Cultivation and Utilization of Aromatic Plants

Code: NI155	Format: paperback
Indian Price: ₹1100	US Price: \$125
Pages: 608	ISBN: 817833027X
Publisher: Asia Pacific Business Press Inc.	

Description

Aroma has played a vital role, directly as well as indirectly, in the life of human beings since its appearance on the earth as a result of evolution. India, Egypt and Persia were amongst the first countries to have conceived the process of distillation of essential oils. Aromatic plants have essential or aromatic oils naturally occurring in them. They help heal mental ailments and other diseases. India is endowed with a rich wealth of medicinal plants. Aromatic (Aroma Producing) plants are those plants which produce a certain type of aroma. Their aroma is due to the presence of some kind of essential oil with chemical constituents that contain at least one benzene ring in the their chemical configuration. These plants have made a good contribution to the development of ancient Indian material medica. In recent years, there has been a tremendous growth of interest in plant based drugs, pharmaceuticals, perfumery products, cosmetics and aroma compounds used in food flavors and fragrances and natural colors in the world. The chemical nature of these aromatic substances may be due to a variety of complex chemical compounds. There is a definite trend to adopt plant based products due to the cumulative derogatory effects resulting from the use of antibiotic and synthetics and except for a few cultivated crops, the availability of plant based material is mainly from the natural sources like forests and wastelands. There is a need to introduce these crops into the cropping system of the county, which, besides meeting the demands of the industry, will also help to maintain the standards on quality, potency and chemical composition. During the past decade, demand for aromatic plants and its products has attracted the worldwide interest, India being the treasure house of biodiversity, accounts for thousands of species which are used in herbal drugs. 90% of herbal industry requirement of raw material is taken out from the forests.

This book basically deals with cultivation of matricaria chamomilla, present agro

production technology status of celery, cultivation of ocimum gratissimum linn. var clocimum, the production and perfume potential of jasminum collections, chemical modification of turmeric oil to more value added products, biologically active compounds from turpentine oil, folk medicinal uses of indigenous aromatic plants in nepal, traditional uses of selected aromatic plants of bhutan and their cultivation prospects, blending aspects of perfumes with turpentine constituents, the chemistry of mint flavour, essential oils of cinnamomum species, citral containing cymbopogon species etc..

The aim of publishing this book is to provide multidisciplinary information on aromatic plants. The book covers method of cultivation and utilization of various aromatic plants. This is very useful book for farmers, technocrats, agriculture universities, libraries, new entrepreneurs etc.

Content

- 1. Cultivation of Matricaria Chamomilla
- 2. Damask Rose (Rosa Damascena Mill.) Cultivation and Processing
- 3. Present Agro production Technology Status of Celery (Apium graveolens L.)
- 4. Germination and Flowering of Ocimum selloii Benth
- 5. RRL Oc 12 A Newly Evolved Methyl Cinnamate Rich Strain of Ocimum canum Sims.
- 6. Search for New Aroma Chemicals from genus Ocimum
- 7. Cultivation of Ocimum gratissimum Linn. var Clocimum
- 8. Cultivation of Anise
- 9. Patchouli
- 10. Removal of Calamus Odour from Patchouli Oil
- 11. Propagation of Patchouli (Pogostemon Cablin Benth.)
- 12. Patchouli Root Knot Problem and Control
- 13. Alponia Galanga
- 14. Citrus Medica Linn.
- 15. Curcuma Longa
- 16. Cuminum Cyminum, Linn.
- 17. Cyperus Rotundus
- 18. Hibiscus Rosa Sinensis, Linn.
- 19. Piper Nigrum
- 20. Pomegranate
- 21. Ricinus Communis Linn.
- 22. Common Elder
- 23. Tamarind Tree
- 24. Woodfordia Fruticosa, Vurz.

- 25. Angelica (Angelica Archangelica)
- 26. Sandalwood Oil Substitutes A Review
- 27. Native Jasmines of India
- 28. Screening of Flowers of Jasminum Species for Indole
- 29. Production Economics of Jasmine Concrete
- 30. The Production and Perfume Potential of Jasminum Collections
- 31. New Compounds of Value in Perfumery and Flavour Industry from Carene
- 32. Citral Containing Cymbopogon Species
- 33. Cedrus Oil A Promising Antifungal Agent
- 34. Terpenes and Coumarins from the Seeds of Peucedanum Dhana Ham. Seeds
- 35. Essential Oils of Cinnamomum Species
- 36. Jamrosa a New Geraniol Rich Cymbopogon
- 37. 9 Aristolen 1 alpha ol and I(10) Aristolen 2 one from Nardostachys Jatamansi DC
- 38. Comparison of Chemical Composition of Pepper and Pepper Leaf Oil
- 39. Chemical Modification of Turmeric Oil to More Value Added Products
- 40. Rectification of Benzene Extract A Simple Method for Extracting Sandal Oil in Higher Yield
- 41. Palmarosa Oil Grass for Higher Yield of Oil and Its Quality Under Cultivation
- 42. Effect of Harvest Management on the Yield of Essential Oil Content and Flavour of Kala Zira (Carum bulbocastanum W. Koch) Seed.
- 43. Essential Oil from Cymbopogon Olivieri (Boiss. C. B.) Bor.
- 44. Chromatographic Separation of Alpha and Beta Santalenes
- 45. The Rose Fragrance
- 46. Breeding of a New Type of Ocimum Gratissimum for Eugenol Rich Essential Oil
- 47. Breeding for High Essential Oil Content in Khas (Vetiveria zizanioides) Roots
- 48. Ocimum Sanctum for High Oil and Eugenol Content
- 49. Essential Oil of Artemisia pallens Wall (Davana)
- 50. Essential Oil from the Seeds of Anethum graveolens Linn, raised at Lucknow
- 51. Terpenoids from Palmarosa Grass (Cymbopogon martini var. motia)
- 52. Effect of Fertilizer Treatments on Yield and Economics of Cultivation of Mentha, Citronella

and Palmarosa

- 53. Oil Content and Its Composition at Different Stages of Growth in Ocimum Sanctum Linn.
- 54. Weed Control in the First and Second Cutting of Japanese Mint (Mentha Arvensis L.)
- 55. The Chemistry of Mint Flavour
- 56. Ozonolysis Studies on Phenolic Constituents from Clocimum Oil
- 57. Natural Isolates & Reconstituted Essential Oils
- 58. Some Aspects of Longifolene Chemistry
- 59. Alpha Pinene Derivatives

- 60. Biologically Active Compounds from Turpentine Oil
- 61. Pseticides From Turpentine Oil
- 62. Blending Aspects of Perfumes with Turpentine Constituents
- 63. Insecticides Based on Turpentine
- 64. Promising Aromatic Plants of Industrial Value from North east India
- 65. Traditional Aromatic Incense and Insect Repellent Plants of Uttar Pradesh Himalaya
- 66. The Status of Essential Oil Bearing Plants in Uttaranchal (U.P.) India
- 67. Folk Medicinal Uses of Indigenous Aromatic Plants in Nepal
- 68. Traditional Uses of Selected Aromatic Plants of Bhutan and their Cultivation Prospects

About NIIR Project Consultancy Services (NPCS)

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Prefeasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.

NIIR PROJECT CONSULTANCY SERVICES 106-E, Kamla Nagar, New Delhi-110007, India. Tel: 91-11-23843955, 23845654, 23845886, +918800733955 Mobile: +91-9811043595
