Haryana is fast emerging as one of the most favoured investment destinations in India. The globalization of markets and a buoyant economy have given a tremendous impetus to the industrial sector in Haryana, which already has a competitive advantage in terms of strategic location, basic infrastructure as well as large skilled, educated and young workforce. Besides, the State has investor-friendly policy environment. However, Haryana is basically an agrarian economy, producing variety of food and cash crops, along with dairy products and fisheries. In addition, there are several places of tourist interests in the State.

Project Opportunities in Haryana:

❑ Food & Agro Processing

Haryana has made a significant contribution in agricultural production in the country. Agriculture is the mainstay of more than 75 per cent population in Haryana, with contribution of 28.2 per cent in GDP of the State. Rice, wheat, jowar, bajra, maize, barley and pulses are the major crops of the State. Under the diversification of crops, more and more area is being brought under cash crops like sugarcane, cotton, oilseeds, etc.

❑ **Automobile**

Automobile manufacturing sector constitutes Haryana's primary strength, thanks to the presence of Maruti-Suzuki, Hero-Honda, Honda Motors, Escorts which have led to the development of a large number of ancillaries in this Sector. Gurgaon-Manesar-Bawal region has been identified as an Auto Hub by the Government of India. A number of auto & auto component units have already set up base in this hub.

❑ Textiles

The Ministry of Textiles in India has formulated numerous policies and schemes for the development of the textile industry in India. The government of India has been following a policy of promoting and encouraging the handloom sector through a number of programmes. Most of the schematic interventions of the government of India in the ninth and tenth plan period have been through the state agencies and co-operative societies in the handloom industries.

❑ Power

The power industry plays a vital role in the economic development of any country. Electricity is a key driver of rapid economic growth and industrialization in the country. It is one of the critical infrastructure on which development of several economic sectors depend. India is the world's sixth largest energy consumer accounting for about 3.5% of the world's total annual energy consumption.

❑ Tourism

The state of Haryana is blessed with the bounty of nature. Tourism in India is the largest service industry, with a contribution of 6.23% to the national GDP and 8.78% of the total employment in India. The tourism industry in India is substantial and vibrant, and the country is fast becoming a major global destination. India's travel and tourism industry is one of the most profitable industries in the country, and also credited with contributing a substantial amount of foreign exchange.

❑ E-Waste Management

Gurgaon known for being the home to over two hundred Fortune 500 companies and a hub of BPOs, Gurgaon is also the biggest producer of e-waste. A recent study revealed that Gurgaon generates about 8,000 metric tonnes (MT) of e-waste every year, the highest in the country. The groundwater in Gurgaon is contaminated with lead and heavy metals because of the unregulated disposal of e-waste and other solid and liquid waste.
