

Identification & Selection of Project, New Business, Industry or Venture (NPCS Newsletter – 042016)

Description:

Projects covered in this issue:

- **Blood Bags:** Blood bag is a disposable bio-medical device used for collection, storage, transportation and transfusion of human blood and blood components. The system consists of a single or multiple bag connected with tubings, needle, needle cover, clamp etc.
- **Precipitated Silica from Rice Husk Ash:** Silica is one of the valuable inorganic chemical compounds. It can exist in gel, crystalline and amorphous forms. It is the most abundant material in the earth's crust. Silica is the major constituent of rice husk ash.
- **Seamless Pipes and Tubes:** The seamless steel pipe industry is almost one century old. The prime reason for the development was provided by transportation sector.
- **Distribution Transformer:** A distribution transformer is a transformer that provides the final voltage transformation in the electric power distribution system, stepping down the voltage used in the distribution lines to the level used by the customer. If mounted on a utility pole, they are called pole-mount transformers (or colloquially a pole pig).
- **Micronutrients Fertilizer for Banana, Vegetables and Citrus:** Micronutrients are elements which are essential for plant growth, but are required in much smaller amounts than those of the primary nutrients; nitrogen, phosphorus and potassium.
- **Extraction of Salt from Sea Water:** Salt is an essential ingredient for the survival of all living creatures, including humans. Salt is needed in regulating the fluid balance or water content of body.

- **Sanitary Napkins:** A sanitary napkin or a sanitary towel is an absorbent item used by a woman while she is menstruating or in any other situation where it is necessary to absorb a flow of blood.
- **HDPE/PP Bags:** HDPE/PP oriented strips are becoming increasingly popular in India & have caught the eye of many end users for their requirement of packing materials.
- **Corrugated Cartons:** Packing, in a way represents the extent of industrialization of a country. Packaging has been assuming importance in the context of growth of industries in general and consumer industries in particular.
- **Health Drink (Cocoa Beverages in Granules Form):** The health food drink market in India is approx. 300,000 MT per annum and is growing at the rate of around 15% per annum. The health food drinks are popularly used as a milk additive for better nutrition and taste.
- **Production Unit of Liquid Washing Soap, Perfumed Bleach for the Wash of White Cloths, Toilet/Tills Hard Stains Remover Liquid , Detergent Powder:** Laundry detergent, or washing powder, is a type of detergent (cleaning agent) that is added for cleaning laundry.
- **Carbonated and Non Carbonated Drinks (Non-Alcoholic):** A carbonated drink is a drink that bubbles and fizzes with carbon dioxide gas. The process by which the gas dissolves in the drink is known as carbonation.

Keywords: Preparation of Techno-Economic Feasibility Reports, Identification and Section of Plant /Process / Equipment, General Guidance, Technical and Commercial Counseling for setting up new industrial projects, Blood Bags, Precipitated Silica from Rice Husk Ash, Seamless Pipes and Tubes, Distribution Transformer, Micronutrients Fertilizer for Banana, Vegetables and Citrus, Extraction of Salt from Sea Water, Sanitary Napkins, HDPE/PP Bags, Corrugated Cartons, Health Drink (Cocoa Beverages in Granules Form)
