

Entrepreneur's Startup Handbook: Manufacturing of Profitable Household (FMCG) Products with Process & Formulations

Description:

'Startup India, Stand-up India'

"Can India be a 'Startup Capital'? Can the youth in the states have the opportunities in the form of start-ups, with innovations, whether it be manufacturing, service sector or agriculture?"

--- Narendra Modi, Prime Minister of

India

India Government is promoting finance for start-up ventures and providing incentives to further boost entrepreneurship, manufacturing and job creation. The correct choice of business is an extremely essential step in the process of 'being your own boss'. This handbook contains few formulations of cosmetic products, properties and manufacturing process with flow diagrams of various products. After gathering the above information of products, the decision of choosing an appropriate one will no longer be a cumbersome process.

The Fast-Moving Consumer Goods (FMCG) sector, also called the consumer packaged goods (CPG) sector, is one of the largest industries worldwide. FMCGs are generally cheap products that are purchased by consumers on a regular basis. FMCG sector is the fourth largest sector in the economy and creates employment for more than three million people in downstream activities. The FMCG market is estimated to treble from its current figure in the coming decade.

Fast Moving Consumer Goods Companies have been expanding rapidly. Most of the product categories like jams, toothpaste, skin care, shampoos, etc, have low per capita consumption as well as low penetration level, but the potential for growth is huge. The industry has developed both in the small scale sector and organized sector.
