The Complete Book on Ginger Cultivation and Manufacture of Value Added Ginger Products (Ginger Storage, Ginger Oil, Ginger Powder, Ginger Paste, Ginger Beer, Instant Ginger Powder Drink and Dry Ginger from Green Ginger)

Code	NI308
Format	paperback
Indian Price	₹1575
US Price	\$150
Pages	352
ISBN	9789381039854

Description

Ginger is the common name for *Zingiber officinale*, which was originally cultivated in China and now equally spread around the world. Ginger is a herb but is often known as a spice, with a strong distinct flavor that can increase the production of saliva. The part that is used as spice on the plant itself is the rhizomes or ginger root. This ginger root is traditionally used with sweet foods in Western cuisine being included in popular recipes such as ginger ale, gingerbread, ginger biscuits and ginger cake. It is also used in many countries as a medicinal ingredient which many believe in. Historically, ginger has a long tradition of being very effective in alleviating symptoms of gastrointestinal distress. In herbal medicine, ginger is regarded as an excellent carminative and intestinal spasmolytic. Modern scientific research has revealed that ginger possesses numerous therapeutic properties including antioxidant effects, an ability to inhibit the formation of inflammatory compounds, and direct anti-inflammatory effects.

India is the leading producer of ginger oil and dominates the ginger oil market with almost half shares out of total market. China is also known for ginger production and trade of ginger oil. Asia Pacific mainly exports ginger oil to North America and European markets.

Increasing number of health conscious consumers, and their demands for natural oils and extracts based products is the major factor driving growth for essential oils and in turn ginger oil market. Ginger is majorly used in spices and thus ginger oils and oleoresins are preferred to prepared dried spices as flavoring in food industry, because they are more stable, contamination free, cleaner and can be easily standardized by blending. Thus the growth of food industry and spices demand are another factors driving growth of ginger oil market. The growth of natural personal care products industry is another growth driver for ginger oil market.

The major content of the book are Ginger Cultivation, Farm and Forestry Production for Ginger, Diseases & Pest Management in Ginger, Medicinal Values of Ginger, Active Ingredients of Ginger, Pharmacological Activity of Ginger, Ginger Storage, Ginger Processing, Ginger Oleoresin, Ginger Oil, Ginger Beer, Ginger Powder, Ginger Paste, Instant Ginger Powder Drink, Ginger Candy, Dry Ginger from Green Ginger, Extraction of Ginger Oleoresin from Ginger-Root Using Co₂, Production of Ginger Rhizome by Shoot-Tip Culture, Extraction of Essential Oils from Ginger Rhizome Using Steam Distillation Method, Packaging and Labelling BIS Specifications, Good Manufacturing Practices, Sample Plant Layouts, Photographs of Machinery with Suppliers Contact

Details.

This book will be a mile stone for its readers who are new to this sector, will also find useful for professionals, entrepreneurs, those studying and researching in this important area.

Content

1. INTRODUCTION

History and Origin of Ginger

Processing of Ginger

Peeling

Drying

Storage

Bleached Ginger

Transplanting Technology for Reduction of Seed

Cost

Technology

Manuring

Irrigation

Inter Cultivation

Inter Cropping and Crop Rotation

Uses of Ginger

Best Ways to Use Ginger

Bioactive Components of Ginger

Metabolism of Ginger

Properties

Applications of Ginger

Ginger Health Benefits

1. Stroke and Heart Disease

2. Indigestion and Nausea

3. Malabsorption

4. Compromised Immunity and Respiratory

Function

5. Bacterial Infections

Healing Properties

Cosmetic Uses of Ginger

Nutritional Value of Ginger

Nutrient Profile for Ginger

2. GINGER CULTIVATION

Climate and Soil
Soil for Ginger Farming
Varieties
Planting Season
Preparation of Land
Manures and Fertilisers
Mulching
Crop Nutrition
Nitrogen
Potassium
Phosphorus
Calcium
Earthing up
Growth Regulators
Harvesting and Curing
Production Technology
Seed Size
Seed Rate
Seed Treatment
Planting
Spacing
Depth of Planting
Crop Rotation
Storage of Seed Rhizomes
Alternate Method of Ginger Production
3. FARM AND FORESTRY PRODUCTION FOR
GINGER
Uses and Products
Botanical Description
Brief Botanical Description
Distribution
Environmental Preferences and Tolerances
Climate
Soils
Growth and Development
Agroforestry and Environmental Services
Propagation and Planting
Cultivation
Special Horticultural Techniques
Advantages and Disadvantages of Growing in
Polycultures

Pests and Diseases

Susceptibility to Pests/Pathogens

Preventing and Treating Problem Pests and Diseases

Disadvantages of this Crop

Potential for Invasiveness

Commercial Production

Postharvest Handling and Processing

4. DISEASES & PEST MANAGEMENT IN GINGER

Diseases

1. Soft Rot or Paheli: *Pythium Aphanidrematum*

Management

2. Dry Rot: *Fusarium* and *Pratylenchus* Complex

Management

3. Leaf Spot/Blight: *Phyllosticta Zingiberi*

Management

4. Bacteri al Wi l t or Prem Rog: *Ral stoni a*

Solanacearum

Integrated Pest and Disease Management for

Ginger

5. MEDICINAL VALUES OF GINGER

Active Compounds in Ginger

Anti-Inflammatory & Anti-Oxidant

Nausea

Digestion

Cholesterol

Cancer

Anti-Bacterial

Migraines

Drug Interactions

Malabsorption

Bacterial Diarrhea

Anticarcinogenic Activities of Ginger

Therapeutic Health Benefits of Ginger

Ginger as Growth Promoter

Osteoarthritis

Use of Ginger as a Traditional Medicine

Role of Ginger and Its Constituents in Prevention and Treatment of Gastrointestinal Cancer

Gastric Cancer

Pancreatic Cancer

Liver Cancer
Colorectal Cancer
Cholangiocarcinoma
Clinical Studies of Ginger against GI Cancer
Ayurveda Health Benefits of Ginger
Trikatu for Weak Digestion
Dry Ginger is Hot and Warms the Lungs and
Dries Cold Phlegm
Fresh Ginger Warms the Stomach and Promotes
Digestion and Absorption
Fresh Ginger to Disperse Cold, and to Treat
Colds and Coughs
Ginger Root Contraindicated in Pitta Elevation
Ginger Root in Ayurvedic Churnas
6. ACTIVE INGREDIENTS OF GINGER
Introduction
Chemical Structure of Active Constituents
Mechanism of Action of Ginger in Diseases
Management
7. PHARMACOLOGICAL ACTIVITY OF GINGER
Introduction
Pharmacology
Antiemetic Effects
Anti-Inflammatory Effects
Antioxidant Effects
Cardiovascular Effects
Gastrointestinal Effects
Antitussive Effects
Immunomodulatory Effects
Lipid Effects
Weight Loss Effects
Antiarthritic Effect
Antimicrobial Activities
Radio Protective Activity
Antigenotoxic Activity
Mutagenicity
8. GINGER STORAGE
Types of Ginger
Composition of Ginger
Ginger Storage Process
Controlled Temperature and Humidity Storage

9. GINGER PROCESSING

Introduction

Forms of Ginger

Processing Dried Ginger

Making Dried Ginger

Quality Assurance of Dried Ginger

Grading

Grinding

Packaging

Storage

Ginger Oil Distillation

Advantages of Ginger Dehydration

1. Enhance Ginger's Value

2. More Cost-Effective

3. Wide Application

Hot-Air Circulation Drying Technology

Process Flow Sheet

10. GINGER OLEORESIN

Uses

11. GINGER OIL

Introduction

Solubility

Chemical Composition

Uses and Application

Packing and Marking

Manufacturing Process

Preparation of Raw Material

Cleaning

Milling

Soaking

Loading or Charging

Bleaching of Ginger

Practice of Distillation

Steam Distillation

End of Distillation

Treatment of the Volatile Oil

Treatment of the Distillation Water

Manufacturing Process Flow Diagram

Rectification of Essential Oils

Problems Relating to Steam Distillation

Environment Pollution and Effluent Treatment

12. GINGER BEER

Ginger Beer

Root Beer

Ancient Root Beer Heritage

Best Ginger Beers

13. GINGER POWDER

Introduction

Properties

Uses of Ginger Powder

Manufacturing Process of Ginger Powder

Process Flow Sheet

14. GINGER PASTE

Properties of Ginger Paste

Uses of Ginger Paste

Chemical & Physical Specification of Ginger

Manufacturing Process

Process Flow Diagram

15. INSTANT GINGER POWDER DRINK

Introduction

Etymology

Chemistry

Uses

Culinary Use

Ginger Acts as a Useful Food Preservative

Regional Use

Properties

1. Citric Acid

2. Measurement

3. Sodium Benzoate

Manufacturing Process

16. GINGER CANDY 201

Ginger Candy

Flow Chart of Technology/Process

17. DRY GINGER FROM GREEN GINGER

Introduction

History

Uses and Application

Composition of Dry Ginger

Manufacturing Process

Process of Manufacture

Ginger not Divested of Cork

Ginger Clivested of Cork

Grinding

Progress Flow Sheet

18. EXTRACTION OF GINGER OLEORESIN FROM GINGER-ROOT USING CO₂

Environmental Significance

Equipment Descriptions

Necessary Information and Simulation Hints

19. PRODUCTION OF GINGER RHIZOME BY SHOOT-TIP CULTURE

Introduction

Field Study

Effect of Tissue Cultured Rhizomes of Ginger

20. EXTRACTION OF ESSENTIAL OILS FROM GINGER RHIZOME USING STEAM DISTILLATION METHOD

Overview of Ginger

Physical Properties of Ginger

Usage of Ginger

Usual Methods of Obtaining Ginger Essential Oil

Steam Distillation

Problem Statement

Separation Processes

(i) Absorption

(ii) Distillation

(iii) Liquid-Liquid Extraction

(iv) Leaching

(v) Membrane Processing

(vi) Crystallization

(vii) Adsorption

(viii) Ion Exchange

- Purification

- Concentration

- Fractionation

Extraction

Distillation

21. PACKAGING AND LABELLING

Functions of Packaging

22. BIS SPECIFICATIONS

23. GOOD MANUFACTURING PRACTICES

1. Storage of Raw Materials

2. Tempering/Thawing of Frozen Materials

3. Processing

Post-Processing Handling

i) Facility Design

ii) Sanitation

iii) Employees

Material Handling

4. Storage of Finished Product

5. Loading and Shipping

Management of Hygiene Aspects

Environmental Monitoring

Temperature Monitoring

Design and Facilities

i) Principles and Concepts of GMP

ii) Establishment: Design and Facilities

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
