

Bottling of Country Liquor

Description:

Bottling of Country Liquor. Liquor Bottling Plant. Business Opportunities in Alcoholic Beverages Industry

Country Liquor Is a category of liquor made in the countryside of the Indian subcontinent, one of whose variants is there. It is traditionally prepared from a procedure that has been passed down for centuries. It is the primary and most popular alcoholic beverage in India's villages and for the below poverty line class in urban and city areas. It is fermented and distilled from molasses which is a byproduct of sugarcane.
