Modern Technology of Textile Dyes & Pigments (3rd Edition)

Code	NI67
Format	paperback
Indian Price	₹2575
US Price	\$225
Pages	592
ISBN	9789381039717
Publisher	NIIR PROJECT CONSULTANCY SERVICES

Description

Dyestuff sector is one of the core chemical industries in India. There are two types of colorants dyes and pigments. Dyes are soluble substances used to pass color to the substrate and find applications primarily in textiles and leather. Pigments are coloring materials, which are water insoluble. Key end-user industries of pigments include wood-coloring, stone, textiles, paints & coatings, food and metals. Pigment are usually manufactured as dry colorants and grounded into fine powder. The dyes market, meanwhile, largely depends upon the fortunes of its principal end-user, textiles, which account for about 70 percent of the total demand. Their importance has grown in almost every area of an economic activity.

In the colorants market, Asia-Pacific accounts for the largest share. This region is one of the key markets for dyes and pigments production. In the Asia-Pacific, India and China are the important countries contributing towards the growth of colorants market. Rising consumer spending will drive increased demand for colorants in textiles. Increases in value demand will reflect the growing importance of expensive, higher value dyes and pigments that meet increasingly stringent performance standards. Growing demand for high-quality value-added pigments is one of the key factors expected to result in a spurt in growth.

This book describes the various formulae, manufacturing processes and photographs of plant & machinery with supplier's contact details. The major contents of the book are metal pigments, black pigments, inorganic colour pigments, organic colour pigments, extender pigments, white pigments, photocatalytic activity of titanium dioxide pigment, azo pigments, bisazo pyridine pigments, high grade organic pigments, high temperature stable inorganic pigments, anti corrosive pigments, metals and metal ions in pigmentary systems, control of organic pigment dispersion properties, pigments for plastics, rubber & cosmetics, pigments for printing inks, vat dyes, reactive dyes, disperse dyes, direct dyes and sulphur dyes etc.

It will be a standard reference book for professionals, entrepreneurs, those studying and researching in this important area and others interested in the field of textile dyes & pigments.

Content

Table of Contents

1. Metal Pigments
2. Black Pigments
3. Inorganic Colour Pigments

4. Organic Colour Pigments
5. Extender Pigments
6. White Pigments
7. Photocatalytic Activity of Titanium Dioxide Pigment
8. Use of Flocculation Gradient in Determining the Efficiency of Titanium Dioxide Utilisation in Paint
9. Titanium Dioxide Pigments in Water-reducible and Water soluble vehicles
10. Azo Pigments
11. Bisazo Pyridone Pigments
12. Novel Gold Colours and Effects with Environmentally Safe-to-use Mica Pigments
13. Fluorescent Pigments
14. High Grade Organic Pigments
15. Phthalocyanines
16. High Temperature Stable Inorganic Pigments
17. New Metal Complex Pigments
18. Latest Developments in Organic Pigments for Automotive Finishes
19. Preparation of Iron Oxide Pigment from Industrial Waste
20. Anti Corrosive Pigments
21. An Overview of Aluminium Pigment Technologies
22. Metals and Metal Ions in Pigmentary Systems
23. Control of Organic Pigment Dispersion Properties
24. Advances in the Science and Technology of Pigments
25. Pigments for Plastics, Rubber and Cosmetics
26. Pigments for Printing Inks
27. Vat Dyes
28. Reactive Dyes
29. Disperse Dyes
30. Direct Dyes
31. Sulphur Dyes
32. How to Start Textile Dyes Business
33. Plant Layout Description of Textile Dyes Business
34. How to Start Textile Pigment Business
35. Plant Layout Description of Textile Pigment Business
36. BIS Standards
37. Plant Layout
38. Photographs of Plant & Machinery with Supplier's Contact Details

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
