Hydroponic Green House Farming

Introduction

Hydroponics is a system of agriculture that utilizes nutrient-laden water rather than soil for plant nourishment. The re-use of nutrient water supplies makes process-induced eutrophication (excessive plant growth due to overabundant nutrients) and general pollution of land and water unlikely, since runoff in weather-independent facilities is not a concern.
Aeroponic and hydroponic systems do not require pesticides, require less water and space than traditional agricultural systems, and may be stacked (if outfitted with led lighting) in order to limit space use (vertical farming). This makes them optimal for use in cities, where space is particularly limited and populations are high-self-sustaining city-based food systems mean a reduced strain on distant farms, the reduction of habitat intrusions, fewer food miles, and fewer carbon emissions.
Boosted by rising consumer demand owing to better health awareness and purchasing power, production of fruits and vegetables across India has increased this year with their total yield surpassing the production of food grains. India is also a prominent exporter of Fresh Vegetables in the world.

The country has exported 6,99,600.34 MT of Fresh Vegetables other than Onion to the world for the worth of Rs. 2119.50 crores during the year 2015-16. India grows the largest number of vegetables from temperate to humid tropics and from sea-level to snowline. Thus, as an entrepreneur this project offers an exciting opportunity to you.
Market Outlook

The global hydroponics market is estimated to grow at a CAGR of 6.7% during the 2017-2022 forecast period. The hydroponics market value is anticipated to grow from USD XX million in 2016 to USD 31436.7 million by 2022. A sub-segment of hydro-culture, hydroponics is a method of growing plants using mineral nutrient solutions, in water, without soil. Hydroponics method uses two main mediums to grow crops - solution culture and solid medium culture.
This method of farming is a niche segment gaining popularity in urban, customized agriculture setup. Companies are mainly focusing on launching new products and facilities by investing in R&D activities. Partnerships and agreements with regional players are being carried out to expand the global presence by companies.
Global Hydroponics Market Revenue, by Crop Type in 2016

![Bar chart showing market revenues for different crop types in 2016. The chart indicates that Tomato has the highest revenue, followed by Crop type 4, and then Crop type 5.](chart.png)
The global hydroponics market is projected to reach USD 395.2 Million by 2020, growing at a CAGR of 16.8% from 2015 to 2020.

Global hydroponics crop value is anticipated to grow from USD 18.8 billion in 2014 to USD 27.29 Billion by 2020 at an estimated CAGR of 6.39% from 2015 to 2020.
Hydroponics Market Size, by Region (2015-2020)

Major Queries/Questions Answered in the Report?

1. What is Hydroponic Green House Farming?

2. How has the Hydroponic Green House performed so far and how will it perform in the coming years?

3. What is the Project Feasibility of Hydroponic Green House Farm?

4. What are the requirements of Working Capital for setting up Hydroponic Green House Farm?
5. What is the structure of the Hydroponic Green House Farming Business and who are the key/major players?

6. What is the total project cost for setting up Hydroponic Green House Farm?

7. What are the operating costs for setting up Hydroponic Green House Farm?

8. What are the machinery and equipment requirements for setting up Hydroponic Green House Farm?
9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Hydroponic Green House Farming?

10. What are the requirements of raw material for setting up Hydroponic Green House Farming plant?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Hydroponic Green House Farming?
12. What is the total size of land required for setting up Hydroponic Green House Farm?

13. What will be the income and expenditures for a Hydroponic Green House Farming?

14. What are the Projected Balance Sheets of Hydroponic Green House Farming?

15. What are the requirement of utilities and overheads for setting up Hydroponic Green House Farm?

16. What is the Built up Area Requirement and cost for setting up Hydroponic Green House Farming Business?
17. What are the Personnel (Manpower) Requirements for setting up Hydroponic Green House Farming Business?

18. What is the time required to break-even of Hydroponic Green House Farming Business?

19. What is the Break-Even Analysis of Hydroponic Green House Farming Business?

20. What are the Project financials of Hydroponic Green House Farming Business?
21. What are the Profitability Ratios of Hydroponic Green House Farming Business?

22. What is the Sensitivity Analysis-Price/Volume of Hydroponic Green House Farming Business?

23. What are the Projected Pay-Back Period and IRR of Hydroponic Green House Farming Business?

24. What is the Process Flow Sheet Diagram of a Hydroponic Green House Farming project?
25. What are the Market Opportunities for setting up Hydroponic Green House Farming Business?

26. What is the Market Study and Assessment for setting up a Hydroponic Green House Farming Business?

27. What is the Plant Layout for setting up a Hydroponic Green House Farming Business?

Reasons for buying our report:

• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product.

• This report provides vital information on the product like its characteristics and segmentation.

• This report helps you market and place the product correctly by identifying the target customer group of the product.
This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials.

The report provides a glimpse of government regulations applicable on the industry.

The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions.
Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players.
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report.
Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Hydroponic Green House Farming” provides an insight into the Hydroponic Green House Farming market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Hydroponic Green House Farming project. The report assesses the market sizing and growth of the Indian Hydroponic Green House Farming Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Hydroponic Green House Farming sector in India along with its business prospects. Through this report we have identified Hydroponic Green House Farming project as a lucrative investment avenue.
Niir Project Consultancy Services (NPCS) can provide Detailed Project Report on Hydroponic Green House Farming.

Free Instant Online Project Identification & Selection Search Facility

Selection process starts with the generation of a product idea. In order to select the most promising project, the entrepreneur needs to generate a few ideas about the possible projects. Here’s we offer a best and easiest way for every entrepreneur to searching criteria of projects on our website www.entrepreneurindia.co that is “Instant Online Project Identification and Selection”

www.entrepreneurindia.co
NPCS Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.

Niir Project Consultancy Services
An ISO 9001:2008 Company
Who are we?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services.

- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients’ in India & abroad.
We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

www.entrepreneurindia.co
We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.
What do we offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- Market Research Reports
- Business Plan
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)
How are we different?

- We have two decades long experience in project consultancy and market research field.
- We empower our customers with the prerequisite know-how to take sound business decisions.
- We help catalyze business growth by providing distinctive and profound market analysis.
- We serve a wide array of customers, from individual entrepreneurs to corporations and foreign investors.
- We use authentic & reliable sources to ensure business precision.
Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
Who do we serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI’s
- Foreign Investors
- Non-profit Organizations, NBFC’s
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

www.entrepreneurindia.co
Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
