### **Description**

Confectionery in a broader sense implies the preservation of sweet meat preparation in the form of candies, caramels, chocolate, processed cocoa products and traditional Indian confections. India is a country with a collection of wide range of different cultures and many festivals and occasions are being celebrated in different parts of the nation and confectioneries play a major role in those special occasions. Therefore, the confectionery industry in this country has got a huge potential and this sector has grown recently in the India with the entry of many foreign companies. Special emphasis has been made on describing the various process parameters and equipments used with the help of process diagrams wherever necessary.

This major content of this book are confectionery ingredients, flavour, gelatinizing agents, gums, glazes, waxes, traditional Indian confections, manufacturing processes and formulations of confections, nutritive value of confectionery products. This book also describes about the science and technology of chocolate and confectionery, packaging of confectionery products, quality control, future confectionery industry etc. Apart from these it also contains details of cooking techniques, formulae, processes. The incorporation of flavours and essences, permitted colours used quality control aspects along with sources of plant, machinery and raw material. This book is an invaluable resource for research centers, professionals, entrepreneurs and end users in academic and industry working on the subject.

Freeze Drying

Ginger

Colouring

### 5. Flavour

Dried Fruit

Artificial Drying

Chellies

Freeze Drying

Nuts

Varieties of Nuts

Storage of nuts

-Starches, Soya Flour, soya protein

### 6. Gelatinizing Agents, Gums, Glazes, Waxes

Gelatine

Agar-Agar

Agar occurs in three forms

Pectin

Gums

Uses of Gum Arabic

Gum Tragacanth

Guar Gum, Locust Bean (carob) Gum

Guar Gum

Carob gum

Lacquers and wares

Shellac

Other Glazes

Spermaceti

Carnauba Wax

7. Traditional Indian Confections

Raw Materials

Packaging

8. Confectionery Processes and Formulations

-summary of confectionery Processes

Rolling and Cutting

Casting or Depositing

Hard Candy

Die Forming

Hard Candy

-Manufacturing Process

Fruit and nut bars

Fruit punch chocolates

Butter Creams Chocolate

-Soft candies

-Carbonated Candy

## **About NIIR Project Consultancy Services (NPCS)**

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
