The Complete Technology Book on Candle Making & Designs

| | |
|---------------------|---|
| Code | NI40 |
| Format | paperback |
| Indian Price | ₹650 |
| US Price | \$100 |
| Pages | 354 |
| ISBN | 8186623663 |
| Publisher | National Institute of Industrial Research |

Description

Candles have been used for luminosity and to light up man's celebrations for more than thousand years. The ancient Egyptians have been credited with the honour of developing the first candle, who used rush lights or torches made by soaking the pithy core of reeds in melted animal fat. However, the rush lights had no wick like a true candle. The development of candle to the present stage went through several stages. Candle making today has taken a shape of small scale industry. It has got attention of a lot of people. From celebrities to designers all are trying their hand in this emerging industry. One pertinent reason is that the use of candle now has not been confined only for devotional purpose or some special occasion. They are now a part of every single moment is it special or routine. They add a touch of warmth in the occasion and that does why have become largely popular.

Creativity has added a new spark to the candle making industry. Candle making is a very flourishing industry in modern times owing to the versatile use of candles on various occasions and ceremonies. Candles are prepared by well established methods in multifarious fascinating colours, designs and shapes. The book is one of the best seller and has chapters on: Thermometer Weighing scales ,Measuring flask or jug ,Dipping can ,Bowl ,Iron, Hairdryer ,Pouring jug Materials ,Wicking needle ,Wick ,Wax , ,Dipping ,How to dipped candles Method ,More about dipping , Appliquéd candles ,Painting with wax ,Transfers ,Surface techniques Pressed flowers and grasses How to pressed flower candle Over dipping, etc.

This is one of its kind book which deals ostensibly with different candle making processes viz. Dipping, Pouring, Moulding or Casting and Drawing, delineating their technicalities in most illustrious manner with pictorial representations. The book will significantly add your knowledge if you are looking for comprehensive information on candle making industry to start their venture in said industry.

Content

Introduction

Equipment and materials

Equipment

Heat source

Double boiler

Thermometer

Weighing scales

Measuring flask or jug

Dipping can

Bowl

Iron

Hairdryer

Pouring jug
Materials
Wicking needle
Wick
Wax
Additives
Wax glue
Mould seal
Dyes and perfumes
Creating colour
Using perfumes
Common sense with wax
Working with heat
Fire safety
Working with wax
Preventing accidents
Cleaning up
How to begin
Working with heat
Priming wicks
How to priming wicks
Method
Dipping
How to dipped candles
Method
More about dipping
Over dipping
How to over dipping (blue on white)
Method
Hand finishing
How to plaited candles
Method
How to twisted candles
Method
Rolling
How to flared spiral candles
Method
Beeswax sheet
How to tapered beeswax candles
Method
Hand modelling

Perfumed wax flowers
How to floating rose
Method
Wax fungi
How to fly agaric toadstool
Method
Common sense with candles
Fire Safety
Workshop Wisdom
Prevention
Cure
Dipped candles
Basic dipped candles
Overdipped candles
Spiral candles
Using templates
Floating candles
Beeswax sheets
Column candles
Spiral candles
Decorative candles
Sand candle
Stencilled candles
Surface texture
Appliqued candles
Painting with wax
Transfers
Surface techniques
Pressed flowers and grasses
How to pressed flower candle
Method
Applique
Inlays
How to bulls eye candle
Method
Carving
Method
Dip and iron back
Method
Hammering
Painting

Novelty candles
Whipped wax candles
How to ice cream cone
Method
Birthday cake candles
Balloon candles
How to balloon candle
Method
Sand candles
How to sand candle
Method
Water candles
How to water candles
Method Plunge
Method Pour
Ice candles
How to ice candle
Method
Burning down
Faults
Dipping
Casting in Moulds
Advanced Surface Techniques
Dip and carve
How to dip and carve candle
Method
Peeled Banana
How to peeled Banana Candles
Method Fruit
Method skin
Cutting corners
How to basic techniques
Method Dipping
Method Cut and Curl Corners
Method spirals
Snakes
Raw Materials
The Fuel
Paraffin Wax
Stearine
Micro Crystalline Wax

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases,

detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
