Alkyd Resins Technology Handbook (2nd Edition)

Code	NI230
Format	paperback
Indian Price	₹1995
US Price	\$200
Pages	488
ISBN	9788178331348
Publisher	Asia Pacific Business Press Inc.

Description

Alkyd resin is a low molecular weight Ester, formed when polymeric alcohols react with mono- or polymeric acids. An alkyd is a polyester modified by the addition of fatty

acids and other components. Alkyds are derived from polyols and a dicarboxylic acid or carboxylic acid anhydride. The inclusion of the fatty acid confers a tendency to form a flexible coating.

Alkyd resins are versatile synthetic polymers widely used in paints, coatings, varnishes, and inks due to their excellent adhesive, durability, and drying properties. This handbook provides guidance on the production of alkyd resins, right from raw materials to the final product formulation, making it an indispensable resource for those in the chemical and coatings industries.

The **global alkyd resin market size was estimated at USD 4.79 billion** and is expected to grow at a **CAGR of 4.2%**. Increasing demand from paints & coatings in automobile and architecture industry is anticipated to significantly drive the market growth during the forecast period. According to the International Organization of Motor Vehicle Manufacturers, the global production of automotive vehicles increased by 10% reaching 93.5 million units. In the automotive sector, these resins are highly valued for their durability, excellent gloss retention, and strong adhesion properties. As automobile manufacturers seek high-quality coatings that can withstand harsh environmental conditions and provide a sleek finish, alkyd resins offer an effective solution. This increasing adoption in automotive coatings is anticipated to contribute significantly to market growth.

This book contains in-depth information about alkyd resin, covering Alkyd resins production from bio-based resources, formulation, Importance, The basic chemistry of unsaturated polyesters, Factors affecting alkyd production, Monitoring the alkyd reactions, Alkyd calculations, Alkyd formulations, Practical alkyd formulations, Assessment of the performance of single and multicoat red iron oxide-alkyd paint systems, Styrenated alkyd resins based on maleopimaric acid, Mechanical properties of alkyds resin varnish, Modification of alkyds, Copolymerization of alkyd silicons for coatings, Styrene copolymers in alkyd resins, Blends of polystyrene glycol and alkyds in surface coatings, Mechanical properties of modified alkyd resins, Polyblends of polystyrene glycol and alkyd in surface coatings, Calculation of alkyd properties, Alkyd nomograms, Gas chromatographic analysis of the carboxylic acid components of alkyd resins, Methods of analysis of alkyd resins. The Manufacturing Process, Machinery, Equipment Details and Photographs with Suppliers Contact Details are also given.

Content

Table of Contents:

1. Introduction
2. Alkyd Resins Production from Bio-Based Resources
3. Alkyd Resin Manufacturing with Formulation
4. Importance of Alkyds
5. The Basic Chemistry of Unsaturated Polyesters
6. Factors Affecting Alkyd Production
7. Monitoring the Alkyd Reactions
8. Alkyd Calculations
9. Alkyd Formulations
10. Practical Alkyd Formulations
11. Assessment of the Performance of Single and Multicoat Red Iron Oxide-Alkyd Paint Systems
12. Styrenated Alkyd Resins based on maleopimaric acid
13. Mechanical Properties of Alkyds Resin Varnish Films and the effect of different weathering conditions on them
14. Modification of Alkyds
15. Copolymerization of Alkyd Silicons for Coatings
16. Styrene Copolymers in Alkyd Resins
17. Blends of Polystyrene Glycol and Alkyds in Surface Coatings
18. Mechanical Properties of Modified Alkyd Resins
19. Polyblends of Polystyrene Glycol and Alkyd in Surface Coatings
20. Calculation of Alkyd Properties
21. Alkyd Nomograms
22. Gas Chromatographic Analysis of the Carboxylic Acid Components of Alkyd Resins
23. Methods of Analysis of Alkyd Resins
24. How to Start Alkyd Resin Manufacturing Business
25. Plant Layout Description for Alkyd Resin Manufacturing
26. BIS Standards
27. Plant Layout and Process Flow Chart & Diagram
28. Photographs of Plant and Machinery with Suppliers Contact Details

About Niir

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project

engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
