

Neem Oil and Neem Cake Production Business

Description:

Neem Oil and Neem Cake Production Business. Setting up a Neem (*Azadirachta indica*) Processing Plant

The material left after oil is squeezed out from seeds and is popularly known as the seed cake; it acts as a bio fertilizer and helps in providing the required nutrients to plants. It is widely used to ensure a high yield of crops.

Neem oil is a vegetable oil pressed from the fruits and seeds of the Neem tree, *Azadirachta indica*, which is endemic to the Indian sub-continent and has been introduced to many other areas in the tropics. Neem seed oil can also be obtained by solvent extraction of the neem seed, fruit, oilcake or kernel.
