Handbook on Soaps, Detergents & Acid Slurry (3rd Revised Edition)

Code	NI38
Format	paperback
Indian Price	₹1575
US Price	$150
Pages	800
ISBN	9788178330938

Publisher	Asia Pacific Business Press Inc.

Description

Novelty in ideas and marketing seems to be the major subject matter of the Indian soap industry. The soaps, detergent and acid slurry product industry are vivacious, varied, creative and tricky, and have the prospective to provide a gratifying career. Soaps and detergents are used frequently in our daily life. We use them to wash our hands and clean our clothes without ever really paying attention to how they work. Beneath the plain white surface of a bar of soap lie an intriguing history and a powerful chemistry. It has been said that amount of soap and detergent consumed in a country is a reliable measure of its civilizations. There was a time when these products were luxury; now it is a necessity. Acid slurry is a sulphonation product made by sulphonation of linear alkyl benzene by oleum or so3 or sulphuric acid or combinations of above. It is used in manufacturing of various detergents. The Soap and Detergent industry is profoundly lucrative with splendid market potential as well as bright future scope. In order to meet the requirement of market demand, many more new units are recommended to be established on small and cottage scale. Soaps and detergents are very similar in their chemical properties. However, there is a significant difference between them; soaps are produced from natural products, and detergents are synthetic, or manmade. The market is expected to grow at rates ranging from under 4% to around 4.5%. These are very modest rates considering that the lifestyles not only of urbanites, but even of well off rural folks are changing at a very high pace. The analysts are expecting the industry to continue to grow in both the industrialized as well as developing nations. The present book has been written keeping in view the basic difficulties of the entrepreneurs. Nominal investment is required for this industry which comprises simple method of processing for manufacturing of various types of soaps, detergents and acid slurry. The book contains chapters on: acid slurry, detergent manufacturing, detergents of various types, principal groups of synthetic detergents, inorganic components of detergents, synthesis of detergents, liquid detergents, packaging of soaps and detergent and many more such chapters. The enclosure also contains a list of suppliers of raw material (overseas) and list of plant and machinery suppliers (overseas). Fundamental information in venturing a market and the opportunity and prerequisite of the potential sector has been the superlative way to make a way into in a market. How and what if correctly taken care can take you to a long way. The first hand information on different types of soaps, detergent and acid slurry products have been properly dealt in the book and can be very useful for those looking for entrepreneurship opportunity in the said industry.

Content

1. ACID SLURRY
Chemical Name of Acid Slurry
Difference Between Soft and Hard Slurry
Sulphonation of Dodecyl Benzene or Preparation of Acid Slurry
Plant & Machineries Details for Manufacturing Acid Slurry
Raw Materials for Acid Slurry
Process of Manufacture
Manufacturing Steps of Acid Slurry
The Main Advantages Using Oleum
Precautionary Measures for Handling Sulphuric acid and Oleum
Raw Material Requirements
Market Potential
Alpha Olefins
Process of Manufacturing Alpha Olefins
Reactions
2. DETERGENT MANUFACTURING (Comm. Grade)
Other Additives
Procedural details of manufacturing 'Commercial' Detergent Powders
3. DETERTENTS OF VARIOUS TYPES
Detergent Powder
Metal Cleaners
Liquid Detergents
Detergent (Nirma Type)
Detergent Cake
4. PRINCIPAL GROUPS OF SYNTHETIC DETERGENTS
Classification
Anionic Detergents
Cationic Detergents
Non-ionic Detergents
Amphoterics and Zwitterionics
Biodegradability
5. INORGANIC COMPONENTS OF DETERGENTS
Builders and Other Additives
Phosphates
Silicates
Zeolites
Carbonates
Oxygen-releasing Compounds
Sundry Inorganic Builders
6. SYNTHESIS OF DETERGENTS
Raw Materials for Anionic Synthetic Detergents

Alkyl Benzene
Methyl Esters
Sulphonation of Detergent Raw Materials
Sulphonation with SO3
Sulphonation Processes
Non-ionic Detergents
Cationic Detergents
Amphoteric Detergents
7. MANUFACTURE OF FINISHED DETERGENTS
Powders
Liquid Detergents
Paste Detergents
Solid Detergents
Fabric Softners
Abrasive Cleaners
8. APPLICATION AND FORMULATION
OF DETERGENTS
Foam
Household Cleaning
Hard Surface Cleaners
Solvent Detergent
Carpet and Upholstery Cleaners
Textile Dressing
Food and Dairy Industries
Detergent Sanitizers
Metal Cleaners
Miscellaneous Cleaners
9. TECHNOLOGY OF MANUFACTURING
SYNTHETIC DETERGENTS
Introduction
Performance Criteria
Formulation Requirements
Approach to Product Formulation
Production of Detergent Active
Sulphonation
Additives to Detergent Actives
Production of Detergent Powder by Dry Mixing
Machine-mixing
Production of Detergent Bars
Liquid Detergents
10. MANUFACTURE OF DETERGENT PRODUCTS

Health and Safety Factors
Production Procedure
Derivation of Linear Alkyl Benzene (LAB)
Derivation of Fatty Alcohols
Process Based on Natural Fats
Process based on Ethylene Source
Sulphonation of Lab with 98 percent Sulphuric Acid
Detergent Powder Prepared Without using Spray Dryer
(High Bulk Density)
11. LIQUID DETERGENTS
Requisites of Surfactants for Formulating Liquid Detergents
Surfactants Most Commonly Used
Builders
Viscosity Controllers
Other Ingredients
Household Liquid Detergents for Laundering
Typical Formulations
A Recommended Formulation
12. PACKAGING OF SOAPS AND DETERGENTS
Introduction
Packaging Material Specifications
Package Testing Methods
Other Tests
Packaged Commodities Rules
13. RAW MATERIALS (OILS AND FATS)
Classification of Fats/Oils
Some of the Most Useful, Fats and Oils
Purification of Soap Fats
Non Fatty Raw Materials for Soap
Other Additives (Foam Producers)
14. MANUFACTURING PROCESS AND
FORMULATIONS OF VARIOUS SOAPS
(A) Washing Soaps
(B) Nerol Washing Soap
(C) Toilet Soaps
(D) Carbolic Soaps
(E) Shaving Soaps
(F) Special Soaps
(G) Vaseline Soap
(H) Liquid Soap
(I) Girt Soaps

(J) Depilatory Soaps
(K) Metallic Soaps in Protective Coating Industry
(L) Liquid Dental Soap
(M) Medicated Soap
15. TECHNOLOGY OF SOAP MANUFACTURING
Manufacturing Soap
Glycerine Recovery
Production of Laundry and Toilet Soaps
Production of Filled Soaps on the Mazzoni
Technology of Toilet Soaps
Process Control
Other Soaps
16. TECHNOLOGY OF SOAP MANUFACTURING
Health and Safety Factors
Classification of Soap Products
Methods of Manufacture
Various Finishing Methods
Production
Washing bar/cake soap from neat soap
Semi-boiling process and cold-made process
Production of washing bar/cake soap by semi-boiling/
cold -made process
Toilet soap
Medicated Soaps
Castile Soap by Boiling Process
Various Industrial Soaps
Laundry Washing Aids
More Laundry Wash Mixtures
Shaving Soaps
Shaving Cream
Liquid Soaps/Shampoos
Shampoos
Soap Shampoos
Shampoos Based on Synthetic Surfactants
General formulations
17. SOAP MAKING BY CONTINUOUS PROCESS
(Quicker Methods)
Method of Continuous Saponification of Fats by Alkali Solution.
Continuous Neutralization Process
Continuous neutralization Process Using Fatty Acids Instead of Fats
Batch Methods of Splitting Fats in to fatty Acids and Glycerol

Purification of Fatty Acids
18. CLEANSING MECHANISM
Characteristics of Soap
Saponification of Fats - The Basic Chemical Reaction Making Soap
19. DIRECTORY SECTION
List of Suppliers of Raw Material (Indigenous)
List of Plant and Machinery suppliers (Indigenous)
List of Suppliers of Raw Material (Overseas)
List of Plant and Machinery suppliers (Overseas)

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
