The Complete Book on Tomato & Tomato Products Manufacturing (Cultivation & Processing)(2nd Revised Edition)

Code	NI294
Format	paperback
Indian Price	₹1400
US Price	\$150
Pages	344
ISBN	9789381039687
Publisher	NIIR PROJECT CONSULTANCY SERVICES

Description

Tomato is one of the most popular fruit in the world. The products of tomato like paste, juice, ketchup, etc. are widely used in kitchens all around the world. Tomatoes and tomato-based foods are considered healthy for the reason that they are low in calories, but possess a remarkable combination of antioxidant micronutrients.

Tomato industry has been growing significantly over the past several decades. Changing life style and taste of consumers in different countries will motivate the growth of the tomato products market. The industries can retain maximum market share by differentiating their products in the market, by coming up with innovative products and by focusing on different packaged tomato products.

India is one of the largest consumers of tomatoes, as well as the second largest tomato producing country in the world followed by China. Although raw tomato consumption is the mainstream means of consumption in today's India, the market for processed tomato is expected to expand in the near future considering the remarkable economic growth and dietary culture changes.

Tomatoes are widely grown commodity with 136 mt production in the world. There is a big market for tomato products. The market scenario has revealed a positive indication for the specially packed tomato products in local as well as outside market. It is estimated that the total production of processed fruit & vegetable in India is about 15.0 lakh tonne.

The major content of the book are varieties of tomato, select the best seeds and seedlings, growing preparation, canning of tomatoes, how to store & preserve tomatoes, basis for successful cultivation of tomato, crop husbandry, tomato pruning, dehydration/drying of tomatoes, canning of tomatoes, preserving by heating, tomato pulp, tomato paste, tomato ketchup, tomato juice, tomato powder, hazard analysis and critical control points, FPO and Agmark, products packaging, marketing.

The purpose of this book is to present the elements of the technology of tomato preservation. The book explains raw material requirement, manufacturing process with flow diagrams of various tomato products with addresses of plant & machinery suppliers with their photographs. It deals with the products prepared from tomato commercially.

It will be a standard reference book for professionals, entrepreneurs, food technologists, those studying and researching in this important area and others interested in the field of tomato products manufacturing.

Content

1. INTRODUCTION

Varieties of Tomato

Other Tomato Varieties

Major Tomato Growing Belts in India

Botanical Description of Tomato Plant

Uses of Tomatoes

Health Benefits

Home Remedy of Solanum Lycopersicum (Tomato)

Medicinal Uses of Tomato (Solanum Lycopersicum)

Benefits of Tomato

Lower Cholesterol

Reduce Heart Disease

Lower Blood Pressure

Regulates Blood Sugar

Counteract Acidosis

Reduce Migraines

Boost Immunity

Natural Sunscreen

Strengthen Bones

Treatment of Vasodilation

Lead Toxicity

Eye Disorder

Combating Stroke

Mood

Wound Repair

Diabetes

2. BASIS FOR SUCCESSFUL CULTIVATION OF TOMATO

Climate and Soil

Temperature and Light

Climate Zones for Tomato Varieties

Zone A

Zone B

Zone C

Soil

Water and Humidity

Choice of Varieties

Growing Preparation

Site Selection

Land Preparation

Purchasing Tomato Seedlings

Seedlings
Nursery Management
Crop Spacing and Arrangement
Transplanting

3. CROP HUSBANDRY

Bulky Organic Manures
Farmyard Manure
Sheep and Goat Manure
Poultry Manure
Concentrated Organic Manures
Oil Cakes
Major Sources of Manures
Advantages of Organic Manures
Fertilizers
Nitrogen
Phosphorus
Potassium
Calcium
Minor Elements
Watering/Irrigation
1. Surface Irrigation
2. Sprinkler Irrigation
3. Drip Irrigation
Pruning
Pruning to Shape
Nipping
Heading
Trimming Leaves
Weed Control
Crop Rotation
Protected Cultivation
Greenhouses
Climate Control
Water Supply and Crop Husbandry
Types and Constructions
Financial Turnover
Organic Farming
Soil Fertility
Crop Rotation
Sanitation Practices

4. TOMATO PRUNING

Pruning Unstaked Plants

Pruning Tops of Plants

Pruning Roots

Identify Tomato Suckers

Support Systems

Staking and Spacing Options: Cages, Fences, or Stakes

Basic Reasons for Pruning

Types of Pruning Cuts

Types of Training Systems

Pruning and Fruit Quality

Fruit Size

Hollowness

Earliness and Harvest Period

Types of Pruning Maintenance

5. DEHYDRATION/DRYING OF TOMATOES

Preparation

Drying Methods

1. Sun Drying

2. Oven Drying

3. Dehydrator Drying

Packaging and Storage

Health Benefits of Sun Dried Tomatoes

Description of the Tomato Drying System

6. CANNING OF TOMATOES

Preparing Equipment

Preparing Tomatoes

Packing the Jars

Adding Acid

Adding Salt

Closing the Jars

Processing

Step-By-Step Canning

Boiling Water Method

Step-By-Step Canning

Pressure Canner Method

Cooling the Jars

Testing the Seal

Storing

Before Using

7. PRESERVING BY HEATING

Introduction

Advantages

Disadvantages

Packing

Tins

Glass

Types of Heating

Pasteurization

Sterilization in a Bath of Boiling Water

Sterilization with a Pressure Cooker or Autoclave

Tins

Glass Jars

Storage and Consumption

8. TOMATO PULP

Introduction

Manufacturing Process of Tomato Pulp

Sorting

Washing and Trimming

Crushing

Pulping

Hot Process

Process Flow Diagram

9. TOMATO PASTE

Introduction

Raw Material Requirements

Manufacturing Process of Tomato Paste

Process Flow Diagram

10. TOMATO KETCHUP

Introduction

Uses of Tomato Ketchup

Ingredients Required

Process Description

Process Flow Diagram

11. TOMATO JUICE

Introduction
Manufacturing Process of Tomato Juice
Washing and Trimming
Crushing
Hot Pulping
Extraction of Juice
Deaeration
Acidification
Common Salt and Sugar
Packing
Homogenization
Thermal Processing of Tomato Juice
In-Can Processing
Bulk Processing
Process Flow Diagram

12. TOMATO POWDER

Introduction
Uses & Applications
Procedure for Making Tomato Powder
Primary Method
Secondary Method
Process Flow Diagram

13. HAZARD ANALYSIS AND CRITICAL CONTROL POINTS

Terms Used in HACCP
Developing a HACCP Plan
1. Assemble the HACCP Team
2. Describe the Food and its Distribution
3 Describe the Intended Use and Consumers of the Food
4. Develop a Flow Diagram which Describes the Process
5. Verify the Flow Diagram
Principles of HACCP
1. Conduct a Hazard Analysis
2. Determine Critical Control Points (CCPs)
3. Establish Critical Limits
4. Establish Monitoring Procedures
5. Establish Corrective Actions
6. Establish Verification Procedures
7. Establish Record-keeping and Documentation Procedures
Prerequisite Programs

14. FPO AND AGMARK

Goals of Ministry of Food Processing Industries (MOFPI)

Roles of MOFPI

Policy Support

Developmental

Promotional

Regulatory

Organization Chart of Ministry of Food Processing Industries

FPO Registration is Available for Following Products

Requirement For FPO Application Proceedings

AGMARK

Salient Features of AGMARK Products

AGMARK Products are Manufactured After

Grading and Marking of Vegetable Oils Under AGMARK

Agmark Registration is available for following Products

Requirement of Agmark Application Proceedings

15. PRODUCTS PACKAGING

Introduction

Definition of Food Packaging

Functions of Packaging Material

Packaging Materials for Tomato and its Products

Packaging of Tomato

Flexible Packaging

Forms of Flexible Packaging

Manufacturing Techniques

Plastics in Food Packaging

Use of Plastics in Food Packaging

Types of Plastics Used in Food Packaging

Types of Plastic Used in Packaging

Polyethylene

Polypropylene (PP)

Polyethylene Terephthalate (PET or PETE)

Polyethylene Naphthalene Dicarboxylate (PEN)

Flexographic Printing

Digital Printing

Printing and Labelling of Rigid Plastic Containers

In-mould Labelling

Labelling

Dry Offset Printing

Silk Screen Printing

Heat Transfer Printing
Glass and Glass Container Manufacture
Melting
Container Forming
Design Parameters of Glass Containers
Surface Treatments
Hot End Treatment
Cold End Treatment
Low-Cost Production Tooling
Container Inspection and Quality
Conclusion
Precautions during Packing

16. MARKETING

Functions of Marketing
Promotional Techniques
The Product Concept
Some Characteristics of Market Segmentation
Organization for New-Product Development
Developing New Products
Planned Obsolescence
Product Line Relationships
Product Features
The Sales Process

17. PLANT AND MACHINERY PHOTOGRAPHS

18. SAMPLE PLANT LAYOUT

19. ADDRESSES OF PLANT & MACHINERY SUPPLIERS

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of

Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
