Plan covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Who are we?

A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.

What do we offer?

- **Selection of Right Business Ideas For You (Project Identification)**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Market Research Reports**
- **Business Plan**
- **Technology Books and Directory**
- **Industry Trend**
- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

How are we different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
