Dry Fruits Processing
(Dry Fruits & Nuts, fruit for snack, Dried Fruit, Fruit processing, Almond, Pistachio, Cashew Nut)

Every person needs good health and for good health we want good things for care of our health. To attain good health it is essential to follow good nutrition, regular exercise & regulation in sexual activity. To achieve good health we must have good foods which are naturally available just as nuts, fruits, vegetables, cereals etc.
Dry fruits are the best way to achieve good health. They are excellent source of vitamins and enzymes. People who have this natural diet will always enjoy good health because they are easy to digest and clean the blood. We have many qualities of dry fruits like raisins, walnuts, almond, sweet almond etc. They all are helping us for maintaining good health. Nevertheless the leading world regions growing pistachios include all Iran, Turkey and the San Joaquin valley in California. At present the largest supplier of pistachios to the USA is Turkey.
The nuts and dry fruits industry in India is a very old one. Nuts and dried fruits are a favourable alternative to unhealthy snacking and to the consumption of meat, and they are more in keeping with a healthy lifestyle. However, competition in this market is increasing. Furthermore, retail requirements will put more pressure on the processing industry and, ultimately, on exporters from developing countries. Dried fruit is part of the market for preserved fruit and vegetables. Dried fruit is mainly used as a snack or in breakfast cereals, muesli, bakery products, dairy products and desserts.
Bakery products and breakfast cereal mixes are the largest end users of dried fruit. Consumption of nuts and dried fruits is steadily increasing, and is being driven by changing lifestyles and rising health consciousness, which is reflected in growing focus on preventive healthcare against the backdrop of rising healthcare expenditures. In India, nuts and dry fruits have just started making a place for themselves on the health plate.

The dried fruit market in the India has enjoyed growth, benefiting from the ever growing demand for snacking products and interest in healthy eating.
Ease of storage, long shelf-life, easy portability, minimal seasonality issues, and natural resistance to spoilage are making nuts and dried fruits a popular snacking option.

A combination of factors such as increasing awareness of health needs, increasing disposable income levels, better availability, right packaging, consistent quality, adequate product communication (labelling), newer products such as Hazelnuts, Pecan Nuts, etc, are leading to a healthy growth of >10 percent year on year for the Nuts and Dry Fruits industry in volume terms.

Niir Project Consultancy Services

An ISO 9001:2008 Company

www.entrepreneurindia.co
Who are we?

○ One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services

○ We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Technology Books and Directory
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision
Our Approach

- Requirement collection
- Thorough analysis of the project
- Economic feasibility study of the Project
- Market potential survey/research
- Report Compilation
