Electrical Power Transformers (Repair & Refurbishment)

Transformer is a machine that transfers electrical energy from one electrical circuit to another without changing frequency by the principle of electromagnetic induction. Since its basic construction requires no moving parts so it is often called the static transformer and it is very rugged machine requiring the minimum amount of repair and maintenance.
The term is used to include all transformers of large sizes (250kva and above) used in generating stations and substations for transforming the voltage at each end of a power transmission line. They may be single or three phase and voltage rating of 220/11kv or in high voltage range. They are kept in operation all the 24 hours a day. In such transformer iron loss occur for all the time where copper loss occur only when they are loaded.
Electric equipment industry contributes over 2% of GDP which is projected to increase to about 12% in last year. During the period, consumption of electrical equipment is estimated to increase from over USD 28 bn now to USD 363 bn, growing at a CAGR of about 30%.
The electrical equipment and accessories industry, with its highly diversified content, may be broadly segmented into (i) generation equipment, (ii) transmission equipment, and (iii) distribution equipment. According to the Power Ministry, the power sector has tied up Rs. 2,240 bn worth of investments to build power plants with 70,000 MW capacity in the next three years. Thus, as an entrepreneur this project offers an exciting opportunity to you.
Market Outlook

The transformer market in India is estimated to be over Rs 12,000 crores where power transformers contribute 45 per cent of the total market and distribution transformers contribute 55 per cent. India’s transformer market is predominantly unorganised with many small participants catering to the smaller distribution transformer markets.
The India Power & Distribution Transformer market is forecast to reach $2.9 billion by 2022.

The power transformers market revenues in India are expected to grow at the CAGR of 14% till 2018. Under the 12th Five Year Plan (2012-17), the government plans to spend USD 200 Billion on developing and strengthening power infrastructure in India.
The Government of India has projected an investment of $22 billion in power transmission sector by fiscal year 2019 to strengthen the transmission network thus increasing the demand for power transformers. The Global Transformers market is accounted for $13.7 billion in 2015 and is expected to reach $24.4 billion by 2022 growing at a CAGR of 8.6% from 2015 to 2022.
The distribution transformer market is segmented on the basis of power rating, mounting type, phase, and insulating type. In sub segment of insulation type segment, the major share was held with liquid immersed type transformer in 2015. Due to rising usage in the commercial as well as purposes and modern infrastructure.
Europe Power Transformer Market Size, By Product, 2012-2022 (USD Billion)
Few Indian Major Players are as under

- Vijay Electricals
- BHEL
- EMCO
- Indo Tech Transformers
- Kirlosker Electric Co.
- Kanohar Electricals

# Major Queries/Questions Answered in the Report

1. **What is Electrical Power Transformers (Repair & Refurbishment) industry?**

2. **How has the Electrical Power Transformers (Repair & Refurbishment) industry performed so far and how will it perform in the coming years?**

3. **What is the Project Feasibility of Electrical Power Transformers (Repair & Refurbishment) Plant?**

4. **What are the requirements of Working Capital for setting up Electrical Power Transformers (Repair & Refurbishment) plant?**
5. What is the structure of the Electrical Power Transformers (Repair & Refurbishment) Business and who are the key/major players?

6. What is the total project cost for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

7. What are the operating costs for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

8. What are the machinery and equipment requirements for setting up Electrical Power Transformers (Repair & Refurbishment) plant?
9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting Electrical Power Transformers (Repair & Refurbishment) plant?

10. What are the requirements of raw material for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

12. What is the Manufacturing Process of Electrical Power Transformers (Repair & Refurbishment) plant?
13. What is the total size of land required for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

14. What will be the income and expenditures for Electrical Power Transformers (Repair & Refurbishment) plant?

15. What are the Projected Balance Sheets of Electrical Power Transformers (Repair & Refurbishment) plant?

16. What are the requirement of utilities and overheads for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

17. What is the Built up Area Requirement and cost for setting up Electrical Power Transformers (Repair & Refurbishment) Business?
18. What are the Personnel (Manpower) Requirements for setting up Electrical Power Transformers (Repair & Refurbishment) Business?

19. What is the Plant Layout for setting up Electrical Power Transformers (Repair & Refurbishment) Business?

20. What is the time required to break-even of Electrical Power Transformers (Repair & Refurbishment) Business?

21. What is the Break-Even Analysis of Electrical Power Transformers (Repair & Refurbishment) plant?

22. What are the Project financials of Electrical Power Transformers (Repair & Refurbishment) plant?
23. What are the Profitability Ratios of Electrical Power Transformers (Repair & Refurbishment) plant?

24. What is the Sensitivity Analysis-Price/Volume of Electrical Power Transformers (Repair & Refurbishment) plant?

25. What are the Projected Pay-Back Period and IRR of Electrical Power Transformers (Repair & Refurbishment) plant?

26. What is the Process Flow Sheet Diagram of Electrical Power Transformers (Repair & Refurbishment) project?
27. What are the Market Opportunities for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

28. What is the Market Study and Assessment for setting up Electrical Power Transformers (Repair & Refurbishment) plant?

Reasons for buying our report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.

• This report provides vital information on the product like it’s characteristics and segmentation.

• This report helps you market and place the product correctly by identifying the target customer group of the product.
• This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials

• The report provides a glimpse of government regulations applicable on the industry

• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Electrical Power Transformers (Repair & Refurbishment) ” provides an insight into the Electrical Power Transformers (Repair & Refurbishment) market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Electrical Power Transformers (Repair & Refurbishment) project. The report assesses the market sizing and growth of the Indian Electrical Power Transformers (Repair & Refurbishment) Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Electrical Power Transformers (Repair & Refurbishment) sector in India along with its business prospects. Through this report we have identified Electrical Power Transformers (Repair & Refurbishment) project as a lucrative investment avenue.

www.entrepreneurindia.co
Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Electrical Power Transformers (Repair & Refurbishment)

Free Instant Online Project Identification & Selection Search Facility

Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects. Here's we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website www.entrepreneurindia.co that is “Instant Online Project Identification and Selection”
NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.

An ISO 9001:2008 Company

www.entrepreneurindia.co
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services

- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization.

We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?
