

Want to Start Business in Nepal?

Here are few Good Profitable
Ideas for You.

Introduction

Major Cities in Nepal:

- **Kathmandu**
- **Pokhara**
- **Lalitpur**
- **Birgunj**
- **Biratnagar**
- **Bharatpur**
- **Janakpur**
- **Hetauda**
- **Nepalgunj**
- **Itahari**

Nepal is a country located in the Southern part of Asia; it is between China and India. The capital of Nepal is Kathmandu and it is the largest city. The official language of Nepal is Nepali and their official currency is called Nepalese Rupee (NPR). Nepal is considered to be a developing country with a large chunk of her population living in poverty.

Mount Everest which happens to be the tallest mountain in the whole world is located in Nepal; as a matter of fact Nepal is home to 8 of the world's 10 tallest mountains. Hinduism is the most practiced religion in Nepal followed by Buddhism, Islam and Christianity.

Nepal economy revolves around the agriculture industry and the services industry. As a matter of fact, the agriculture sector employs about 70 percent of the country's workforce. Nepal is notable for the cultivation of rice, sugarcane, tea, tobacco, jute, corn, wheat, and grains.

Agriculture in Nepal has long been based on subsistence farming, particularly in the hilly regions where peasants derive their living from fragmented plots of land cultivated in difficult conditions. Government programs to introduce irrigation facilities and fertilizers have proved inadequate, their delivery hampered by the mountainous terrain. Nepal is an agro-based country.

Most of the people in Nepal depend on agriculture which provides daily needs such as crops, vegetables, fruits etc. Most of the cottage industries in Nepal are also based on agriculture because it supplies with raw materials. Some of the educated people are employed in other sectors such as teaching, office work, business etc.

Niir Project Consultancy Services (NPCS) can provide Detailed
Project Report on Required Project

Want to Start Business in Nepal? Here are few
Good Profitable Ideas for You.

Few Projects for Startups:

➤ PRECIPITATED SILICA FROM RICE HUSK ASH

Precipitated silica (also called particulate silica) is compound of aggregates of ultimate particles of colloidal size that have not become linked in massive gel network during the preparation process. This is used as filler for paper, rubber as a carrier, diluents for agricultural chemicals, as an anti-caking agent to control viscosity and thickness, as molecular sieves.....[Read more](#)

➤ DALL MILL (PULSES)

Pulses are the most common diet part of Indian families and are the main sources of proteins. The important parts of pulses play as a source of dietary protein, energy, minerals and vitamins for the predominantly vegetarian population of India, needs no reiteration and nutritionists regard pulses as an essential means to correct malnutrition.....[Read more](#)

➤ WHEAT FLOUR MILL

Wheat is a grass, originally from the Fertile Crescent regions, but now cultivated worldwide. In 2007 world production of wheat was 607 million tons working it the third most produced cereal after maize (784 million tons) and rice (651 million tons).[.....Read more](#)

➤ **ELECTRIC MOTORS**

The extensive utilization of many types of constructional variants of electric motors in industry, commerce and the home would make a comprehensive guide for their selection, application and maintenance runs into many pages.....[Read more](#)

➤ MOSQUITO REPELLENT LIQUIDATOR

There are some essential oils which have property to repellant of mosquito. Mosquitoes cannot bear the flavour of essential oil though they do not die but they run away. Raw material required for manufacturing of essential oils are easily available in the market.....[Read more](#)

➤ **SOLAR PANEL ASSEMBLING & SOLAR POWER INVERTER ON GRID, OFF GRID WITH SOLAR PUMP CONTROLLER**

A solar cell, sometimes called a photovoltaic cell, is a device that converts light energy into electrical energy. Solar panels generate free power from the sun by converting sunlight to electricity with no moving parts, zero emissions, and no maintenance.....[Read more](#)

➤ SCHOOL (CBSE PATTERN)

The importance of education was well recognized in India, ‘Swadeshepujyate raja, vidwansarvatrapujyate’ “A king is honoured only in his own country, but one who is learned is honoured throughout the world.” A school is an institution designed to provide learning spaces and learning environments for the teaching of students under the direction of teachers.....[Read more](#)

➤ **BARLEY MALT**

Barley Malt is germinated cereal grains that have been dried in a process known as "malting". The grains are made to germinate by soaking in water, and are then halted from germinating further by drying with hot air. Malting grains develop the enzymes required to modify the grain's starches into sugars, including the monosaccharide glucose, the disaccharide maltose, the trisaccharide maltotriose, and higher sugars called maltodextrines.....[Read more](#)

➤ TOBACCO CULTIVATION AND PROCESSING (E O U)

In modern tobacco farming, Nicotiana seeds are scattered onto the surface of the soil, as their germination is activated by light, then covered in cold frames. In the Colony of Virginia, seedbeds were fertil with wood ash or animal manure (frequently powdered horse manure). Coyote Tobacco (*N. attenuata*) of the western U.S. requires burned wood to germinate.....[Read more](#)

➤ LIQUID GLUCOSE FROM MAIZE

The maize also called corn or Indian corn is widely cultivated in India. Maize ranks high among the four or five principal cereal crops of the world. Maize is utilized in more diversified ways than any other cereal. The grain is quite nutritious, with a high percentage of easily digested carbohydrates, fats and proteins hardly and deleterious substances.....[Read more](#)

➤ **ACTIVATED CARBON POWDER FROM JUTE STICKS**

Activated carbon is a non-graphitic form of carbon, which could be produced by activation of any carbonaceous material such as jute sticks, coconut shells, bamboo, wood chips, sawdust, coal, lignite, paddy husk etc. Without adding any additives, chemicals or bonding agents, our Charcoal Powder is completely natural and odor-free.....[Read more](#)

➤ COFFEE PLANTATION

The genus comprises 50-60 species of shrubs or small trees indigenous to tropical Africa and Asia. Among them 4 or 5 species are important as sources of commercial coffee. In India coffee is grown mostly in the south on the foothills of the Western Ghats and its out crops, from Kadur District in the state of north to Travancore in south.....[Read more](#)

➤ PROTEIN BAR

Protein bars, which contain some form of milk-derived or plant-based protein like whey, hemp, pea or rice protein. Protein bars are usually lower in carbs than energy bars, lower in vitamins and dietary minerals than meal replacement bars, and significantly higher in protein than either.....[Read more](#)

➤ **MEDICAL COLLEGE WITH HOSPITAL (750 BEDDED)**

A medical college is meant to impart education of medical field to students to qualify them as doctors in different specialized disciplines so as to treat patients suffering from various ailments.....[Read more](#)

➤ **SOYABEAN OIL, SOYA PANEER AND SOYA EXTRACT**

Soyabean is one of the most important agro based product which has commercial value after rice, wheat, maize etc. It is generally cultivated in the tempered region with water availability. It is generally matured in the month of November. Soyabean oil has commercial value in the field of vegetable oil.....[Read more](#)

➤ **GOAT & SHEEP FARMING**

Goats are allied to sheep but are much harder and more active animals. Their males or billy goats have a tuft of hair (beards) under the chin. The present day goats are said to be descended from one to more kinds of wild goats of Asia & Europe. People who cannot afford to keep cows and buffaloes for milk keep goats.....[Read more](#)

➤ POULTRY FARMING

Poultry farming has occupied an important place in the Indian economy. With the fast food culture an accepted feature, poultry farming is playing a greater role in the eatery business in India. It has emerged as the fastest growing segment in the agri livestock industry. Emergence of poultry as a large scale commercial enterprise took place less than 35 years ago.....[Read more](#)

➤ PIG FARMING

Pig rearing can be paying if sufficient attention is given to the selection of good quality stock and to the proper management of herd. If pigs are fed the scientific way, they will be ready for the market and your table in a short period of six to eight months.....[Read more](#)

➤ THERMOCOLE (EPS) CUP, GLASS & PLATES

Thermocole or expanded polystyrene as the name suggests, is polystyrene expanded to more than two times the volume of polystyrene. Polystyrene foam is an excellent packaging material because of combination of various properties such as lightness, rigidity, shock absorption, thermal insulation, resistance to moisture, snow white colour etc.....[Read more](#)

➤ BAKERY INDUSTRY

Bakery is one of the oldest among the food processing activities. An estimated 78,000 bakeries operate in India. The production of bread is estimated at 11.5 lakhs tonnes and biscuits at 7.8 lakhs tonnes....[Read more](#)

➤ **SANITARY NAPKIN & BABY DIAPERS**

A diaper or nappy is a kind of underwear that allows one to defecate or urinate in a discreet manner. Diapers are primarily worn by children who are not yet potty trained or experience bedwetting.....[Read more](#)

➤ **APPLE CHIPS**

Apple is one of the delicious fruits. It contains vitamins, minerals, enzyme, fruit juice etc. Apples can be preserved in the form of apple chips by drying it. In normal drying apples pieces changed its colour to brown. There is very good market of apple chips. It can be sealed in the aluminium foil.....[Read more](#)

➤ **FRUIT JUICE IN ASEPTIC PACKAGING**

Fruit juice in aseptic packaging is basically used to quench the thirst and to get refreshment. In aseptic packaging juice can be preserved for 6 months or more. It is convenient to use, easy to sip and a source of minerals and vitamins. There is good domestic as well as international demand.....[Read more](#)

➤ FISH DEHYDRATION

There are varieties of fish available in India. They are sweet water fish and salty water fish. Both the fishes can be stored by dehydration. Dehydration is a process technique of removal of water from fish bodies by mechanical means i.e. heat and dehumid air over the fish....[Read more](#)

➤ FISH FARMING

A larger part of the average family's food bill goes on protein foods e.g. cheese, eggs and fish etc., which are important parts of a healthy and well-balanced diet. Now-a-days people are turning to fresh-water fish such as rainbow trout, carps and tench, which can be raised in ponds and ornamental garden pots.....[Read more](#)

➤ DISPOSABLE PAPER PLATE

Disposable cutlery and containers are products that are a part of our day to day life. Disposable items like cups, plates, saucers are being increasingly used. Such disposables items are made with easily degradable materials which are manmade products like paper from wood pulp, biomass etc....[Read more](#)

➤ **PRODUCTION OF DIFFERENT GRADES OF LIME FROM LIMESTONE (TECHNICAL GRADE LIME, REFRACTORY GRADE LIME, AGRICULTURE GRADE LIME, FCC GRADE LIME)**

Lime is manufactured from lime stone. Lime is mainly used for manufacture of hydrated lime. Hydrated lime is a dry powder obtained by treating quick lime with water. It consists essentially of calcium hydroxide and some magnesium hydroxide. The project envisages production of lime by calcinations of limestone on vertical oil fired kiln.....[Read more](#)

➤ GRANITE MARBLE CUTTING AND POLISHING UNIT

The use of granite and other decorative stones has been increasing world over. India is endowed with vast deposits of these natural resources and is therefore, in a position to meet not only the domestic need but also to greatly enhance export. Besides, there is scope for substantial generation of employment opportunities in rural and backward areas.....[Read more](#)

➤ **SULPHUR POWDER**

Sulphur occurs in nature both in the Free State and combined state. Elemental sulphur mixed with gangue (15 - 25 %) is known as native sulphur. There is 20 - 25 % of the used sulphur in India is produced from the oil refinery residue and from the refining of coal gas. Country's demand of sulphur is meet up by importing from other countries like Sicily, USA, and Japan etc.....[Read more](#)

➤ BISCUIT MAKING PLANT

Biscuit industry in India in the organized sector produces around 60% of the total production, the balance 40% being contributed by the unorganized bakeries.....[Read more](#)

➤ LED LIGHT ASSEMBLING

A light emitting diode (LED) is a device which converts electrical energy in to light. LEDs are preferred light sources for short distance (local area) optical fiber network because they are inexpensive, robust and have long life (the long life of an LED is primarily due to its being a cold device, i.e. its operating temperature being much lower than that of, say, an incandescent lamp), can be modulated (i.e. switched on and off) at high speeds....[Read more](#)

➤ DISPOSABLE PLASTIC CUPS, PLATES & GLASSES

The plastic industry in India plays a very important and key role in Industrializations. A wide spectrum of plastics and articles manufactured by the industry has touched the life of every Indian in many ways through consumer plastics. The disposable plastic cups are manufactured by thermoforming technique.....[Read more](#)

➤ SOLAR PANEL

A solar panel is a collection of solar cells. Lots of small solar cells spread over a large area can work together to provide enough power to be useful. The more light that hits a cell the more electricity it produces, so spacecraft are usually designed with solar panels that can always be pointed at the Sun even as the rest of the body of the spacecraft moves around, much as a tank turret can be aimed independently of where the tank is going.....[Read more](#)

➤ E-WASTE RECYCLING PLANT

Electronic waste, e-waste, e-scrap, or Waste Electrical and Electronic Equipment (WEEE) is a loose category of surplus, obsolete, broken, or discarded electrical or electronic devices.....[Read more](#)

➤ HERBAL COSMETICS

The growing environmental concern of the last decade and more has also shifted the focus to the use of ecologically friendly products which has in turn, spurred the cosmetic industry to look for alternative. The use of herbs for medicinal and cosmetic purposes goes back to ancient times in our country.....[Read more](#)

➤ HERBS PLANTATION (MEDICINAL)

Every herbal plant have its own specific use for the production of specific drugs from specific herb. The only countries in the world with significant prescription sales of herbal medicines are China, India, Japan and Germany. Most sales of herbal medicine in North America and Europe are of over the country.....[Read more](#)

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

- 5. What is the total project cost for setting up the plant?**
- 6. What are the operating costs for setting up the plant?**
- 7. What are the machinery and equipment requirements for setting up the plant?**
- 8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
- 9. What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- **The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **The report provides vital information on the product like it's characteristics and segmentation**
- **The report helps you market and place the product correctly by identifying the target customer group of the product**

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](http://www.entrepreneurindia.co)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are We Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
