Description:

Investment Opportunities in Business of Small Volume Parenteral Solutions (SVPs). Fastest-Growing Industry of Pharmaceuticals.

SVP (small volume parenteral) solutions are typically 100 mL or less in volume and are packaged in a variety of ways depending on their intended usage. If the SVP is a liquid that is primarily used to deliver pharmaceuticals, it is supplied in a 50-100 mL mini bag (mini bags look like small plastic LVP bags).
