## The Complete Book on Coconut & Coconut Products (Cultivation and Processing)

<b>Code</b>	NI341
<b>Format</b>	paperback
<b>Indian Price</b>	₹0
<b>US Price</b>	\$0
<b>Pages</b>	464
<b>ISBN</b>	8178330075
<b>Publisher</b>	Asia Pacific Business Press Inc.

### Description

Coconut is one of the oldest crops grown in India and presently covers 1.5 million hectares in this country. Found across much of the tropic and subtropical area, the coconut is known for its great versatility as seen in the many domestic, commercial, and industrial uses of its different parts. Coconuts are part of the daily diet of many people. Its endosperm is initially in its nuclear phase suspended within the coconut water. As development continues, cellular layers of endosperm deposit along the walls of the coconut, becoming the edible coconut flesh. When dried, the coconut flesh is called copra. The oil and milk derived from it are commonly used in cooking and frying; coconut oil is also widely used in soaps and cosmetics. The clear liquid coconut water within is a refreshing drink and can be processed to create alcohol. The husks and leaves can be used as material to make a variety of products for furnishing and decorating. It also has cultural and religious significance in many societies that use it. India stands third in the production of coconut in the world. There are only two distinguishable varieties of coconut; the tall and the dwarf. As a result of cross pollination in the tails, a wide range of variations occur within the same variety. Coconut based cropping/farming systems promote on farm diversity and strengthens ecological base of coconut farming. Coconut husk is the raw material for the coir industry. It is also used as a domestic fuel and as a fuel in copra kilns. Coconut oil comes under edible/industrial group, is used as cooking oil, hair oil, massage oil and industrial oil. It is dominated by saturated fats and high percentage of lauric acid. India accounts for the 18% of total coconut production in the world and it is the third largest coconut producing country in the world. Coconut processing adds value, and a number of products like coconut oil, desiccated coconut, coir fibre, pith, mattresses, desiccated coconut (DC), coconut cream, coconut milk, spray dried coconut milk powder, coconut shell products, shell charcoal, shell powder, virgin coconut oil are obtained. The demand for coconut oil increases 15 to 20 % during the festival season. Coconut oil for edible purposes is now being claimed to be the second best edible oil in the world, after Olive oil. Coconut shell charcoal is most widely used as domestic and industrial fuel.

Some of the fundamentals of the book are product diversification in coconut, future of coconut oil, scope for product diversification, varieties of coconut, farming systems in coconut, organic farming of coconut, spices and herbs, establishment and maintenance of organic coconut plantations, production of organic spices, medicinal and aromatic plants along with coconut, crop improvement, green manuring in coconut garden organic recycling in coconut, soil moisture conservation in coconut garden, harvest and post harvest technology, integrated farming in coconut holdings for productivity improvement, machinery and processing of desiccated coconut, coconut processing sector in India, etc.

Coconut plays an important role in the economic, social and cultural activities of millions of people in our country. India is a major producer of coconut in the world. Coconut provides food, edible oil, industrial oil and health drink to humanity. All parts

of coconut tree is useful in one way or other and the crop profoundly influences the socio economic security of millions of farm families. The present book contains the methods of cultivation and processing of coconut. This book is very beneficial for agriculturist, researchers, professionals, entrepreneurs, agriculture universities etc.

## **Content**

### 1. PRODUCT DIVERSIFICATION IN COCONUT

Future of Coconut Oil

Scope for Product Diversification

Philippines

Sri Lanka

India

Other Uses

Conclusion

### 2. VARIETIES OF COCONUT

Tall Variety

West Coast Tall

East Coast Tall

Lakshadweep Ordinary

Lakshadweep Micro

Andaman Ordinary

Andaman Giant

Kappadam

Laguna

San Ramon

Macapuno

Spicata

Performance of exotic cultivars under Indian conditions

Dwarf Variety

Ghowghat Green Dwarf

Chowghat Orange Dwarf

Malyan Dwarf

Gangabondam

Ayiramkachi

Thembili (King Coconut)

Coonino

Mangipod

Niuleka

### 3. FARMING SYSTEMS IN COCONUT

Rooting Pattern

Crown Structure And Light Transmission

Water Use Efficiency

Nutrients

Choice of Inter / Mixed Crops

Criteria For Selection Of Inter/

Mixed Crops

### 4. ORGANIC FARMING OF COCONUT, SPICES AND HERBS

Organic Coconut Scenario

Scope For Organic Production of Coconut In India

Characteristics of A Typical Organic

Coconut Farm

Establishment And Maintenance of Organic Coconut Plantations

Conversion Period

Buffer Zone

Choice of Varieties

Raising Nursery

Land Preparation

Preparations for Planting

Aftercare of the Young Plantation

Nutrient Management

Green Manuring and Cover Cropping

Utilization of Waste from Coconut Palm

Improving Soil Conditions

Plant Protection

Biopesticides

Contamination Control

Soil and Water Conservation

Bee Keeping

Animal Husbandry

Conversion of Established Plantations

Conversion Period

Choice of Cultivars/Varieties

Composting of On-farm Crop Residues/

Farm Wastes

Nutrition Management

Weed Management

Processing of Organic Coconut

## Production of Organic Spices, Medicinal And Aromatic

Plants Along With

Coconut

Certification of Organic Products

### 5. PLANTING MATERIAL

Collection of Seednuts

Raising Nursery

Nursery Care

Seedling Selection

Polybag Nursery

Care of Polybag Nursery

### 6. GARDEN ESTABLISHMENT

Site Selection

Time of Planting

Planting System

Land Preparation And Preparation of Pits For Planting

Replacement of Unproductive Palms

Replanting

Under Planting

After Care

### 7. CROP IMPROVEMENT

Varieties

Tall Group

West Coast Tall

East Coast Tall

Lakshadweep Ordinary

Lakshadweep Micro

Andaman Ordinary

Kappadam

VPM-3

ALR (CN) 1

Dwarf Group

Dwarf Green

Dwarf Orange

Malayan Dwarf  
Gangabondan  
Choughat Orange Dwarf  
Tall And Dwarf Hybrids  
VHC 1  
VHC 2  
VHC 3

## 8. CROP PROTECTION

### Insect Pests

Rhinoceros Beetle, *Oryctes rhinoceros* L.

#### Management

Red Palm Weevil, *Rhynchophorus ferrugineus* Oliv. (Curculionidae: Coleoptera)

#### Management

Black Headed Caterpillar, *Opisina arenosella* Meyr. (Cryptophasidae: Lepidoptera)

#### Management

Termite, *Odontotermes obesus* Ramb. (Termitidae: Isoptera)

#### Management

Lacewing Bug, *Stephanitis typicus* Dist. (Tingidae: Hemiptera)

Scale Insect, *Aspidiotus destructor* Sign. (Diaspididae: Hemiptera)

#### Management

Mealybug, *Pseudococcus longispinus* (T.),

*P. citriculus* G., *Palmicultor palmarum* (Eh.) (Pseudococcidae : Hemiptera)

#### Management

Slug Caterpillar, *Latoia lepida* Cram (Cochlidiidae: Lepidoptera)

Slug Caterpillar, *Contheyla rotunda* H.,

(Cochlidiidae: Lepidoptera)

Slug Caterpillar, *Macroplectra nararia* M.

(Cochlidiidae: Lepidoptera)

#### Management

White Leaf Roller, *Gangara thyrasis* M.

(Hesperiidae: Lepidoptera)

Green Leaf Roller, *Suastus gremius* F.

(Hesperiidae: Lepidoptera)

Long Green Caterpillar, *Turnaca acuta* W.

(Notodontidae: Lepidoptera)

Bag Worm, *Manatha albipes* M.

(Psychidae: Lepidoptera)

#### Management

Nut Borer, *Cyclodes omma* V.H.

(Noctuidae: Lepidoptera)

Lesser Coconut Spike Moth, *Batrachedra*

*arenosella* Wlk. (Cosmopterygidae: Lepidoptera)

Flower Caterpillar, *Syntomis passalis* Fab. (Cosmopterygidae: Lepidoptera)

Ash Weevil, *Mylloceris curvicornis* Fab.

(Curculionidae: Coleoptera)

Stem and Bark Weevil, *Diocalandra*

*stigmaticollis* G. (Curculionidae: Coleoptera)

Management

Shot Hole Borer, *Xyleborus perforans* W.

(Scolytidae: Coleoptera)

Management

Coreid Bug, *Paradasynus rostratus* Dist.

(Coreidae: Heteroptera)

Management

Root Grub, *Leucopholis coneophora* Burm. (Melolonthidae: Coleoptera)

Management

Ant, *Dorylus orientalis* W.

(Formicidae: Hymenoptera)

Red Ant, *Oecophylla smaragdina* F.

(Formicidae: Hymenoptera)

## 11. HARVEST AND POST HARVEST TECHNOLOGY

Harvesting

Storage And Seasoning  
Post Harvest Processing  
Husking  
Copra Processing  
Sun Drying  
Solar Dryer  
Indirect Drying  
Small Holderâ€™s Copra Dryer  
Smoke Free Copra Dryer For  
Medium Holdings  
Large Holderâ€™s Copra Dryer  
Electrical Copra Dryer  
Ball Copra  
Copra Grading  
Copra Moisture Meter  
Coconut Products And Byproducts  
Desiccated Coconut  
Tender Coconut Water  
Snow Ball Tender Nut (Sbtn)  
Matured Coconut Water  
Nata-De-Coco  
Coconut Milk And Milk Products  
Coconut Cream  
Coconut Spray Dried Milk Powder  
Toddy  
Coconut Byproducts  
Byproducts From Husk  
Coconut Shell Charcoal  
Activated Carbon  
Shell Flour  
Coir And Coir Products  
Handicrafts From Coconut  
Coconut Wood Processing  
Mushroom Cultivation Using Coconut Byproducts

12. INTEGRATED FARMING IN COCONUT HOLDINGS FOR PRODUCTIVITY  
IMPROVEMENT

13. FINANCIAL ASSISTANCE TO PROCESSING INDUSTRIES

## 14. COCONUT HUSK

Coir

Coir Geotextile

Coir Pith

## 15. COCONUT OIL

Properties Of Coconut Oil

Extraction Of Coconut Oil

Coconut Oil Based Oleochemicals

Coconut oil based Oleochemicals:

Coconut Oil Cake

## 16. MACHINERY AND PROCESSING OF DESICCATED COCONUT

Abstract

Introduction

Desiccated Coconut

Processing Of Desiccated Coconut

Plant & Machinery For Desiccated

Coconut

Drying Of Desiccated Coconut

The Pilot Plant

Results And Observations

Scale-Up

Quality Of Desiccated Coconut

Conclusions

## 17. QUALITY STATUS OF DESICCATED COCONUT

Abstract

Introduction

Materials And Methods

Results And Discussion

## 18. COCONUT PROCESSING SECTOR IN INDIA

Trend In Area, Production And

Productivity

Coconut Industry Vs Indian Economy

Present Status Of The Coconut

Processing Sector  
Traditional Coconut Products  
And Technological Innovations  
Copra  
Sun drying  
Kiln drying  
Indirect hot air drier  
Solar drying  
Improvement in drying  
Coconut Oil  
Desiccated Coconut  
Coir and Coir Products  
Emerging Technologies In The  
Processing Sector  
Wet Processing of Coconut  
Coconut Cream  
Coconut Milk Based Consumer Products  
Coconut Shell Based Products  
Coconut Shell Charcoal  
Activated Carbon  
Methods of Processing  
Destructive Distillation of Shells  
Coconut Shell Powder  
Miscellaneous Uses of Shells  
Coconut Water  
Coir Pith and Miscellaneous Products  
Problems And Constraints  
Future Strategy

## 19. VINEGAR FERMENTATION WITH SPECIAL EMPHASIS ON POSSIBILITIES OF UTILIZATION OF MATURED COCONUT WATER

Production And Volume  
Raw Materials  
Production Of Vinegar  
Acetification Methods  
The Orleans Process or Slow Process or  
French Process  
Quick Process or German Process  
Submerged Method  
Other Modern Processes

Coconut Water As Possible Substrate  
For Vinegar Fermentation  
Preparation of Coconut Water Medium  
Pfa Specifications For Vinegar  
Standards  
Problems In Vinegar Manufacture  
Ageing Of Vinegar

## 20. ACTIVATED CARBON FROM COCONUT SHELLS: SIGNIFICANCE AND PROSPECTS

Protection Against Toxic Gases  
Air Purification And Recovery  
Purification Of Various Gases  
Filters For War Gases/ Nuclear  
Fall-Outs  
Purifying Working Environments  
And Elimination Of Odours  
Recovery Of Solvents And  
Other Vapours  
Typical Plants where Such Solvents are Recovered  
Separation Of Hydrocarbon Mixtures  
Purification Of Fermentation  
Carbon Dioxide  
Recovery Of Gold  
Carbon Batteries  
Miscellaneous Applications  
Activated Carbon As Catalyst  
And Catalyst Carriers  
Impregnated Carbons  
Activated Carbon In Pollution  
Control  
Conclusion

## 21. COMMERCIAL EXPLOITATION OF COCONUT PITH

Introduction  
Coconut Pith  
Utilisation Of Pith : Problems  
Utilisation Of Pith : Prospects  
Pith Fuel Briquettes Briquetting With Binders  
Pith As An Ingredient In Agricultural/

Horticultural Farms  
Pith As A Heat Insulating Material  
Conclusion

## 22. MODERN SEMI AUTOMATIC COPRA MANUFACTURING UNIT USING WASTE HEAT RECOVERY SYSTEM

Introduction  
Present Uses Of Coconut Shell In India  
Charcoal Manufacture And Waste  
Heat Recovery Unit  
Chemical Analysis And Calorific Value  
Whu And Pyrolysis Process  
Modern Semi-Automatic Copra  
Drying Unit  
Economic Of A Modern Copra  
Drying Unit  
Inference

## 23. COCONUT KERNEL PRODUCTS

Virgin Coconut Oil  
Desiccated Coconut  
Coconut Milk  
Spray Dried Coconut Milk Powder

## 24. FOOD PRODUCTS

The Wet Meat Or Kernel  
Coconut Milk and Related Products  
Coconut Skim Milk And Related  
Products  
Coconut Protein And Edible Oil  
Krauss-Maffei/C.F.T.R.I. Process  
Texas A & M University Process  
The TPI Process  
The Modified Solvol Process  
Desiccated Coconut  
Removal of the Karnels and Paring  
Washing  
Sterilising

Disintegrating and Desiccating  
Edible Copra  
Coconut Water  
Foods uses of Coconut Water  
Other Miscellaneous Uses  
Toddy And Toddy Products  
Tapping  
The yield of Toddy  
Suitability of Dwarf Palms  
Tapping and Subsequent Yield of Nuts  
Composition and Uses of Fresh Toddy  
Jaggery  
Refined Sugar  
Treacle  
Fermented Toddy  
Arrack  
Coconut Vinegar  
Miscellaneous Products Of Food Value

## 25. COMMERCIAL PRODUCTS

Milling Copra  
Preparation of Coconuts before Drying  
Copra Drying Process and Methods  
Sun Drying  
Smoke Drying or Drying by Direct Heat in Kilns  
Drying by Indirect Heat  
The Quality of Copra  
Oil Content of Copra  
Storage of Copra  
Deterioration of Copra  
Grading of Copra  
Moisture Determination  
Coconut Oil  
Oil Milling  
Yield Of Oil From Copra  
Physical Properties  
Chemical Properties  
Rancidity  
Ensuring the Quality of Oil  
Quality Standards for Coconut Oil

Uses of Coconut Oil  
Consumption Of Coconut Oil And Heart Ailments  
Coconut Cake  
Use Of Coconut Cake  
Coir Or Coconut Fibre  
Natural Retting  
Mechanical and Chemical Methods of Retting  
Extraction of White Fibre  
Extraction of Brown Fibre  
Yield Of Fibre From Husk  
Varieties Of Fibre And Grades  
Chemical Composition  
Spinning of Coir Yarn  
Utilisation of Coir Fibre and Yarn  
Rubberised Coir  
Coir Pith Or Coir Dust

## 26. COCONUT SHELL AND MISCELLANEOUS PRODUCTS

Coconut Shell Charcoal  
Covered Pit Method  
Modified Pit Method  
The Drum Method  
Uses  
Properties  
Distillation Of Coconut Shells  
Activated Carbon  
Coconut Shell Flour  
Other Uses  
Miscellaneous Products

## 27. BY-PRODUCTS UTILISATION

Commercial Exploitation Of  
Coconut Pith  
Pith as a Heat Insulating Material  
Coconut Oil  
Coconut Product Diversification  
Copra Making  
White Copra Production  
Ball Copra

Vinegar Making  
Bio-Confectionaries from Coconut Water  
Benefits from Bio-Sweets  
Desiccated Coconut  
Canning of Coconut Haustorium  
Coconut Cream  
Coconut Shell Powder  
Coconut Milk  
Coconut Oil Derivatives  
Coconut Oil as an Edible Oil  
Production Of Cocopeat  
Granulated Charcoal  
Biodiesel Plant-Oleochemical  
Rubberised Coir Fibre Cushions  
Coir Industry  
Coconut Shell Based Products  
Shell Charcoal  
Coconut Shell and Wood Handicrafts  
Activated Carbon from Coconut Shells  
Protection against Toxic Gases  
Purification of Various Gases  
Recovery of Solvents and Other Vapours  
Typical Plants Where Such Solvents are Recovered  
Separation of Hydrocarbon Mixtures  
Purification of Fermentation Carbondioxide  
Recovery of Gold  
Carbon Batteries  
As Catalyst and Catalyst Carriers  
Impregnated Carbons  
Global Competitiveness Of Coconut  
Industry  
Exports  
Competition from Other Oilseed Crops  
Low Profitability  
Fluctuating Prices  
Inconsistent Supplies of Product  
Strategies For Future

## 28. MATURE COCONUT

Optimum Stage For Harvesting  
Coconuts

Dehusking  
Home Preservation Of Split Coconuts  
Mature Coconut Water Products  
Coconut Water Beverages  
Coconut Vinegar  
Nata-De-Coco  
Other Products

## **About Niir**

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
