India Lithium Ion Battery Recycling Market, Growth Rate, Size, Share, Drivers, Competitive Landscape, Opportunity, Forecast upto 2030

Code	NI365
Format	paperback
Indian Price	₹33630
US Price	$500
Pages	32

ISBN	9788196915384
Publisher	NIIR PROJECT CONSULTANCY SERVICES

Description

This insightful analysis delves into the current state, future growth potential, and key trends shaping this dynamic sector, poised to play a crucial role in India's sustainable development journey.

Market Overview:

• The report projects the India Lithium Ion Battery Recycling Market to reach a staggering USD [Market Size] by 2030, witnessing a robust CAGR of [CAGR]%. This exponential growth is fueled by the surging demand for electric vehicles (EVs) and the increasing need for responsible battery management.

• Figure 1 illustrates this trajectory, highlighting the projected market value from 2017 to 2030.

Key Drivers:

The report identifies several key drivers propelling market expansion:

• Rising EV adoption: Figure 2 showcases the exponential growth in EV sales in India, further amplifying the demand for efficient battery recycling solutions.

• Growing demand in the power industry: The increasing integration of lithium-ion batteries in grid storage solutions necessitates robust recycling infrastructure.

• Supportive government policies: Initiatives like the Battery WEEE Rules 2020 and PLI schemes for battery manufacturing are creating a conducive environment for the recycling sector.

Opportunities:

The report emphasizes lucrative opportunities for market participants:

• Commercialization of recycling technologies: Advancements in hydrometallurgical and pyrometallurgical processes present exciting possibilities for efficient and cost-effective battery recycling.

• Strategic partnerships: Collaboration between established players and startups can accelerate innovation and market penetration.

Challenges:

The report acknowledges potential hurdles that need to be addressed:

• High recycling costs: Developing cost-competitive recycling processes remains crucial for wider adoption.

• Safety concerns: Stringent regulations and safety protocols are essential for handling spent batteries.

Competitive Landscape:

The report provides in-depth analysis of key players like Attero Recycling, LOHUM, SungEel India Recycling, and Eco Recycling, offering insights into their:

• Business overviews
• Financial performance
• Key solutions and services
• Recent developments
• Key personnel

About NIIR Project Consultancy Services (NPCS):

NIIR Project Consultancy Services (NPCS) is a leading ISO 9001:2015 certified consultancy firm providing comprehensive industrial market research, technical consulting, and project feasibility reports. With a proven track record of empowering entrepreneurs and investors, NPCS is committed to delivering high-quality, data-driven insights to support informed decision-making.

Content

Table of Contents:

1 Research Objective
Objective of the study
1.1 Product Overview
1.2 Analysis Period of the Study
1.3 Data Reporting Unit
1.4 Key Stakeholders
2 Research Methodology
2.1 Research Methodology
2.2 Regional Split of Primary & Secondary Research
2.3 Secondary Research
2.4 Primary Research
2.4.1 Breakdown of Primary Research Respondents, By Industry Participants
2.5 Market Size Estimation
2.6 Assumptions for the Study
3 Current India Lithium Ion Battery Recycling Market Scenario
4 India Lithium Ion Battery Recycling Market Overview
4.1 India Lithium Ion Battery Recycling Market Size & Forecast
5 Market Dynamics
5.1 Drivers
5.1.1 Rise in Demand for Electric Vehicles
5.1.2 Increasing Demand for Lithium Ion Battery in Power Industry Market

5.2 Opportunity
5.2.1 Supportive Policies and Initiatives of Indian Government for Lithium-ion Battery Industry
5.3 Trends
5.3.1 Growing Efforts to Propel Commercialization of Battery Recycling Industry
5.4 Challenges
5.4.1 High Cost of Recycling and Dearth of Technologies
5.4.2 Safety Issues Related to Storage and Transportation of Spent Batteries
5.5 Indian Government Regulatory Framework and Policy for Lithium Battery Recycling Market
5.6 New Investment Analysis in Lithium Battery Recycling Market
6 Competitive Analysis
Company Profiles
6.1 Attero Recycling Pvt Ltd
6.1.1 Business Overview
6.1.2 Financial Overview (USD Million)
6.1.3 Key Solution and Services
6.1.4 Recent Developments
6.1.5 Key Personnel
6.2 LOHUM
6.2.1 Business Overview
6.2.2 Financial Overview (USD Million)
6.2.3 Key Lithium Ion Battery Recycling Solutions
6.2.4 Key Personnel
6.3 SungEel India Recycling Pvt Ltd
6.3.1 Business Overview
6.3.2 Key Lithium Ion Battery Recycling Solutions
6.3.3 Key Personnel
6.4 Eco Recycling Ltd (Ecoreco)
6.4.1 Business Overview
6.4.2 Financial Overview (USD Million)
6.4.3 Key Lithium Ion Battery Recycling Solutions
6.4.4 Recent Developments
6.4.5 Key Personnel
List of Figure
Figure 1 India Lithium Ion Battery Recycling Market Value (USD Million) from 2017-2030
Figure 2: Retail Sales of EV in in India in First 11 Month of Cumulative Year 2022-23
Figure 3: Lithium-Ion Battery Price Worldwide from 2013 to 2023 (In USD Per kilowatt-hour)
List of Tables

Table 1 Attero Recycling Pvt Ltd– Overview
Table 2 LOHUM– Overview
Table 3 SungEel India Recycling Pvt Ltd– Overview
Table 4 Eco Recycling Ltd (Ecoreco) – Overview

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
