

Top 5 Successful Business Ideas to Start

- Latex Rubber Thread
- Activated Carbon from Coconut Shell
- Biodegradable Plastic Bags from Corn Starch
- Cosmetic Unit (Serum, Cream, Shampoo & Lipstick)
- Tea Blending and Packaging (Tea, Green Tea & Herbal Tea)

<https://www.niir.org>

<https://www.entrepreneurindia.co>

Introduction

Are you trying to think of a green business idea? Activated Carbon from Coconut Shell, Biodegradable Plastic Bags from Corn Starch, Cosmetic Unit (Serum, Cream, Shampoo & Lipstick), and Tea Blending and Packaging are a few ventures to take into consideration. The rising demand for rubber, carbon, tea, biodegradable bags, cosmetics, and other products might lead to lucrative business opportunities. This blog article will give a thorough description of the steps required to launch this business as well as the resources required.

Start

Latex Rubber Thread

Manufacturing Business

Latex rubber thread, often known as elastic thread, is a type of elastic material made from either natural rubber or synthetic latex. It is mostly used in the textile industry to create elastic waistbands, bra straps, and stretchy textiles for lingerie.

Outlook for the World Market

The market for latex rubber thread has grown significantly in recent years, partly as a result of the growing demand for products that are sustainable and safe for the environment. According to market research analyses, the world market for latex rubber thread will grow between 2021 and 2028 at a CAGR of almost 6.5%.

Start Industry of

Activated Carbon from Coconut Shell

Activated carbon from coconut shell is an organic form of activated carbon derived from the shell of the coconut. It is a porous, black material that is employed as a filter to remove impurities from water, air, and other sources. Activated carbon is an effective tool for cleaning air and water because of its exceptional adsorption capabilities. Coconut shell-based activated carbon is becoming more and more well-liked due to its sustainability, affordability, and superior performance in removing pollutants.

Visit this Page for More Information: [Start a Business in Activated Carbon Industry](#)

How Was It Created?

Coconut shell is used to create activated carbon through a process called carbonization. In an atmosphere devoid of oxygen, coconut shells are roasted at high temperatures until they become char. After being treated to chemicals or steam, which increases its surface area and creates thousands of tiny pores, this char is subsequently made active.

A photograph of a coconut shell, split open, filled with a dark, granular substance called activated carbon. The shell is resting on a wooden surface, and some of the carbon has spilled out onto the wood. The background is a soft-focus green.

Related Business Plan: [Activated Carbon from Coconut Shell](#)

During the activation process, the carbon's structural makeup is changed, considerably enhancing its adsorbent characteristics. This suggests that it has the capacity to attract and hold onto pollutants and toxins. Production of activated carbon from coconut shell is governed by strict laws and guidelines to ensure consistent quality.

Read Similar Article: [How to Setup Business of Activated Carbon from Rice Husk, Saw Dust & Coconut Shell | Activated Carbon from Rice Husk, Saw Dust & Coconut Shell Business Plan](#)

The size of the pores in the activated carbon is then used to rank it, determining its specific usage and effectiveness. Generally speaking, producing activated carbon from coconut shells is an easy yet very effective way to turn rubbish into something valuable.

Advantages of Coconut Shell-Derived Activated Carbon

- High Absorbance Capacity**
- Sustainable and Renewable Resources**
- Little Ash Content**
- Chemical-Free**
- Cost-Effective.**

View of the World Market

The market for activated carbon was valued at USD 3.62 billion in 2022, and from 2023 to 2030, it is anticipated to grow at a CAGR of 2.6%. The main development driver is predicted to be an increase in demand for applications for water and sewage treatment.

Manufacturing Business of **Biodegradable Plastic Bags from Corn Starch**

Biodegradable plastic bags made from corn starch, often known as corn plastic or PLA (polylactic acid) bags, are an environmentally beneficial alternative to traditional plastic bags. These bags are made primarily from cornflour that has been polymerized and is made from natural materials. After using this polymer, a plastic-like substance is produced that may then be formed into bags. Biodegradable bags made of corn starch compost, or break down into organic matter, when exposed to heat, moisture, and bacteria. Conventional plastic bags, on the other hand, regularly end up poisoning our oceans and causing the extinction of species because they can take hundreds of years to disintegrate.

Visit this Page for More Information: [Start a Business in Biodegradable Products Industry](#)

Prospects for This Sector

As people become more aware of environmental issues, the market for biodegradable plastic bags made from maize starch is predicted to increase. Several companies are investing in research and development to enhance the manufacture of these bags so that they are more dependable and affordable for consumers. Given the extent of plastic pollution already present, the development of environmentally friendly alternatives to traditional plastic bags is imperative.

View of the World Market

In the Asia-Pacific region, the market for biodegradable plastics generated revenues of \$2,003.8 million in 2020 and is projected to increase to \$4,133.1 million by the year 2026. This dominance is largely attributable to the packaging sector's rapid economic expansion and consumers' shifting perceptions about the utility of biodegradable plastics in reducing plastic litter.

Start

Cosmetic Unit (Serum, Cream, Shampoo & Lipstick)

Manufacturing Business

Cosmetic units, which are a collection of goods, often contain serum, cream, shampoo, and lipstick. Both men and women can use this selection of cosmetics in their daily beauty routines. It provides everything needed for basic skincare and hair care. The cosmetics industry is vibrant and always on the hunt for new trends and innovative ideas.

Setup Unit of

Tea Blending and Packaging (Tea, Green Tea & Herbal Tea)

When blending and packaging tea, various teas, including black, green, and herbal teas, are combined to create a unique and delicious mixture. Due to tea mixing, a single cup of tea can have a variety of flavours, aromas, and health benefits. Tea mixologists select teas with complementary flavour and properties with care. For instance, while green teas are usually blended with delicate, floral overtones, black teas are frequently combined with hearty, strong flavour.

Reasons for Buying Our Business Plan

- ✓ **The Business Plan helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- ✓ **This Business Plan provides vital information on the product like it's characteristics and segmentation**
- ✓ **This Business Plan helps you market and place the product correctly by identifying the target customer group of the product**

- ✓ **This Business Plan helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- ✓ **The Business Plan provides a glimpse of government regulations applicable on the industry**
- ✓ **The Business Plan provides forecasts of key parameters which helps anticipate the industry performance and make sound business decisions**

Our Approach

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

How to Choose The Right Business For You?

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify Businesses based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the Business Ideas on the basis of mentioned pointers and identify a suitable Business Plan matching your investment requisites.....[Read more](#)

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The Business Plan covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

A trusted and leading name in the industry, we have been putting forth exceptionally integrated and comprehensive technical consultancy services. We believe that project consultancy serves as a critical element for the success of your projects. Moreover, we keep in mind that no client is the same and nor are the requirements. Therefore, we ensure uniqueness in every service you avail from us.

What do we offer?

- **Selection of Right Business Ideas For You (Project Identification)**
- **Detailed Project Reports/Pre-feasibility Reports**
- **Market Research Reports**
- **Business Plan**
- **Technology Books and Directory**
- **Industry Trend**
- **Databases on CD-ROM**
- **Laboratory Testing Services**
- **Turnkey Project Consultancy/Solutions**
- **Entrepreneur India (An Industrial Monthly Journal)**

How are we different ?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision

Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
