

Start Business of Surgical Hand Gloves Manufacturing. Rising Demand of Surgical Hand Gloves in Covid-19 Pandemic.

Description:

Start Business of Surgical Hand Gloves Manufacturing. Rising Demand of Surgical Hand Gloves in Covid-19 Pandemic.

Medical gloves are surgical gloves used to avoid cross-contamination between caregivers and patients during medical examinations and procedures. Medical gloves are made of various polymers such as latex, nitrile rubber, polyvinyl chloride, and neoprene; they are either unpowered or powdered with corn starch to make them easier to put on the hands.
