Handbook on Meat Products Manufacturing (Processing, Preservation and Packaging)

Code	NI375
Format	paperback
Indian Price	₹2195
US Price	\$225
Pages	320
ISBN	978-81-940995-5-0
Publisher	Asia Pacific Business Press Inc.

Description

Content

Contents

1. HOW TO START A MEAT PROCESSING AND PRESERVATION BUSINESS

- 1.1. Introduction
- 1.2. Business Planning
 - 1.2.1. Market Research
 - 1.2.2. Business Structure
 - 1.2.3. Location Selection
 - 1.2.4. Legal Compliance
 - 1.2.5. Hygiene Standards
 - 1.2.6. Equipment Setup
 - 1.2.7. Meat Processing Methods
 - 1.2.8. Marketing Strategies
 - 1.2.9. Start-up Costs

2. MEAT PROCESSING

- 2.1. Introduction
- 2.2. Conversion of Muscle to Meat
- 2.3. History of Meat Processing
 - 2.3.1. Prehistoric Era - The Origins
 - 2.3.2. Ancient Civilizations (3000 BCE - 500 CE)
 - 2.3.3. Medieval Period (500 - 1500 CE)
 - 2.3.4. Renaissance to Early Industrial Period (1500 - 1800 CE)
 - 2.3.5. Industrial Revolution (1800 - 1900 CE)
 - 2.3.6. 20th Century - Automation and Regulation
 - 2.3.7. 21st Century - Modern Practices
- 2.4. Evolving Purposes and Advantages of Meat Processing
- 2.5. Machinery Used In Meat Processing

3. BUSINESS PLAN FOR MEAT PROCESSING UNIT

- 3.1. Components of a Business Plan
 - 3.1.1. Executive Summary
 - 3.1.2. Market Analysis
 - 3.1.3. Operations Plan

(vi)

- 3.1.4. Regulatory and Environmental Considerations
- 3.1.5. Organizational Structure and Staffing
- 3.1.6. Marketing and Sales Strategy
- 3.1.7. Financial Plan

- 3.1.8. Risk Analysis and Barriers to Entry
- 3.1.9. Sustainability and Growth
- 3.2. Challenges of a Business Plan for Meat Processing Units
 - 3.2.1. High and Unstable Raw Material Costs
 - 3.2.2. High Operational and Financing Costs
 - 3.2.3. Thin Profit Margins and Seasonality
 - 3.2.4. Regulatory Compliance and Food Safety
 - 3.2.5. Labour Shortages and Skills Gap
 - 3.2.6. Marketing and Distribution Challenges
 - 3.2.7. Limited Processing Infrastructure
 - 3.2.8. Access to Finance
 - 3.2.9. Supply Chain and Inventory Management
 - 3.2.10. Sustainability and Animal Welfare
- 3.3. Advantages of a Business Plan for Meat Processing Units
 - 3.3.1. Clarifies Business Goals and Strategies
 - 3.3.2. Facilitates Access to Financing
 - 3.3.3. Improves Decision-Making
 - 3.3.4. Identifies Market Opportunities
 - 3.3.5. Enhances Operational Efficiency
 - 3.3.6. Strengthens Competitive Position
 - 3.3.7. Supports Risk Management
 - 3.3.8. Guides Expansion and Innovation
 - 3.3.9. Facilitates Communication and Partnerships
 - 3.3.10. Monitors Progress and Performance
- 4. PROCESSING OF MEAT PRODUCTS
 - 4.1. Product and Their Processing Techniques
 - 4.2. Product-Wise Processing Of Meat
 - 4.2.1. Process of Sausages making
 - 4.2.2. Process of Ham Making
 - 4.2.3. Process of Bacon Making
 - 4.2.4. Process of Meatball Production
 - 4.2.5. Process of Frankfurters (Hot Dogs) Production
 - 4.2.6. Process of Salami Making

 - (vii)
 - 4.2.7. Process of Canned Meats Making
 - 4.2.8. Process of Kebabs/Skewers Making
 - 4.3. Product-wise Processing Methods
 - 4.3.1. Fresh and Raw Meat Products
 - 4.3.2. Comminuted and Emulsified Meat Products

- 4.3.3. Cured and Salted Meat Products
- 4.3.4. Smoked Meat Products
- 4.3.5. Fermented Meat Products
- 4.3.6. Dried and Dehydrated Meat Products
- 4.3.7. Canned and Shelf-Stable Meat Products
- 4.3.8. Ready-to-Eat (RTE) and Fully Cooked Meat Products
- 4.3.9. Pickled and Marinated Meat Products
- 4.3.10. High Pressure Processed (HPP) Meat Products
- 4.4. Main Steps Involved in the Processing of Meat Products

5. TENDERNESS

- 5.1. Pre-Slaughter Factors That Determine Meat Tenderness
- 5.2. Post-Slaughter Factors That Determine Meat Tenderness
- 5.3. Post-Mortem Storage Conditions, Proteolytic Systems and Meat Tenderness
- 5.4. Effect of Post-Mortem Storage on Proteolytic Systems and Meat Tenderness
- 5.5. The Role of Collagen in Meat Tenderness
- 5.6. Influence of Collagen on Meat Tenderness
- 5.7. Thermal Behavior and Cooking Impact
- 5.8. Biological and Processing Factors Influencing Collagen
- 5.9. Technological and Biochemical Interventions
- 5.10 Key Points on Collagen and Meat Tenderness

6. FLAVOUR AND TENDERNESS

- 6.1. Simultaneous Flavouring and Tenderizing Action of Molds and Bacteria
 - 6.1.1. Action of *Thamnidium elegans*
 - 6.1.2. Pre-Rigor Mortis Injection of *Aspergillus niger* Mycelium
 - 6.1.3. Acid Activation of *Thamnidium elegans*
 - 6.1.4. Anta-Mortem injection of *Thamnidium* and *Aspergillus*
 - 6.1.5. *Thamnidium* and Antibiotic Synergism

- 6.1.6. Action of *Pseudomonas* and *Achromobacter*
- 6.2. Combined Action of Flavoring and Tenderizing Agents
 - 6.2.1. Monosodium Glutamate Eliminates Mutton Flavour
 - 6.2.2. Application of Dry Tenderizer and Flavouring Materials
 - 6.2.3. Inhibition of Warmed-Over Flavour

7. FLAVOURING

- 7.1. Meat Hydrolystates and Extracts
 - 7.1.1. Acid Hydrolysis of Water-Insoluble Meat Residue
 - 7.1.2. Fractionation of the Flavour Precursor
 - 7.1.3. Hydrolysis of Meat
 - 7.1.4. Bone Hydrolysates and Extracts
 - 7.1.5. Continuous Counterflow Hydrolysis

- 7.1.6. Continuous Hydrolysis
- 7.1.7. Protein Hydrolysate
- 7.2. Synthetic Flavouring
 - 7.2.1. Cysteine and Glyceraldehyde Base
 - 7.2.2. Cysteine and Ribose
 - 7.2.3. Derivatives of Mercapto-Acetaldehyde
 - 7.2.4. □ - Ketobutyrate, Inosinate, and Glutamate Base
 - 7.2.5. Nitrite and Amino Acids
 - 7.2.6. Cysteine, Sugar, Inosinate, and Protein Hydrolysate Base
 - 7.2.7. Cysteine, Thiamine and Proteinaceous Substance Base
 - 7.2.8. Ribose, Glycerol, Proline, Cysteine, and Methionine
 - 7.2.9. Amino-Carbonyl Complexes from Protein Hydrolysates
 - 7.2.10. Heat-Treated Slurried Meat and Ascorbic Acid

8. COLOUR

- 8.1. Ante-Mortem Treatment
 - 8.1.1. Adrenalin and Ascorbic Acid
- 8.2. Treatment with Gaseous Atmosphere
 - 8.2.1. Carbon Monoxide
 - 8.2.2. Oxygen Under Pressure
 - 8.2.3. Ammonia
- 8.3. Hemoglobin Base Colouring Compositions
 - 8.3.1. Stable Compositions in Liquid and Paste Form
 - 8.3.2. Compositions in Dry Powder Form
- 8.4. Chemical Treatment
 - 8.4.1. Certified Monoazo Red Dyes
 - 8.4.2. Ascorbate, Phosphate, and Citrate
 - 8.4.3. Ascorbate, Gelatin, and Monosodium Glutamate
 - 8.4.4. Imidazole
 - 8.4.5. Metal Ions Ashed from Biological Tissues
 - 8.4.6. Beta-Carotene
 - 8.4.7. Nicotinic Acid Spray
- 8.5. Mechanical Treatment
 - 8.5.1. Removal of Residual Blood
 - 8.5.2. Protection of Bone Color of Primal Cuts

9. PRESERVATION : MOISTURE RETENTION AND SURFACE PROTECTION

- 9.1. Long Chain Hydrocarbon Coating
- 9.2. Fatty Alcohol or Fatty Acid Protective Film
- 9.3. Preliminary Ice Coating

- 9.4. Intermediate Glycerol Layer
- 9.5. Intermediate Water Layer
- 9.6. Lactic Acid-Fatty Acid Triglycerides
- 9.7. Water-in-Oil Emulsion Containing Gum
 - 9.7.1. Mixture of Mono- and Diglycerides in Oil
- 9.8. Acetylated Monoglycerides
- 9.9. Plastic Coating
- 9.10. Ethylcellulose Plasticized with Mineral Oil
 - 9.10.1. Ethylcellulose Plasticized with Edible Oil
 - 9.10.2. Plasticized Cellulose Propionate Containing Glycol
- 9.11. Amorphous Polypropylene
- 9.12. Chemical and Other Treatments
 - 9.12.1. Sodium Chloride and Phosphate Solution
 - 9.12.2. Injection of Water and Citric Acid
 - 9.12.3. Hydrated Sodium Tripolyphosphate
 - 9.12.4. Coating Powder Containing Syrup and Starch
- 10. PACKAGING AND HANDLING FOR STORAGE AND TRANSPORTATION
 - 10.1. Various Methods of Packaging
 - 10.1.1. Vacuum Packaging and Storage Below 50C
 - 10.1.2. Hot Carcass Processing and Impermeable Packaging
 - 10.1.3. Vacuum Packaging and Hot Water Spraying
 - 10.1.4. Processing of Partially Cooled Carcass
 - 10.2. Controlled Atmosphere Environment
 - 10.2.1. Cryogenic Oxygen-Nitrogen Atmosphere
 - 10.2.2. Carbon Dioxide-Oxygen-Nitrogen Atmosphere
- 11. COOKING METHODS
 - 11.1. Broiling in Oxtgen-Free Atmosphere with Intense Infrared Heat
 - 11.2. Continuous Steam Cooking of Ground Meat
 - 11.3. Controlled Electrical Cooking
 - 11.4. High Pressure Roasting in Air Medium
 - 11.5. Cooking Between Compressed Plates
 - 11.6. Roasting in Suspended State
- 12. TECHNOLOGY INNOVATIONS IN MEAT PROCESSING
 - 12.1. Automation in Modern Meat Plants
 - 12.1.1. Robotic Cutting and Deboning
 - 12.1.2. Automated Packaging and Palletizing
 - 12.1.3. Benefits of Automation
 - 12.1.4. AI-Driven Advancements

- 12.1.5. Process Optimization
- 12.1.6. Consumer-Centric Innovation
- 12.2. Real-Time Temperature Tracking
- 12.3. Benefits of IoT
- 12.4. Synergy of Automation, AI, and IoT
- 12.5. Pros and Cons of Technology Innovations in Meat Processing
 - 12.5.1. Pros
 - 12.5.2. Cons
- 12.6. How Can Automation Reduce Labor Costs in Meat Processing Plants
- 13. GOVERNMENT REGULATIONS FOR MEAT PROCESSING
 - 13.1. Introduction
 - 13.2. Historical Context of Meat Processing Regulations
 - 13.3. Global Principles Governing Meat Processing

 - 13.4. Regional Regulations
 - 13.4.1. India
 - 13.4.2. United States
 - 13.4.3. European Union
 - 13.5. Ethical Considerations
 - 13.6. Emerging Trends in Meat Processing Regulations
 - 13.7. Challenges in Implementation
- 14. EXPORT OF MEAT PRODUCTS
 - 14.1. Introduction
 - 14.2. Market Research and Planning
 - 14.3. Legal and Regulatory Compliance
 - 14.4. Sourcing and Processing
 - 14.5. Packaging and Labelling
 - 14.6. Cold Chain Management
 - 14.7. Documentation
 - 14.8. Customs Clearance
 - 14.9. Logistics and Shipping
 - 14.10. Marketing and Distribution
 - 14.11. Post-Sale Activities
- 15. BIS SPECIFICATIONS
- 16. PLANT LAYOUT DESCRIPTION FOR MEAT PROCESSING AND PRESERVATION BUSINESS
 - 16.1. Key Components of the Plant Layout
 - 16.2. Flow of Operations
 - 16.3. Safety and Hygiene Measures

16.4. Space Allocation

17. PLANT LAYOUT AND PROCESS FLOW DIAGRAMS

18. PHOTOGRAPHS OF PLANT AND MACHINERY

WITH SUPPLIERS CONTACT DETAILS

- Meat Bowl Chopper
- Meat Dicer
- Meat Ball Forming Machine
- Automatic Hamburger Machine
- Uv Steriliser Model Gs-1
- Meat Mincer
- Marinator
- Smoke House

(xii)

- Breeding and Battering Machine
- Sausage Filler
- Slaughterhouse Machinery
- Vacuum Tumbler
- Frozen Meat Block Cutter
- Meat Grinding Machine
- Tunnel freezer
- Meat Brine Injector Machine
- Tenderizer Machine

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of

the inputs in their research.
