Modern Technology of Agro Processing & Agricultural Waste Products

Code	NI11
Format	paperback
Indian Price	₹975
US Price	\$100
Pages	504
ISBN	8186623493
Publisher	National Institute of Industrial Research

Description

Agriculture being a foundation stone for most budding economies, it would be benefiting to know about agro processing and waste management of agriculture produce. The book will act as an encyclopaedia for enriched information on the processing of a variety of products manufactured from agro crops and the waste management of agriculture products. Agro processing can be defined as set of techno economic activities carried out for preservation and treatment of agricultural produce and to make it useful as food, feed, fibre, fuel or manufacturing objects . Therefore, the span of the agro-processing industry covers all operations from the phase of harvest to the phase where the material reaches the end users in the desired form, packaging, quantity, quality and price. Agro processing is a complex process and a clear understanding will certainly help to grow your business. The agro processing is functional to all the produces, originating from agricultural farm, livestock, aqua cultural sources and forests for their preservation, treatment and value-addition to make them serviceable as food, feed, fibre, fuel or industrial raw materials.

The book deals with varied information on the agro product like Quality Parameters of Dehydrated Fruits and Vegetables, Fruit Specific Preservation Technologies, General Properties of Fruits and Vegetables; Chemical Composition and Nutritional Aspects; Structural Features. Some chapters provide information on the various by products of agro products like Alcohol from Potatoes, Activated Carbon from Saw Dust, Rice Husk and Coconut Shells, Cattle Feed from Molasses, Bio coal Briquettes from Agriculture Cellulosic Waste, Maize Processing for Glucose etc.

The book also gives a touch to the growth of agro processing Industries in India that has experienced expansion during last 5 decades, starting with a handful of facilities to the present level. The book in addition contains the number of products made from agricultural waste. With the current expansion and growth of agro processing and the waste management the book will render you comprehensive information on the project profiles, requirements of basic infrastructure like plant, machinery and raw materials and the addresses of their suppliers.

Agro processing has recently emerged as the dawn sector of the Indian economy with its enormous prospective for growth and direct assistance to economic aspect especially on employment and income generation. A number of estimates propose that in developed countries, up to 14 per cent of the total labour force is engaged in agro-processing sector directly or indirectly. Though, in India, a meagre number of 3 per cent of the work force finds employment in this sector revealing its underdeveloped state and vast untapped potential for employment. The book will provide you comprehensive information to tap the opportunities available in the sector.

Content

1. Quality Parameters of Dehydrated Fruits and Vegetables
 2. Shelf-Life of Maize-Soya Based Ready-to-Eat Extruded Snacks
 3. Growth of Agro Processing Industries in India
 4. General Properties of Fruits and Vegetables; Chemical Composition and Nutritional Aspects; Structural Features
 5. General Procedures for Fruit and Vegetable Preservation
 6. Packaging Materials
 7. Fruit Specific Preservation Technologies
 8. Castor Oil Derivative Oleo Resin
 9. Biocoal Briquettes from Agriculture Cellulosic Waste
 10. Modern Bee Keeping
 11. Fruit Pulp and Juice Concentrates Mango and Pineapple Pulp and Concentrates
 12. Garlic Oil and Powder
 13. Banana Wafers
 14. Dal / Pulse Mill
 15. Cattle Feed from Molasses
 16. Herbal Plantation (Medicinal)
 17. Mango Plantation
 18. Cardamom Oil
 19. Ginger Processing (Peeling Drying, Grinding Bleaching of Fresh Ginger)
 20. Red Chilli Powder
 21. Cashew Nut Shell Liquid and Kernels
 22. Coconut Processing Unit
 23. Activated Carbon from Saw Dust, Rice Husk and Coconut Shells
 24. Atta Chakki Plant
 25. Alcohol from Potatoes
 26. Fresh / Frozen Potato (Ready to Cook) Peled/Slices (Chips) Potato
 27. Maize Processing for Glucose
 28. Processing of Food Grains / Pulses and Retail Packaging
- Directory Section

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General

Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
