

Wood Pulp Manufacturing Business.

Setting up Pulp Production Plant.

Pulp for Papermaking

Introduction

Wood pulp is wood that has been cut up into small pieces and crushed. Wood pulp is used to make paper. The quality of wood pulp plays a major role in deciding the absorbing quality of sanitary napkins.

Wood pulp is naturally derived from trees, cotton and other plant materials. It's lightweight, strong, a conductor of electricity, isn't harmful to humans and can be produced at almost no cost.

Indeed, pulp mills are becoming more than just a source of wood pulp nowadays. The new generation of pulp mill is a platform for extracting environmentally-friendly and sustainable raw materials from wood for applications which have long been dominated by synthetic raw materials and chemicals.

Wood pulps may be classified into two general groups, mechanical and chemical. Mechanical pulp, generally called ground wood, is usually produced by a mechanical grinding process and is not further classified except as fine, coarse, or bleached.

Chemical pulps are classed as unbleached sulfite (strong and news grade), bleached sulfite (dissolving and paper grade), bleached and unbleached sulfate (kraft), and soda. “Semi chemical” is a term applied to a process of cooking followed by mechanical treatment. Spruce, balsam fir, and hemlock are considered the best woods for sulfite and mechanical pulping; several varieties of pine are used for sulfate (kraft) pulping; hardwoods are pulped by all of the pulping processes.

Wood pulp is one of the most important global traded products due to its high demand in the paper production industry. The production and trade of wood pulp have become the most important industries in many countries. The pulp is a lignocellulosic fibrous material prepared by chemically or mechanically separating cellulose fibers from wood, fiber crops, or waste paper.

Market Outlook

The increasing use of cellulose Nano fibers is one of the major trends being witnessed in the global dissolving wood pulp (DWP) market 2018-2022. Cellulose Nano fibers are fabricated via electro spinning of DWP and are widely used in various applications such as cosmetics manufacturing, food industry, and Nano composites. Cellulose Nano fibers can also be used to manufacture medicines, electronic devices, and filter materials. Thus, DWP producers will focus on the manufacturing of cellulose Nano fibers during the forecast period.

The global wood pulp market is expected to witness a CAGR of 2.1% during the forecast period (2018 – 2023). In 2015, US exported USD 8,704,333 thousand worth of wood pulp, while in the year 2016 the imports totaled USD 8,442,556 thousand. It exports most of its wood pulp to China, India, Japan Canada, and Indonesia.

Wood Pulp Market: Major Exporters, by Value in %, Global, 2016

■ USA ■ Canada ■ Brazil ■ Chile ■ Sweden ■ Others

The most important factor driving the wood pulp industry is the growing global demand and consumption for tissue paper. The US is the largest consumer of tissue paper in the world, on an average 25 kg of tissue is used annually per person in the country. In the US, 37% of the tissue used is in the kitchen as kitchen towel.

A noticeable trend in the global pulp market is the solid adoption of chemical wood pulp for, fine manufacturing high quality paper. Further, semi-chemical pulping is used in preparing neutral solutions that find usage in cooking wood chips. The semi-chemical pulping is comparatively cheaper than pulp manufactured from other chemicals, and this is boding well for their uptake in manufacturing magazines, paper boards, cartons, and tissue paper.

Wood pulp imports are expected to increase from 18 million tonnes in 2014 to 20.7 million tonnes in 2017 and 24.3 million by 2022.

India is one of the largest importers of wood pulp in the world. With a population of about 1.2 billion people, the demand for paper and wood pulp is very high in India. Despite this harvesting timber for commercial use has been heavily restricted, therefore India has to import wood pulp to meet its growing domestic market demand. With a large population and limited resource access, India remains an attractive market for global wood pulp exporters.

Major Queries/Questions Answered in the Report?

- 1. What is Wood Pulp Manufacturing industry ?**
- 2. How has the Wood Pulp Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Wood Pulp Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Wood Pulp Manufacturing plant ?**

- 5. What is the structure of the Wood Pulp Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Wood Pulp Manufacturing Business?**
- 7. What are the operating costs for setting up Wood Pulp Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Wood Pulp Manufacturing plant ?**

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Wood Pulp Manufacturing plant ?

10. What are the requirements of raw material for setting up Wood Pulp Manufacturing plant ?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Wood Pulp Manufacturing Business?

12. What is the Manufacturing Process of Wood Pulp?

- 13. What is the total size of land required for setting up Wood Pulp Manufacturing plant ?**
- 14. What will be the income and expenditures for Wood Pulp Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Wood Pulp Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Wood Pulp Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Wood Pulp Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Wood Pulp Manufacturing Business?

19. What are Statistics of Import & Export for Wood Pulp?

20. What is the time required to break-even of Wood Pulp Manufacturing Business?

21. What is the Break-Even Analysis of Wood Pulp Manufacturing plant?

22. What are the Project financials of Wood Pulp Manufacturing Business?

- 23. What are the Profitability Ratios of Wood Pulp Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Wood Pulp Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Wood Pulp Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Wood Pulp Manufacturing project?**

- 27. What are the Market Opportunities for setting up Wood Pulp Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Wood Pulp Manufacturing Business?**
- 29. What is the Plant Layout for setting up Wood Pulp Manufacturing Business?**

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Wood Pulp.” provides an insight into Wood Pulp market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Wood Pulp project. The report assesses the market sizing and growth of the Indian Wood Pulp Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Wood Pulp sector in India along with its business prospects. Through this report we have identified Wood Pulp project as a lucrative investment avenue.

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

www.entrepreneurindia.co

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
- *Business Plan*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
