Description

The India sugarcane bagasse biodegradable disposable tableware market is expected to grow significantly owing to the growing popularity of bagasse tableware productsacross residential, institutional, and commercial sectors due to their eco-friendly nature

The India sugarcane bagasse biodegradable disposable tableware market size was valued at USD 161.37 Million in 2021 and is expected to reach USD 359.84 Million by 2030 at a CAGR of 9.45% during the forecast period 2022-30. The market growth is attributed to the growing demand for sustainable and eco-friendly tableware along with the increasing consumer awareness of environmental concerns and Indian government restrictions on using single-use plastic products. Additionally, the high availability of sugarcane due to its high production in India is the major factor for the growth of the India sugarcane bagasse biodegradable disposable tableware market. Further, an increasing number of consumers are growing environmentally conscious, and the demand for bagasse tableware is anticipated to rise in the upcoming months and years. In comparison with other materials, bagasse tableware is eco-friendlier and sustainable since it can be composted easily. Such trends are creating revenue opportunities for manufacturers in the bagasse plates market since bagasse has a longer lifespan than other materials and can be used to make several biodegradable plates, cups, and boxes, among others.

Rising disposable income, along with increasing consumer awareness about the benefits associated with the use of biodegradable tableware, is expected to drive the market. Consumers' preference for safe, reliable, and hygienic product delivery has led food service providers to choose bagasse tableware products as a perfect packaging solution. The easy availability of sugarcane in India at much lower costs makes it an attractive destination for manufacturers of bagasse tableware products, and the trend is likely to continue during the forecast period. Commercial establishments like hotels, restaurants, and cafes are increasingly adopting bagasse tableware products as an ideal alternative to plastic ones. This is helping them to cut down plastic usage, reduce pollution levels, and gain consumer confidence.
