Modern Technology Of Milk Processing & Dairy Products (4th Edition)

Code	NI9
Format	paperback
Indian Price	₹1475
US Price	\$150
Pages	550
ISBN	9788190568579
Publisher	NIIR PROJECT CONSULTANCY SERVICES

Description

The dairy industry plays an important role in our daily life. It is difficult to realize how fast changes are taking place in the dairy industry. Milk is an important human food, it is palatable, easy to digest and highly nutritive. One of the important factors affecting the total amount of milk produced and the way in which this milk is utilized is the demand for the various products. In order to prepare such a diversity of products, many different processes have been developed by the industry. There are numerous types of milk products such as ghee, butter, paneer, cheese, yogurt, ice cream powder, baby cereal food, cream, and so on. Each of these has been designed to take advantage of some particular property of milk. Dairy products are generally defined as food produced from the milk of mammals; they are usually high energy yielding food products. Enzymes play an important role in the production of cheese. Raw milk contains several native enzymes some of which can be used for analytical and quality purposes for example pasteurization can be assessed by determining indigenous alkaline phosphate activity. India is known as the Oyster of the global dairy industry, with opportunities galore to the entrepreneurs globally. Anyone might want to capitalize on the largest and fastest growing milk and milk products market. The dairy industry in India has been witnessing rapid growth. The liberalized economy provides more opportunities for MNCs and foreign investors to release the full potential of this industry. The main aim of the Indian dairy industry is only to better manage the national resources to enhance milk production and upgrade milk processing using innovative technologies.

The major contents of the book are cholesterol, coronary heart disease and mil fat, cholesterol and cardio vascular diseases, fatty acids & cholesterol, factors affecting cardio vascular disease, application of enzymes in dairy and food processing, utilisation of milk components: casein, advances in the heat treatment of milk, varieties of sheep's cheese, whey cheese, potted cheese, filled cheese, testing butter at different stages, presentation of butter at different stages, condensed and evaporated milk, dried milk powder, skimmed powder, malted powder, butter powder, ghee yoghurt, technology processing of dairy and dairy products, dried milk shake, milk powder, dahi from sweet cream butter milk, packaging of dairy and milk products, dairy farm, dairy products & milk packaging in pouches, etc.

Developments in the dairy industry are enough to justify a revision of a considerable amount of material in this book. This book deals with processes, formulae, project profiles, details of plant, machinery & raw materials with their resources etc. of various dairy products. This book will help all its readers from entrepreneurs to food industries, technocrats and scientists.

Content

1. Cholesterol, Coronary Heart Disease and Mil Fat

Cholesterol and Cardio Vascular Diseases

Fatty Acids & Cholesterol

Factors Affecting Cardio Vascular Disease

Dietary Recommendations

Conclusion

2. Application of Enzymes in Dairy and Food Processing

Introduction

Enzymes in Dairy Industry

Enzymes in Food Industry

3. Utilisation of Milk Components: Casein

Extraction of Casein from Milk

Properties of Casein from Milk

Composition of Caseinates

Composition of Co-Precipitates

Industrial Uses of Casein

Uses of Rennet Casein

4. Developments in Cream Separation and Processing

Separation and Development in Separators

Vacreation

Consumer Cream Products

Packaging & Presentation of Cream

5. Advances in the Heat Treatment of Milk

Raw Milk

Pasteurisation

Sterlised and UHT Milks

Comparison of Direct/Indirect Processes

Volatile Sulphur components Milk

Flavour Improvement

Nutritional Value

Texture of UHT Milks

Heat Exchanger Fouling

Concluding Remarks

6. Utilisation of Milk Components: Whey

Production

Whey Characteristics

Processing of Whey
Unit Processing and Products
Lactose Production
Conclusion

7. Grading Dairy Produce
Early History
The Separator

8. The Cream Supply
Value of Well Mixed Cream

9. Grading of Milk and Cream
Knowledge Required
Grading Milk

10. Butter Grading
Microflora of the Dairy
Framing for Flavours
Standardise
Grading Statistics
Commercial Grading & Buying
Fixity of Flavour in Butter
Butter Grading

11. Cheese
Hard Varieties
Factors of Viral Importance
Process of Making Cheese
Value of Experiments
Varieties of Sheep's Cheese
Whey Cheese
Potted Cheese
Filled Cheese

12. Refrigeration
Testing Butter at Different Stages
Presentation of Butter at Different Stages

13. Condensed and Evaporated Milk
Dried Milk Powder

Skimmed Powder
Malted Powder
Butter Powder
Ghee
Yoghurt
Cheese
Presentation of Common Defects in Cheese
Processed Cheese

14. Milk

15. Co-Operative Role in Dairy Development

16. Technology Processing of Dairy and Dairy Products

Milk Shake
Combination
Steps in Processing
Dried Milk Shake Milk Powder
Dahi from Sweet Cream Butter Milk
Composition
Acidoptiles Milk
Yoghurt from Butter Milk
Cheddar Cheese from Cow Milk
Cheddar Cheese from Buffalo Milk
Mozzarella Cheese
Cottage Cheese
Surti Cheese
Soft Cheese

17. Packaging of Dairy and Milk Products

Form Fill & Seal (FFS) System
Aseptic System
Butter

18. Baby Cereal Food & Milk Powders

Introduction
Uses & Application
Manufacturing Processes of Milk Powder

Raw Material Supplier
Supplier of Plant & Machinery

19. Confectionery Industry-Semi Automatic Plant

Introduction

Properties

Uses and Application

Formulations

Process of Manufacturing

Suppliers of Plant & Machinery

Suppliers of Raw Materials

20. Condensed Milk (Sweetened)

Introduction

Properties

Uses & Application

Methods of Manufacturing

Address of Raw Materials Suppliers

Address of Plant & Machinery Suppliers

List of Plant & Machinery

21. Dairy Farm

Introduction

Uses & Applications of Milk

Composition of Milk

Manufacturing Process

Refrigeration or Freezing System

Addresses of Complete Plant & Machinery Suppliers

List of Plant & Machinery

22. Dairy Products & Milk Packaging in Pouches

Introduction

Properties

Uses & Application

Manufacturing Process

Suppliers of complete Plant & Machinery

Suppliers of Raw Material

List of Plant & Machinery

23. Flavored Milk

Introduction

Flouring Essence
Process of Manufacture
Supplier of Plant & Machineries

24. Ice Cream of Different Flavours

Introduction
Process of Manufacture
Complete Plant & Machinery Suppliers
Raw Material Suppliers

25. Milk Powder

Introduction
Composition of Dry Milk Powder
Property of Milk Powder
Process of Manufacture
Suppliers of Raw Materials
Suppliers of Plant & Machinery

26. Milk Toffee Manufactures

Introduction
Formulation
Manufacturing Process
Complete Plant & Machinery Suppliers
Suppliers of Raw Materials

27. Milk Preservation and Marketing to Wholesalers

Introduction
Properties of Milk
Buying & Collection of Milk
Chilling & Transportation of Milk to Processing Station
Manufacturing Process
Suppliers of Raw Material, Plant & Machinery

28. Paneer

Introduction
Nature of cheese

Classification of Cheese
Uses & Applications
Equipment's Required
Process of Manufacture
Plant & Machinery Supplier
Raw Material supplier

29. Directory Section

30. Machinery Section

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
