Howto Start Your Own Helmet Manufacturing Company. Profitable BusinessOpportunities for Startups.

Ahelmet is a type of head protection that is worn on the head. A helmet, inparticular, works in conjunction with the skull to shield the human brain.Ceremonial or symbolic helmets (such as a police officer's helmet in the UnitedKingdom) with no protective feature are sometimes worn. Soldiers wear Kevlar orother lightweight synthetic fabrics in their combat helmets. The word helmetcomes from the Old English word helm, which refers to a protective headcovering.
