Startup Projects on Beverage Industry and Food Processing Industry:

Trends, Formulations, Technology & Products
**Food Processing**

Food Processing could be defined as the process of transforming of food items into usable forms. It might include the processing of raw material through various chemical and physical process into food. Different activities involved in this process include cooking, mincing, liquefaction, canning, pickling, emulsification, and macerating.
Objectives of Food Processing

Food Technology is one of the known vast domains. It deals with the production process to make food. Food processing is done to achieve certain goals like the ones stated below:

- To boost the shelf life of food articles.
- To prevent contamination of food.
- For transport and food storage.
• To turn food products into the ones that appeal to customers.
• It holds the potential of reducing enormous wastage of agricultural produce in the absence of processing technologies and cold chain facility
• It is labour-intensive industry, which has the potential to employ 13 million people directly and 35 million people indirectly
This will also lead to increase in farm income, generate employment opportunities, foster forward and backward linkage effects, contribute to exports and integrate Indian economy with the rest of world.
Beverages

Any liquid that can quench the thirst are called beverage. Beverage is any kind of liquid.

We are always taking water, Water is a beverage item. Water, tea, coffee, milk, juice, beer and any kind of drinks item are listed in beverage items. Actually, beverage means any kind of Liquid item.
In the F&B section beverage is a most important matter because without beverage any kind of restaurant and F&B section fully valueless.

Beverage can be hot and cold or an alcohol item and the beverage can be used for everything that you can drink but sometimes it’s define gone to style of drinks like soft drinks.
Classification of Beverages

- Non-Alcoholic Beverages
- Alcoholic Beverages

Beverages
Non-Alcoholic Beverages: Non-alcoholic beverages refers to non-intoxication drinks or sweet carbonated drinks, which doesn’t have any liquor percentage or in other words yeast is not introduced to convert sugar into alcohol during the fermentation process.
Soft drinks comes in different variety like chilled, hot, bottled, canned or open liquids. The bottles or cans drinks are hygienically packed, e.g. aerated waters, mineral water, juices, squashes, syrups, smoothies, shakes etc. to be consumed as and when required.
**Alcoholic Beverages:** These are portable liquid which contain 1% to 75% of liquor. They are produced by the introduction of yeast for fermentation into substance such as Grapes, Grains, Barley, Fruits, Sugarcane and Rice.

Some examples of Alcoholic beverages are Wine, Champagne, Beer, Whiskey, Brandy, Aperitif, Digestive, Liqueur, Spirits, Sake, Rice Wine and Cocktails.
Market Outlook

India is expected to become the fifth largest consumer market in the world by 2025.

The food processing industry in India has a total turnover of around USD 65 billion which includes value added products of around USD 20.6 billion.
The Indian food processing industry accounts for 32% of the country’s total food market. Estimated to be worth USD 121 billion, it is one of the largest industries in India, and is ranked fifth in terms of production, consumption and exports. The industry employs 13 million people directly and 35 million people indirectly. It accounts for 14% of manufacturing GDP, nearly 13% of India’s exports and 6% of total industrial investment.
Currently growing at more than 10% per annum, it is expected to touch USD 194 billion by 2015.

India’s food and beverages (F&B) industry will expand at an average annual pace of 24% to reach Rs.3.8 trillion in sales by the year ending 31 March 2017.
F & B Market in India

Revenue in Billion US Dollars ($)

- 2015: $30.12
- 2016: $41.07
- 2017: $55.99
- 2018: $76.34
- 2019: $104.08
- 2020: $141.90

Expo. (Food and Beverages Market in India)
Indians spend about half of their total consumption expenditure on food.

www.entrepreneurindia.co
Liquid Food and beverage processing in India has been a rising star in recent years. More and more is being consumed, and the quality of the products is ever higher. India is widely recognized as a promising market for the liquid food and beverage industry.
The beverages category contributes 8-9 per cent to the total FG market in India. With the entry of major international beverage players over the last few decades, the market has evolved and has made way for many products, which have found an immediate connect with Indian consumers. The emergence of various brands in all segments has given an unprecedented thrust to the category over the last couple of years. Consumers can choose beverages of almost all flavours, colours, ingredients, health and nutritional values.
Global Beverage Consumption

- West Europe: 9.2%
- Africa: 4%
- North America: 8.7%
- Middle East, North Africa: 5%
- Latin America: 17.2%
- East Europe: 7.9%
- Australasia: 0.8%
- Asia: 47.2%
Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Food and Beverages

Startup Projects on Beverage Industry and Food Processing Industry: Trends, Formulations, Technology & Products

Major Queries/Questions Answered in our Report?

1. How has the industry performed so far and how will it perform in the coming years?
2. What is the Project Feasibility of the Plant?
3. What are the requirements of Working Capital for setting up the plant?
4. What is the structure of the industry and who are the key/major players?
5. What is the total project cost for setting up the plant?
6. What are the operating costs for setting up the plant?
7. What are the machinery and equipment requirements for setting up the plant?
8. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?
9. What are the requirements of raw material for setting up the plant?
10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?

11. What is the Manufacturing Process and Formulations of the plant?

12. What is the total size of land required for setting up the plant?

13. What will be the income and expenditures for the plant?

14. What are the Projected Balance Sheets of the plant?
15. What are the requirement of utilities and overheads for setting up the plant?

16. What is the Built up Area Requirement and cost for setting up the plant?

17. What are the Personnel (Manpower) Requirements for setting up the plant?

18. What are Statistics of Import & Export for the Industry?

19. What is the time required to break-even?
20. What is the Break-Even Analysis of the plant?
21. What are the Project financials of the plant?
22. What are the Profitability Ratios of the plant?
23. What is the Sensitivity Analysis-Price/Volume of the plant?
24. What are the Projected Pay-Back Period and IRR of the plant?
25. What is the Process Flow Sheet Diagram of the plant?
26. What are the Market Opportunities for setting up the plant?
27. What is the Market Study and Assessment for setting up the plant?
28. What is the Plant Layout for setting up the plant?
Reasons for buying our report:

• The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.
• The report provides vital information on the product like it’s characteristics and segmentation.
• The report helps you market and place the product correctly by identifying the target customer group of the product.
• The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
• The report provides a glimpse of government regulations applicable on the industry
• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:

• Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
• The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.
• We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

An ISO 9001:2015 Company
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Business Plan
- Market Research Reports
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision
Our Approach

- Requirement collection
- Thorough analysis of the project
- Economic feasibility study of the Project
- Market potential survey/research
- Report Compilation

www.entrepreneurindia.co
Who do we serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI’s
- Foreign Investors
- Non-profit Organizations, NBFC’s
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations
Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling
Sectors We Cover  cont...

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct
- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing
Sectors We Cover

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries
Sectors We Cover

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing (Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.
Sectors We Cover

- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.
Sectors We Cover

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals
Sectors We Cover

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable
