

Corrugated Galvanized Sheet, Corrugated Galvanised Iron (CGI) Sheets, Pressure Steel Sheet, Corrugated Utility Gauge Galvanized Steel Roof Panel, Corrugated Metal Roofing Sheets Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industr

Description:

Galvanized Corrugated Sheets are manufactured using best grade steel and is widely applied in construction industry. Galvanized Corrugated Sheets have excellent corrosion resistance, these Sheets have become the most preferred material for various construction purposes, particularly roofing and walling.

The demand for corrugated iron sheet depends mainly on the performance of its end-user (i.e. the construction sector or more specifically the building construction sector). Therefore, the demand for the products under consideration is a derived demand, which depends directly on the performance of its major end – user. The construction sector of the country has undergone tremendous changes and development in recent years. The contribution of the construction sector to the GDP during the period 2001 – 2010 have been growing at annual average growth rate of 13 percent which is above the average annual growth rate of real GDP during the period under consideration (11.4 %), indicating a rise in the share of the construction sector within the overall economy. Moreover, during the GTP period (2010 – 2015), the construction sector is expected to grow at annual average growth rate of 20%.
